

~ AC Spot Test ~

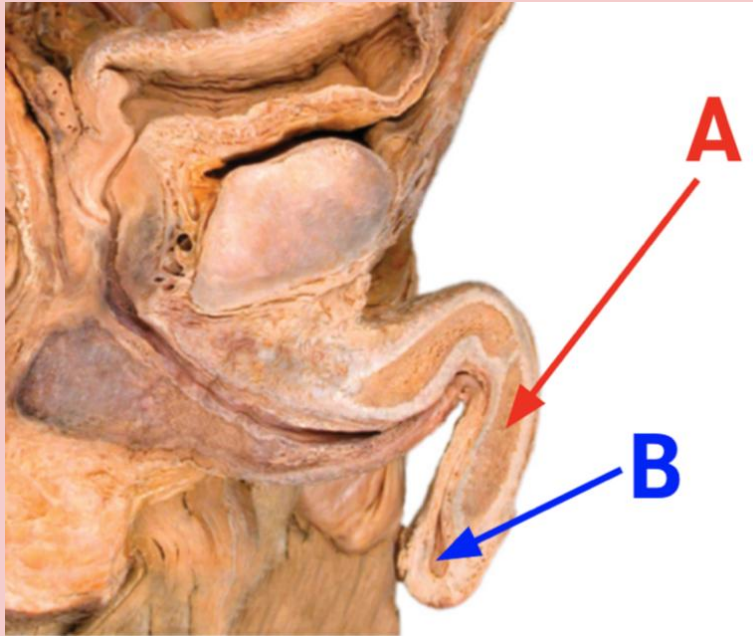

Reproductive system I

By Vchakarn 78

(Filled answers 1/1)

- CaT

01

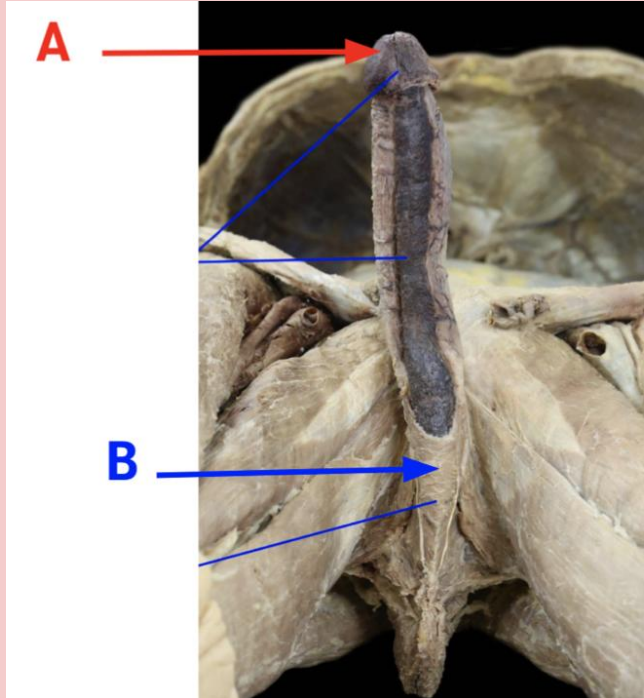

A. Identify structure A

Corpus cavernosum

B. Identify structure B

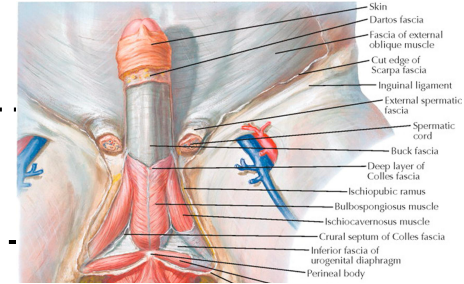

Fossa navicularis

02

A. Identify structure A

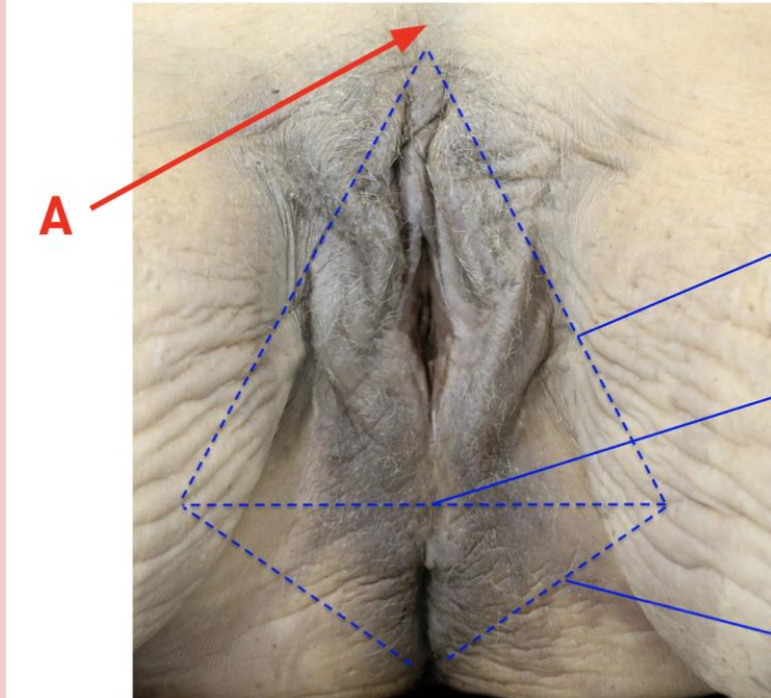

Glans of penis

B. Identify structure B

*Bulbospongiosus m.

