

SPOT TEST REPRO I

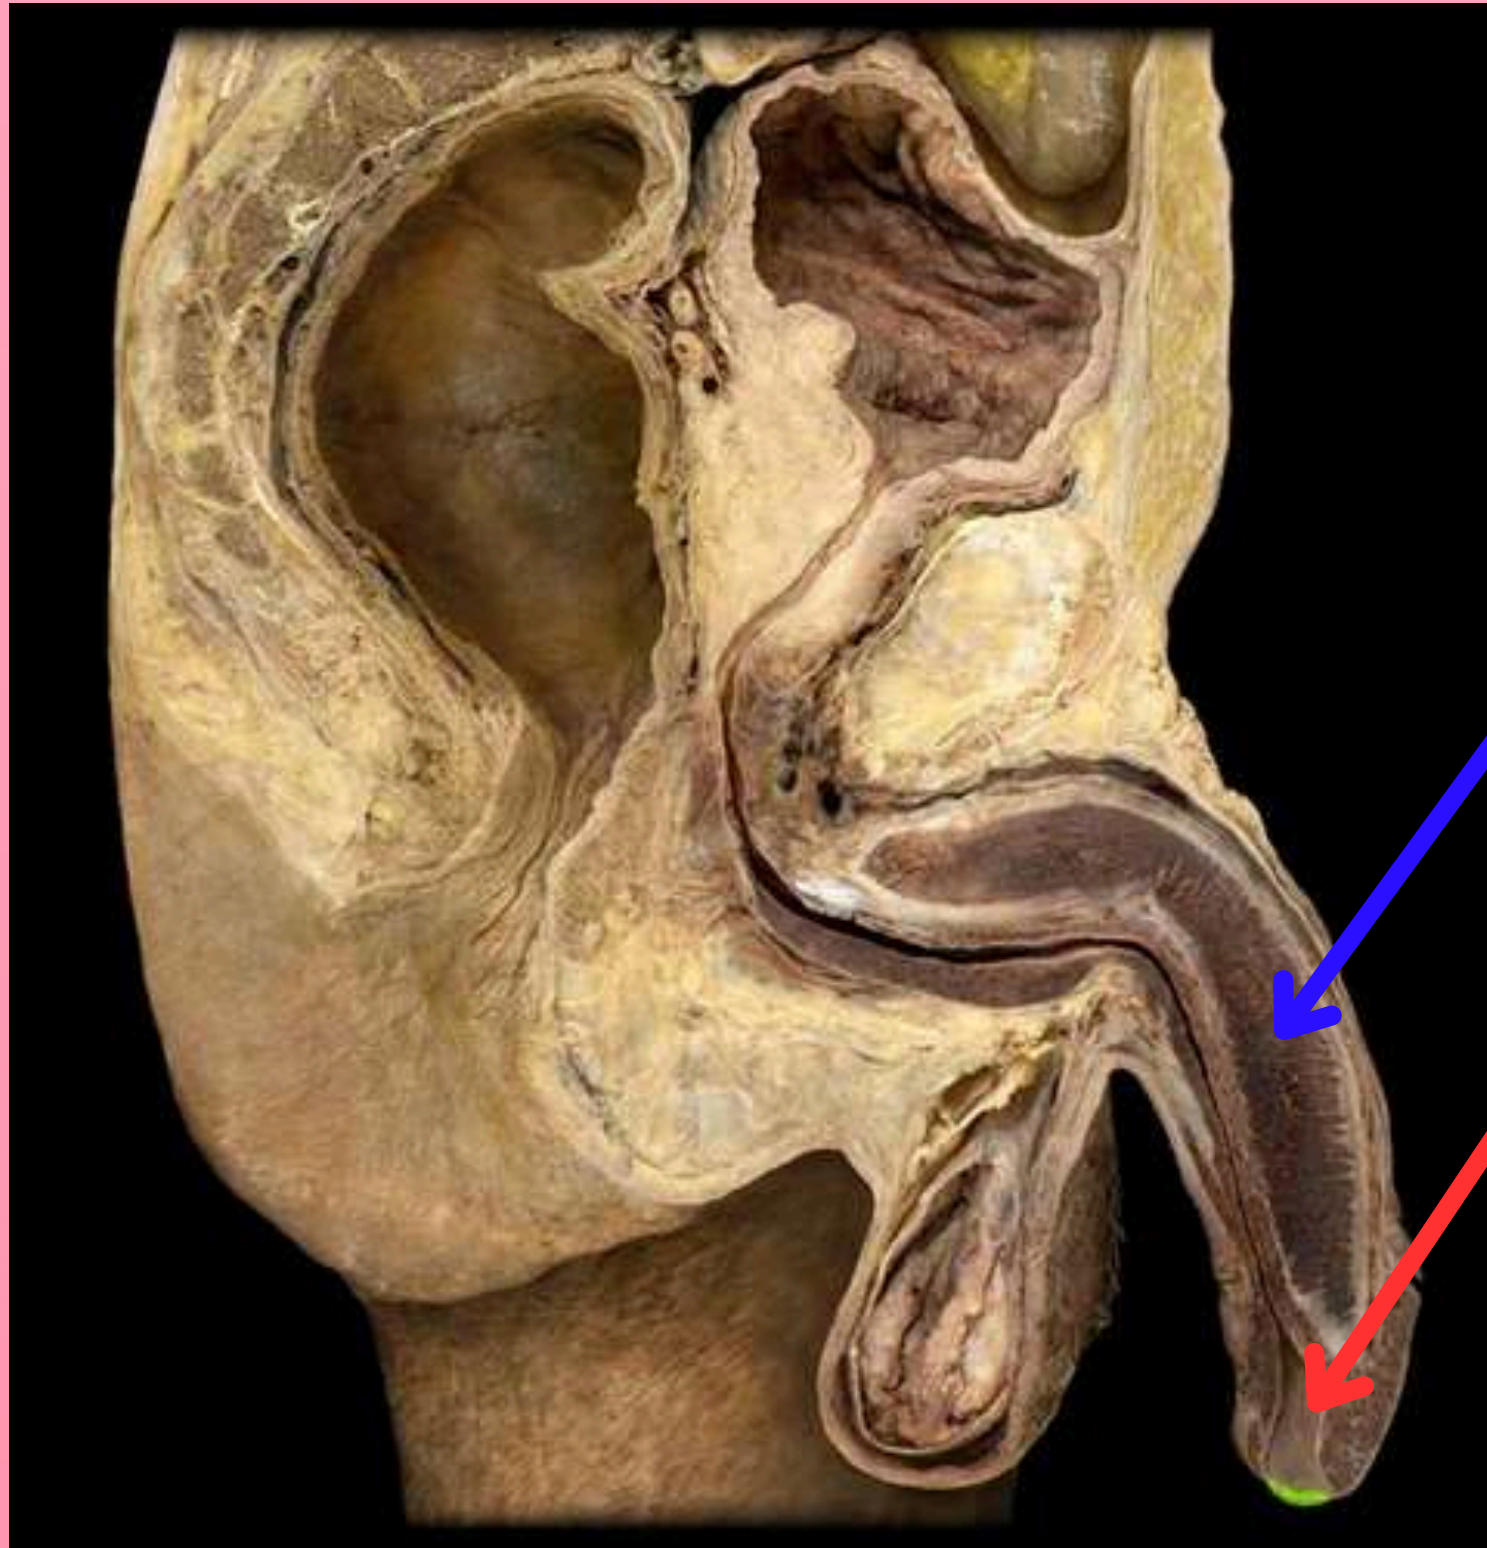

ACADEMIC79

(Filled answers 1/1)