03

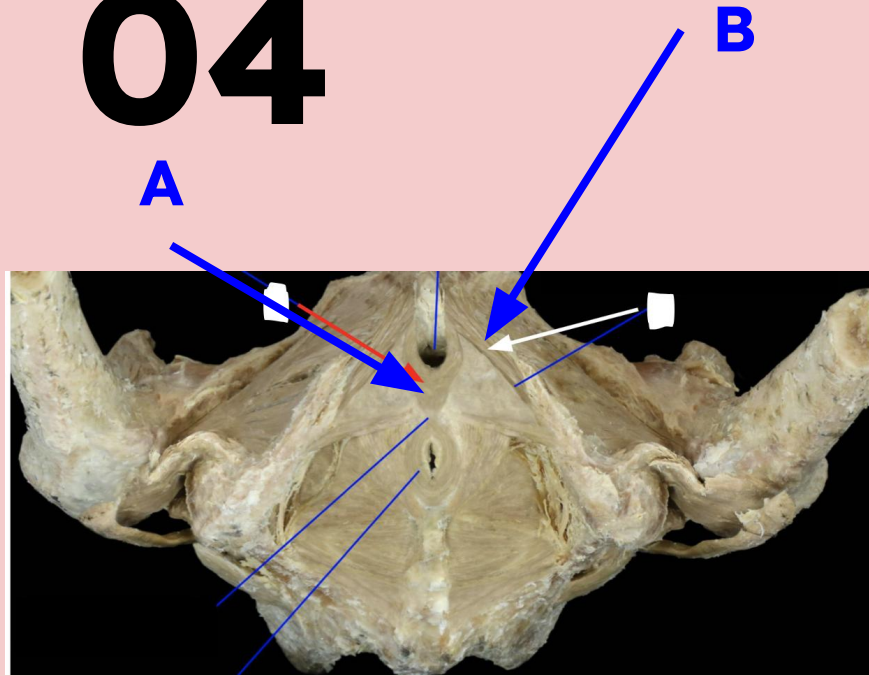

A. Identify area A

Mons pubis

B. What is the nerve that innervates skin in the area A

Ilioinguinal n.

04

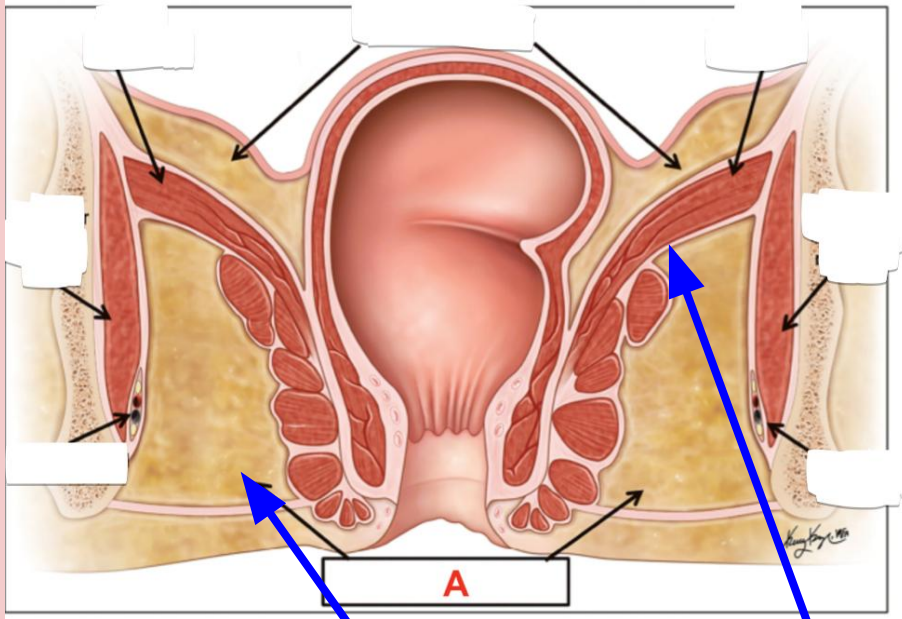

A. Identify muscle A

Bulbospongiosus m.

B. Identify muscle B

Ischiocavernosus

05

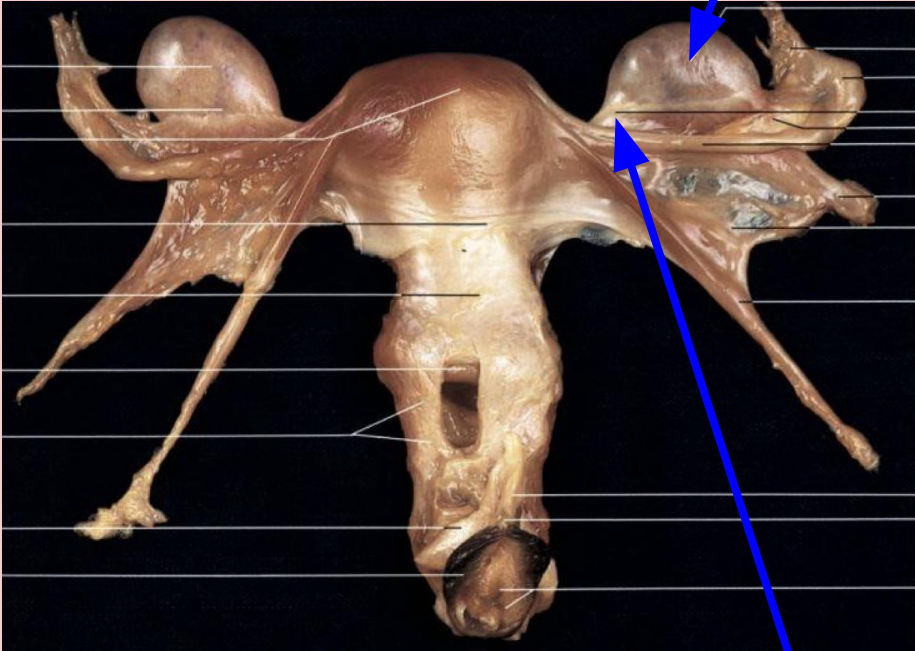

A. Identify space A

Ischioanal fossa

B. Identify structure B

Levator ani m.

06

A

A. Identify structure A

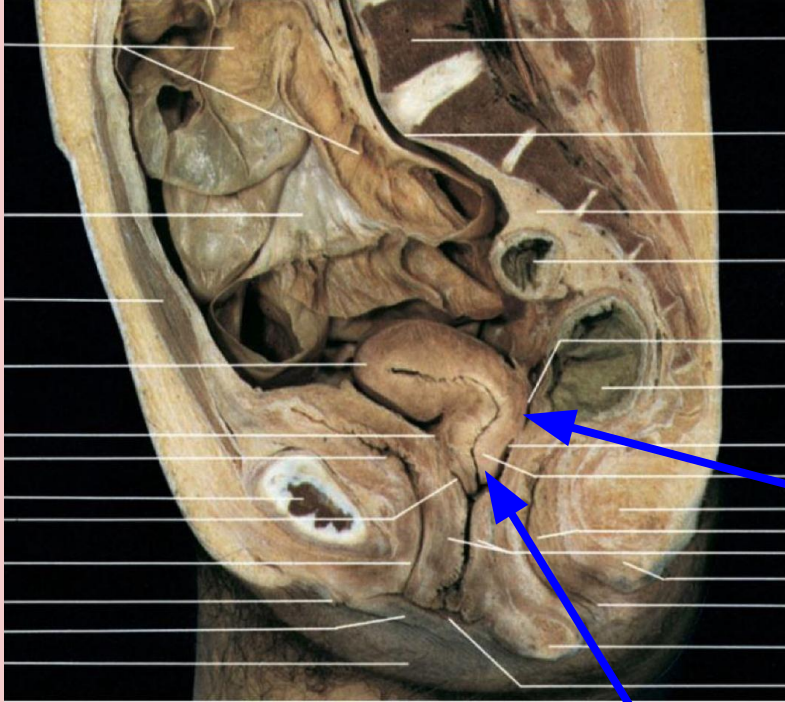

Ovary

B. Identify structure B

Ovarian/Utero-ovarian ligament

B

07

B

A

A. Identify structure A

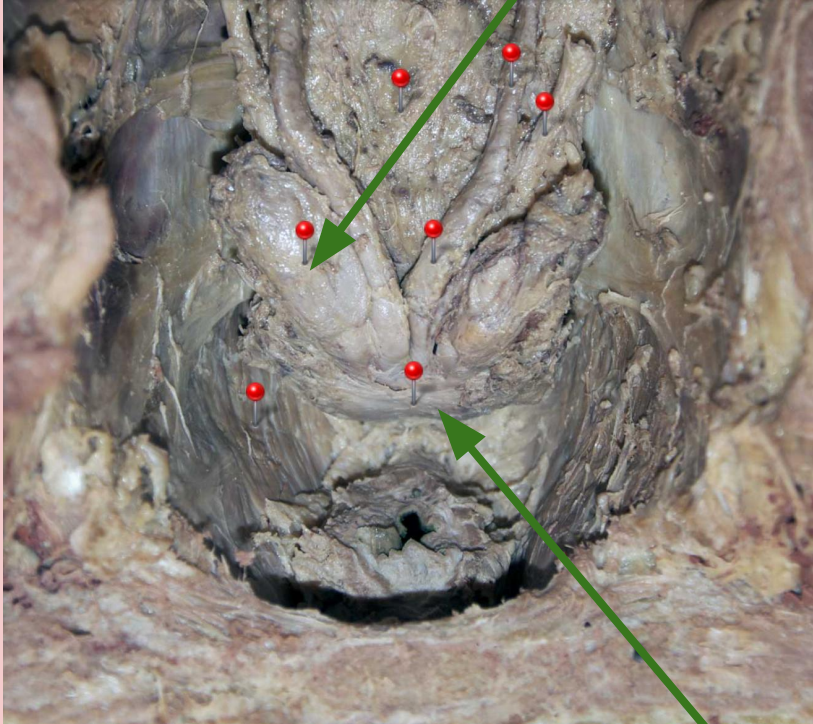

Cervix

B. Identify structure B

Rectouterine pouch

08

B

A

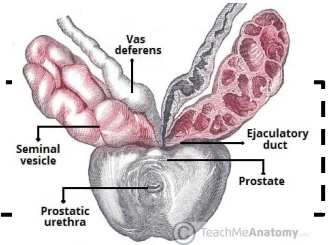

A. Identify structure A

Prostate

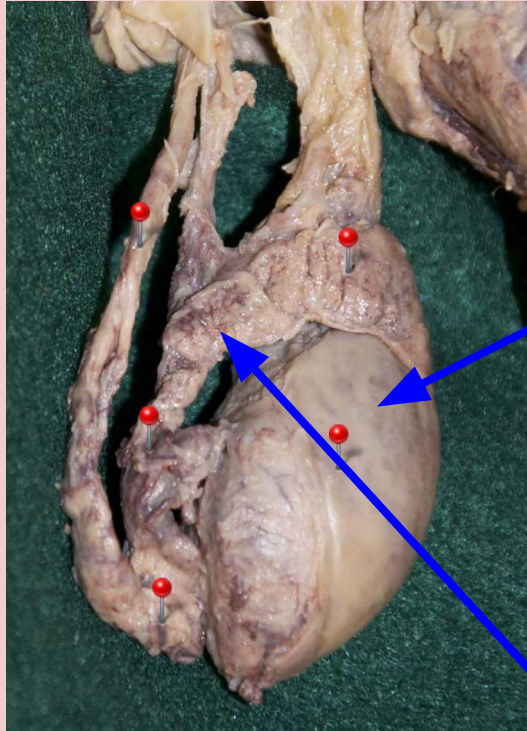