- CaT

01

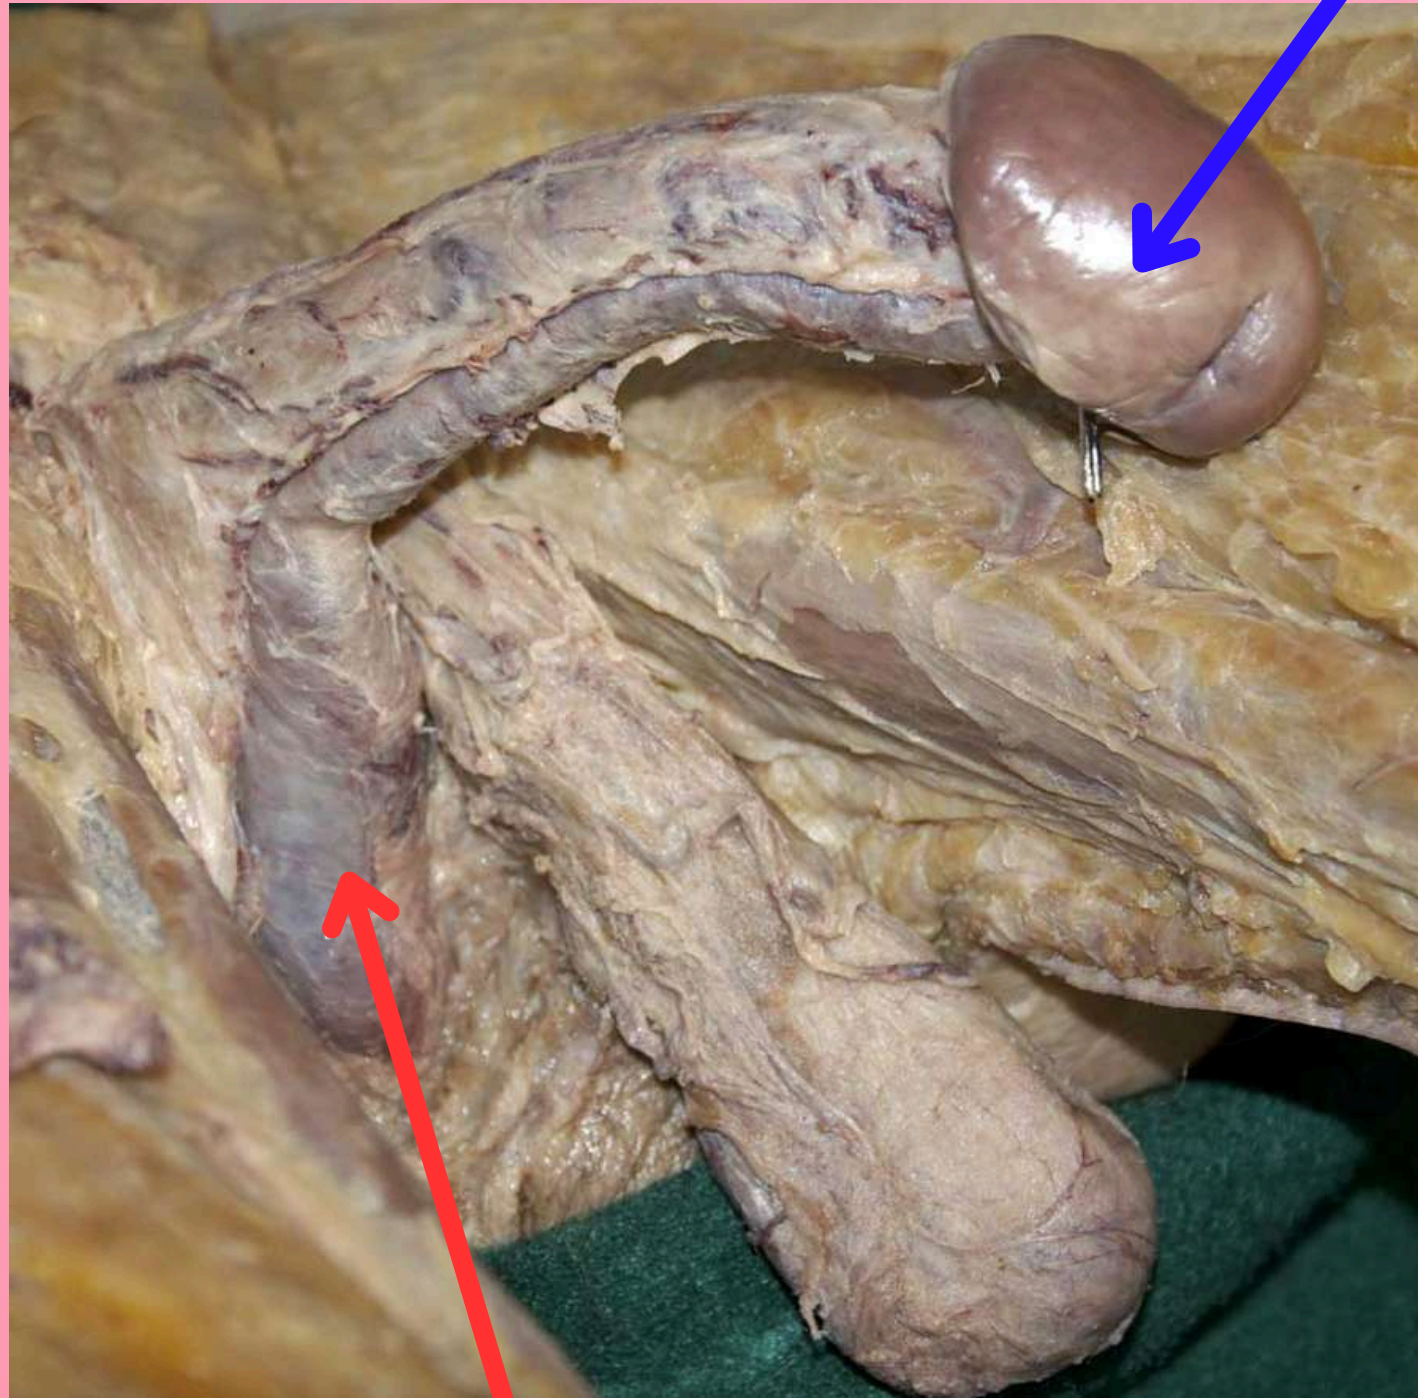

Q1 Identify structure **A**

- A. Corpus spongiosum
- B. Corpus cavernous
- C. Puborectalis m.
- D. Pelvic diaphragm

Q2 Identify structure **B**

- A. Corpus spongiosum
- B. Corpus cavernous
- C. Navicular fossa
- D. Penile urethra