B. Identify structure B

Seminal vesicle

09

A

A. Identify structure A

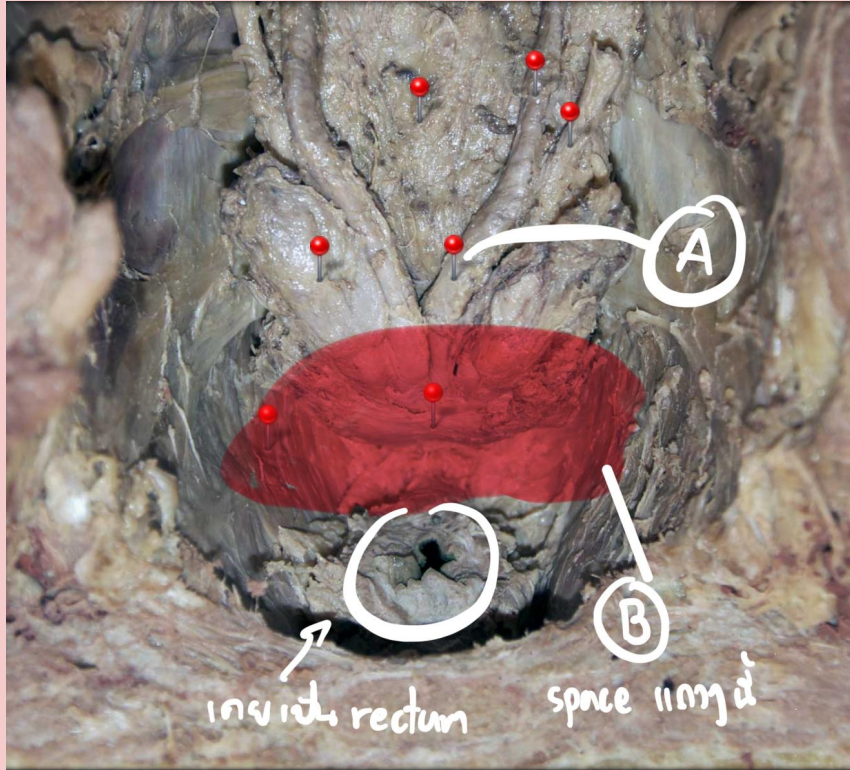

Testis

B. Identify structure B

Epididymis

B

10

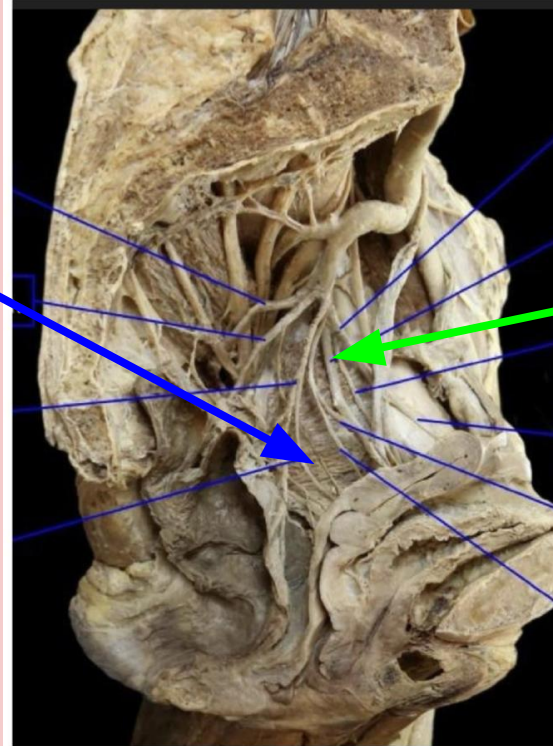

A. Identify structure A

Ampulla of vas deferens

B. Identify space B

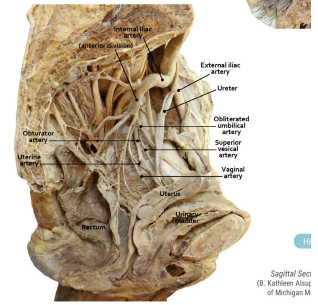

Rectovesicle pouch

11

A. Identify vessel A

Obturator artery

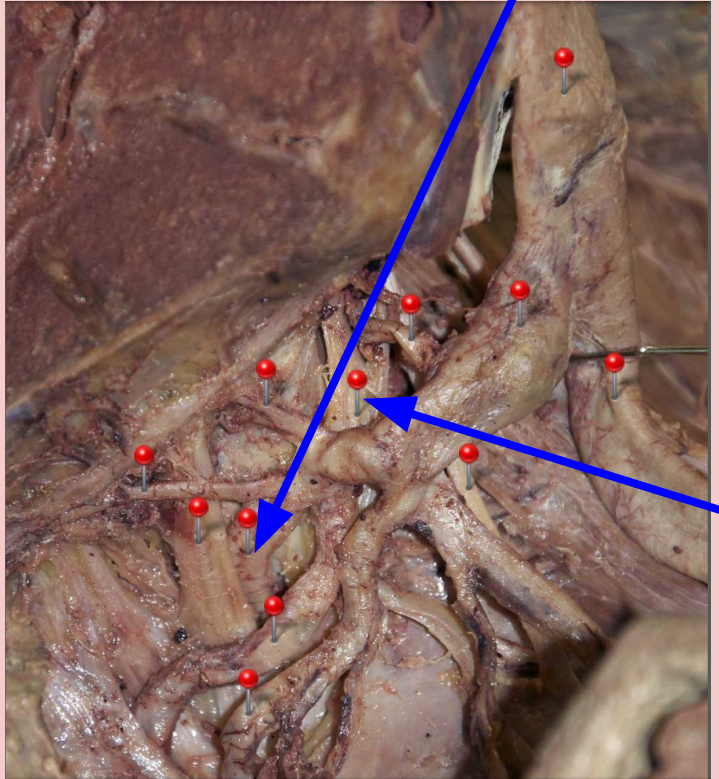

B. Identify muscle B

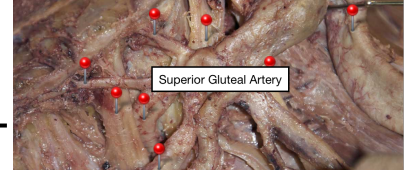

Levator ani

— — —

12

A. Identify structure A

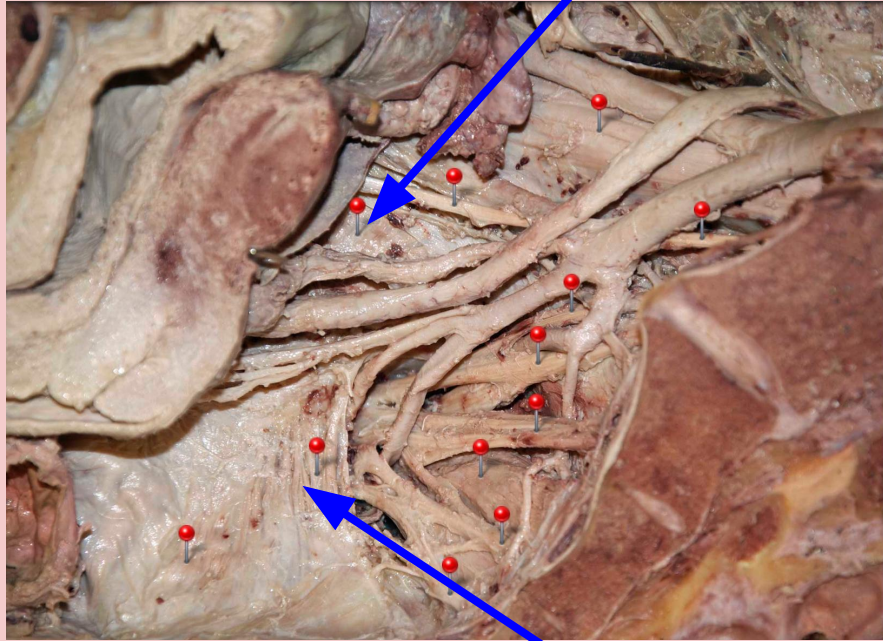

Superior gluteal a.

B. Identify structure B

Lumbosacral trunk

13

A

A. Identify muscle A

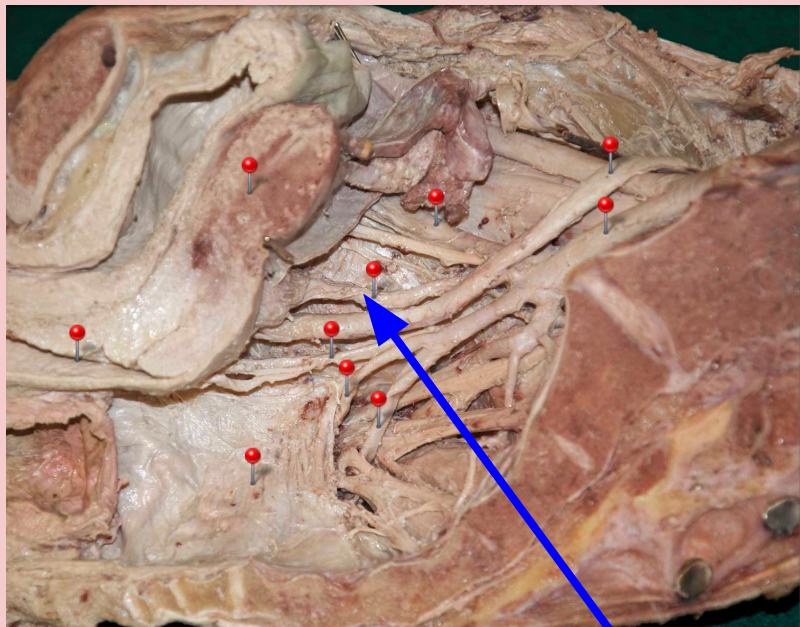

Obturator internus

B. Identify muscle B

Coccyges m.