02

Q3 Identify structure **A**

A. Glans penis

B. Glans of clitoris

C. Bulb of penis

D. Crus of penis

Q4 Identify structure **B**

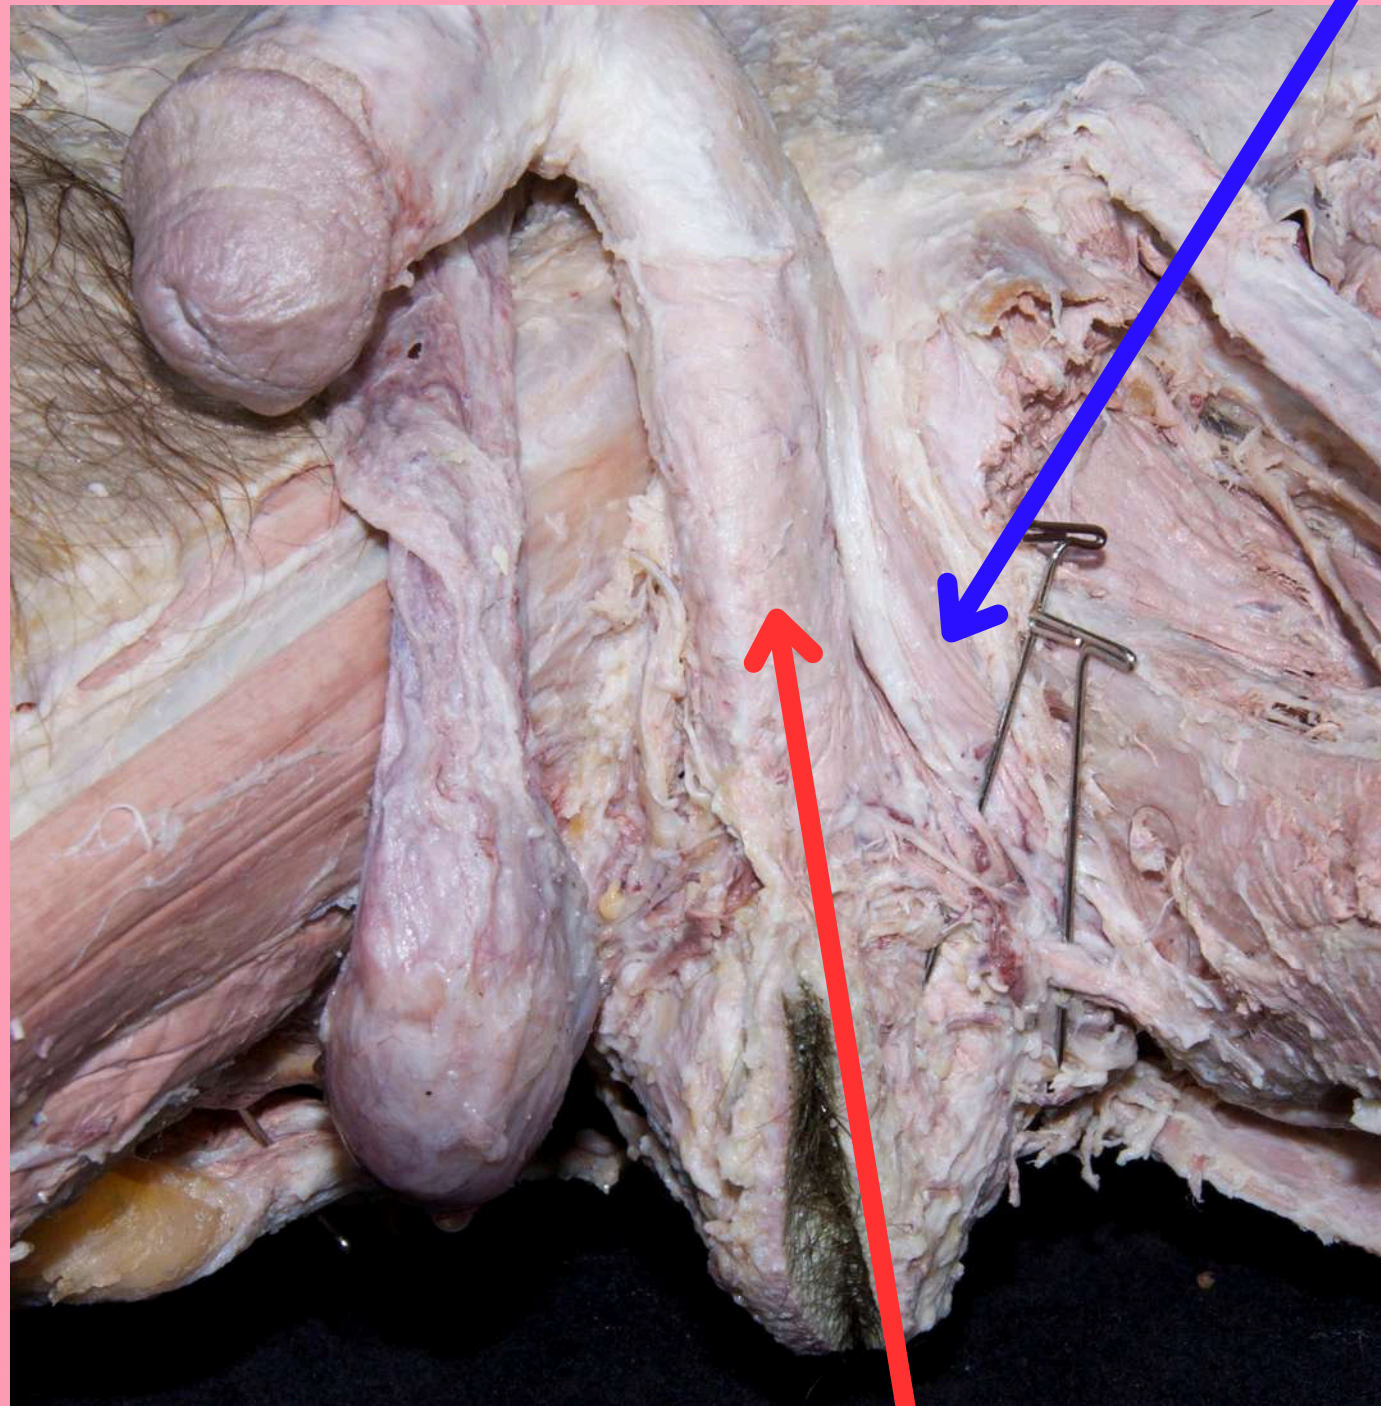

A. Glans penis

B. Glans of clitoris

C. Bulb of penis

D. Crus of penis

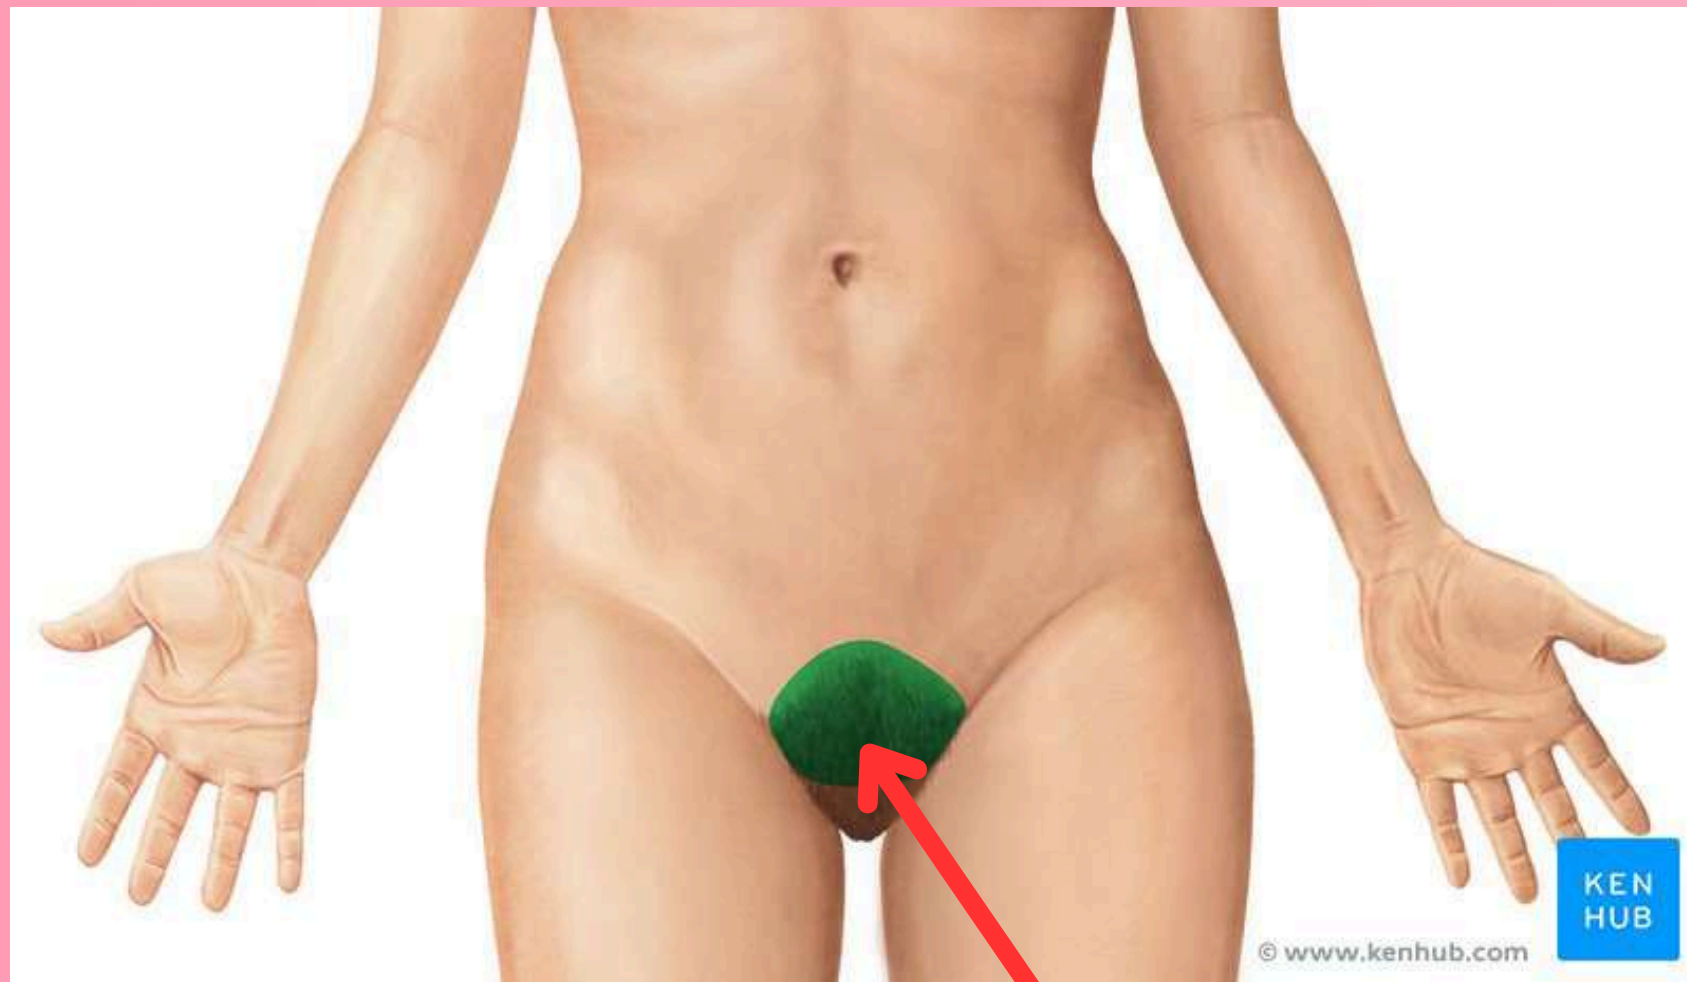

03

- Q5** Identify structure **A**
- A. Superficial transverse perineal m.
 - B. Ischiocavernosus m.**
 - C. Bulbospongiosus m.
 - D. Deep transverse perineal m.