B

14

A

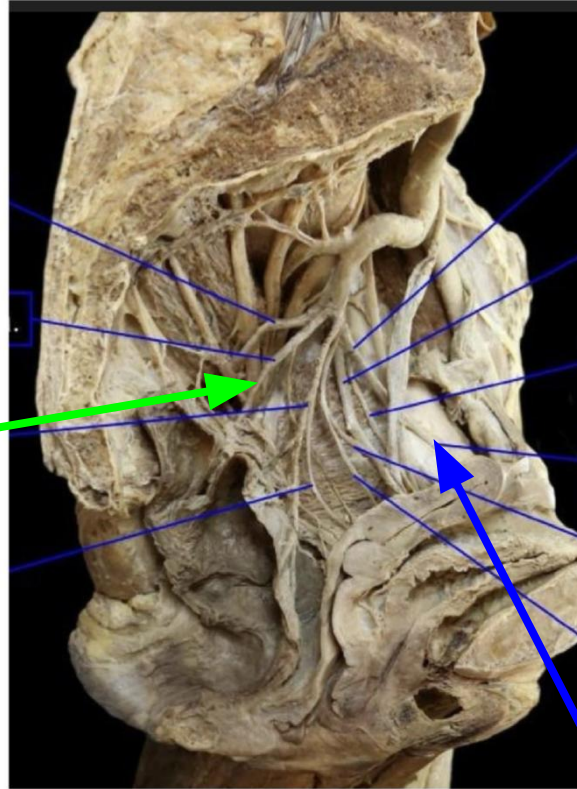

A. Identify structure A

Uterine artery

B. อะไรอยู่ใต้ structure A

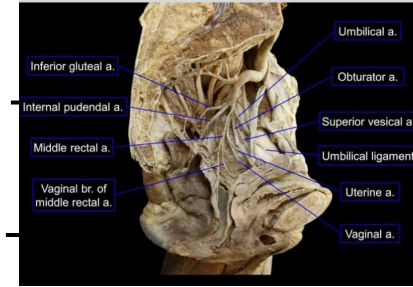

Ureter

15

A. Identify structure A

Internal pudendal a.

B. Identify structure B

Umbilical a.

B

16

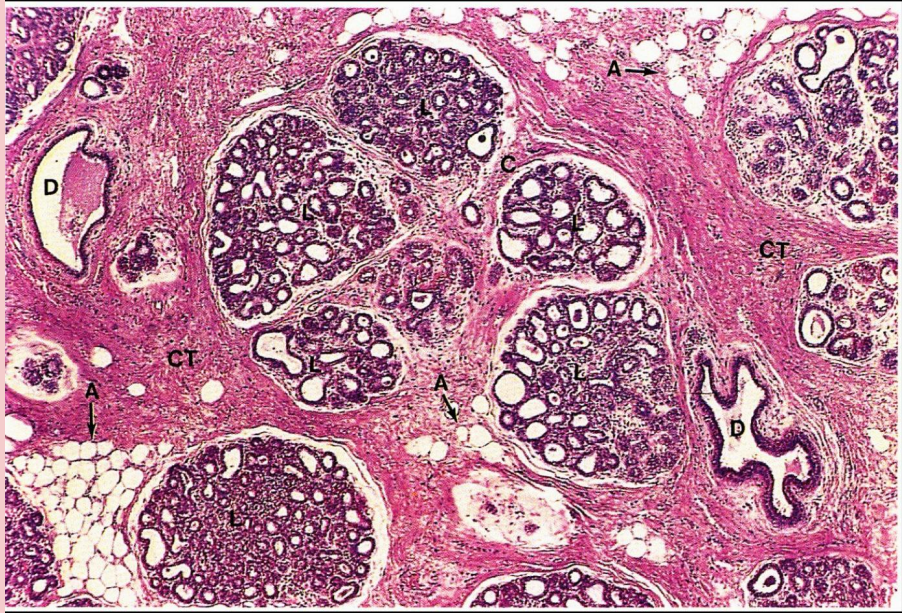

A. Identify this whole organ

Graafian follicle

B. Identify structure B

Cumulus oophorus

17

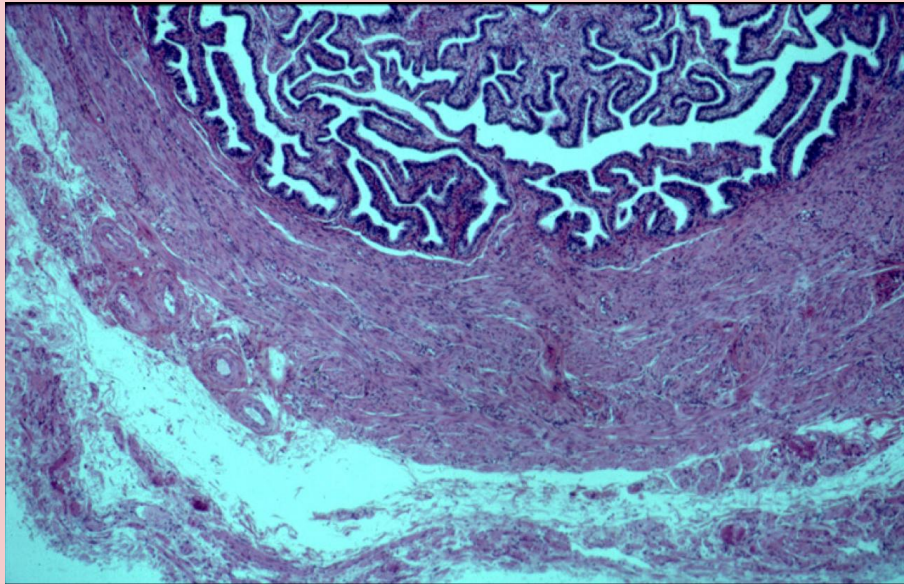

A. Identify this gland

Mammaly gland

**B. Gland นี้ อยู่ใน stage
ไหน**

Active ,Non-lactating phase

18

**A. Identify the whole slide
(be specific)**

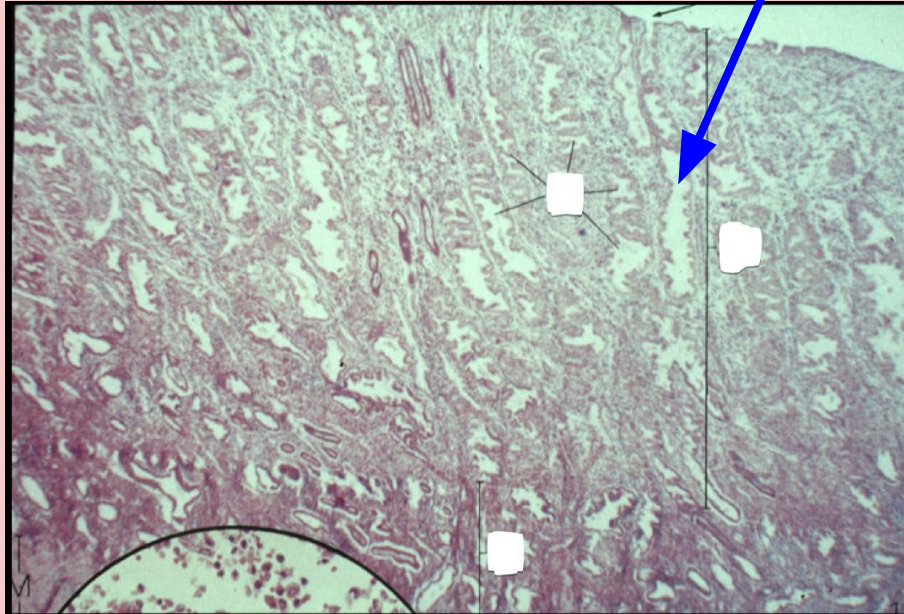

Ampulla of uterine tube

**B. บอกความสำคัญของ structure
นี้**

Site for fertilization

— — —

19

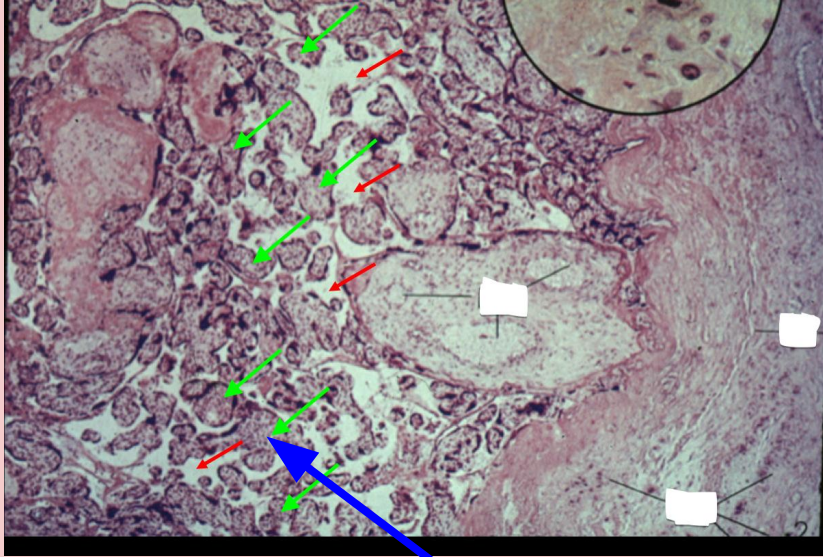

A. Identify the whole slide

Uterus

B. Identify structure B

Uterine gland

20

B

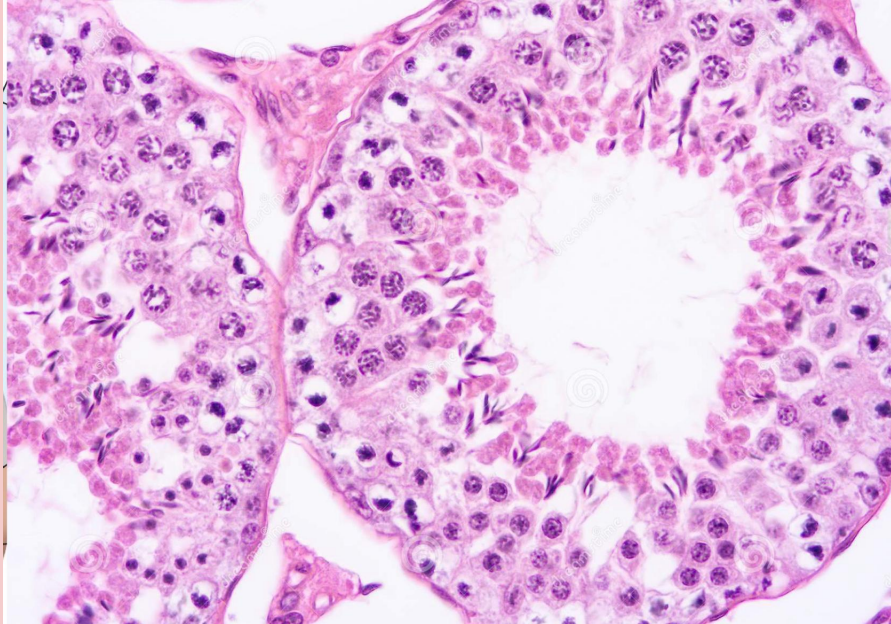

A. Identify the whole slide

Placenta

B. Identify structure B

Chrionic villus

21

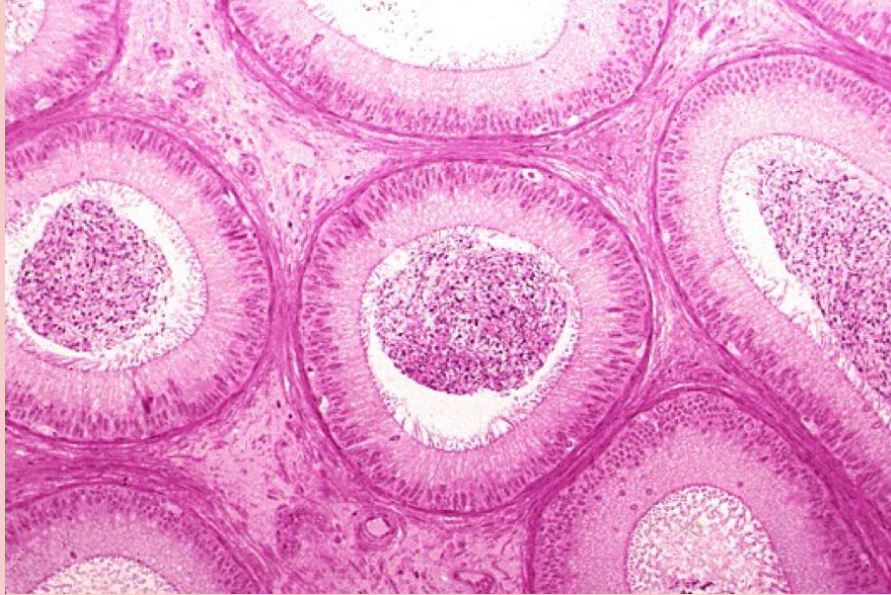

A. Identify this organ

Seminiferous tubule

B. Give it 1 reason

Spermatogenegic cells can be seen

22

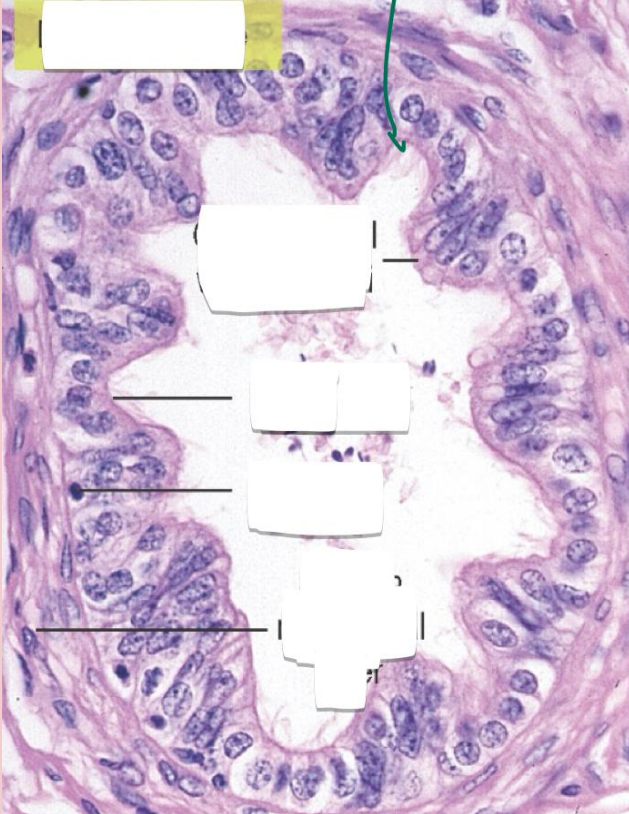

A. Tell 1 of its functions

Epididymis

**B. Apical modification
ของ cell ในภาพคือ**

Stereocilia

23

A. Apical modification ของ cell นี้ คือ

Microvilli + cilia

This is efferent duct

B. Tell 1 of its functions

Sperm transportation

Fluid reabsorption

24

A. Identify this organ

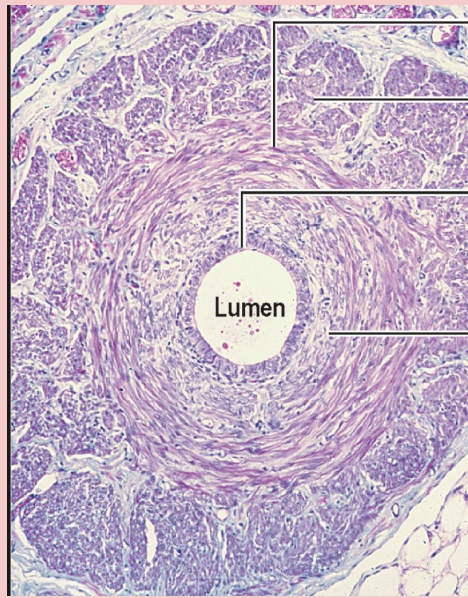

Prostate gland

B. Name 2 protein that produces by this organ

Fibrinolysin, Citric acid, Zinc, Amylase

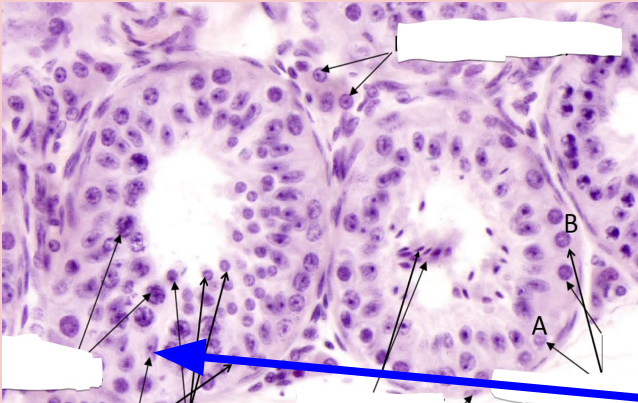

Prostatic specific antigen (PSA), Acid Phosphatase

25

A. Identify this structure

Vas deferens

B. Identify this cell

Sertoli cell

B