- Q6** Identify structure **B**
- A. Superficial transverse perineal m.
 - B. Ischiocavernosus m.
 - C. Bulbospongiosus m.**
 - D. Deep transverse perineal m.

04

A

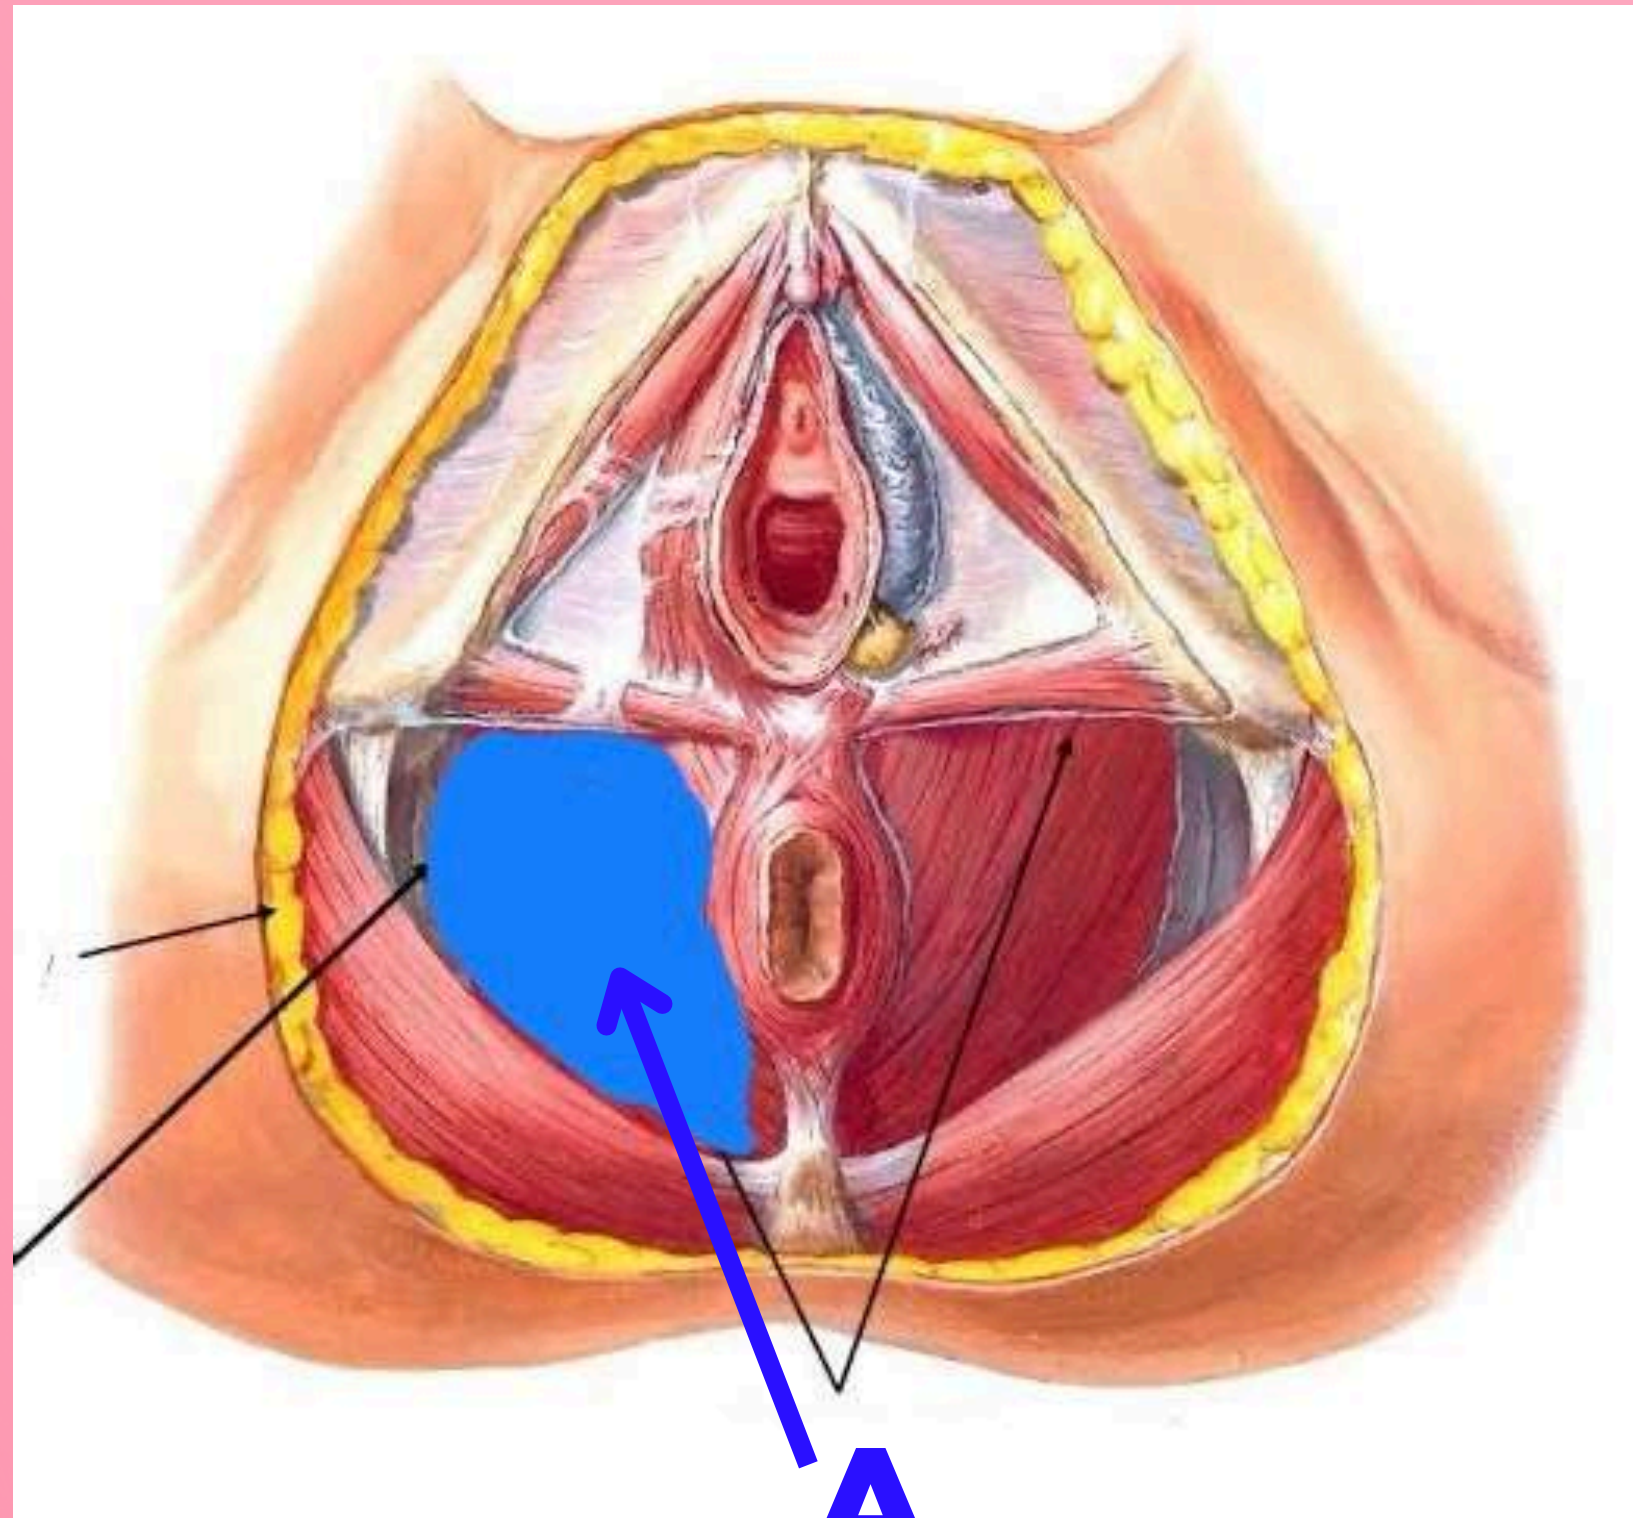

Q7 Identify area **A**

- A. Labia minora
- B. Labia majora
- C. Scrotum
- D. Mons pubis**

Q8 What is the nerve that innervates skin in the area **A**

- A. Ilioinguinal nerve**
- B. Iliohypogastric nerve
- C. Pudendal nerve
- D. Genitofemoral nerve

05

A

(ของจริงเป็นดินน้ำมันอุด)

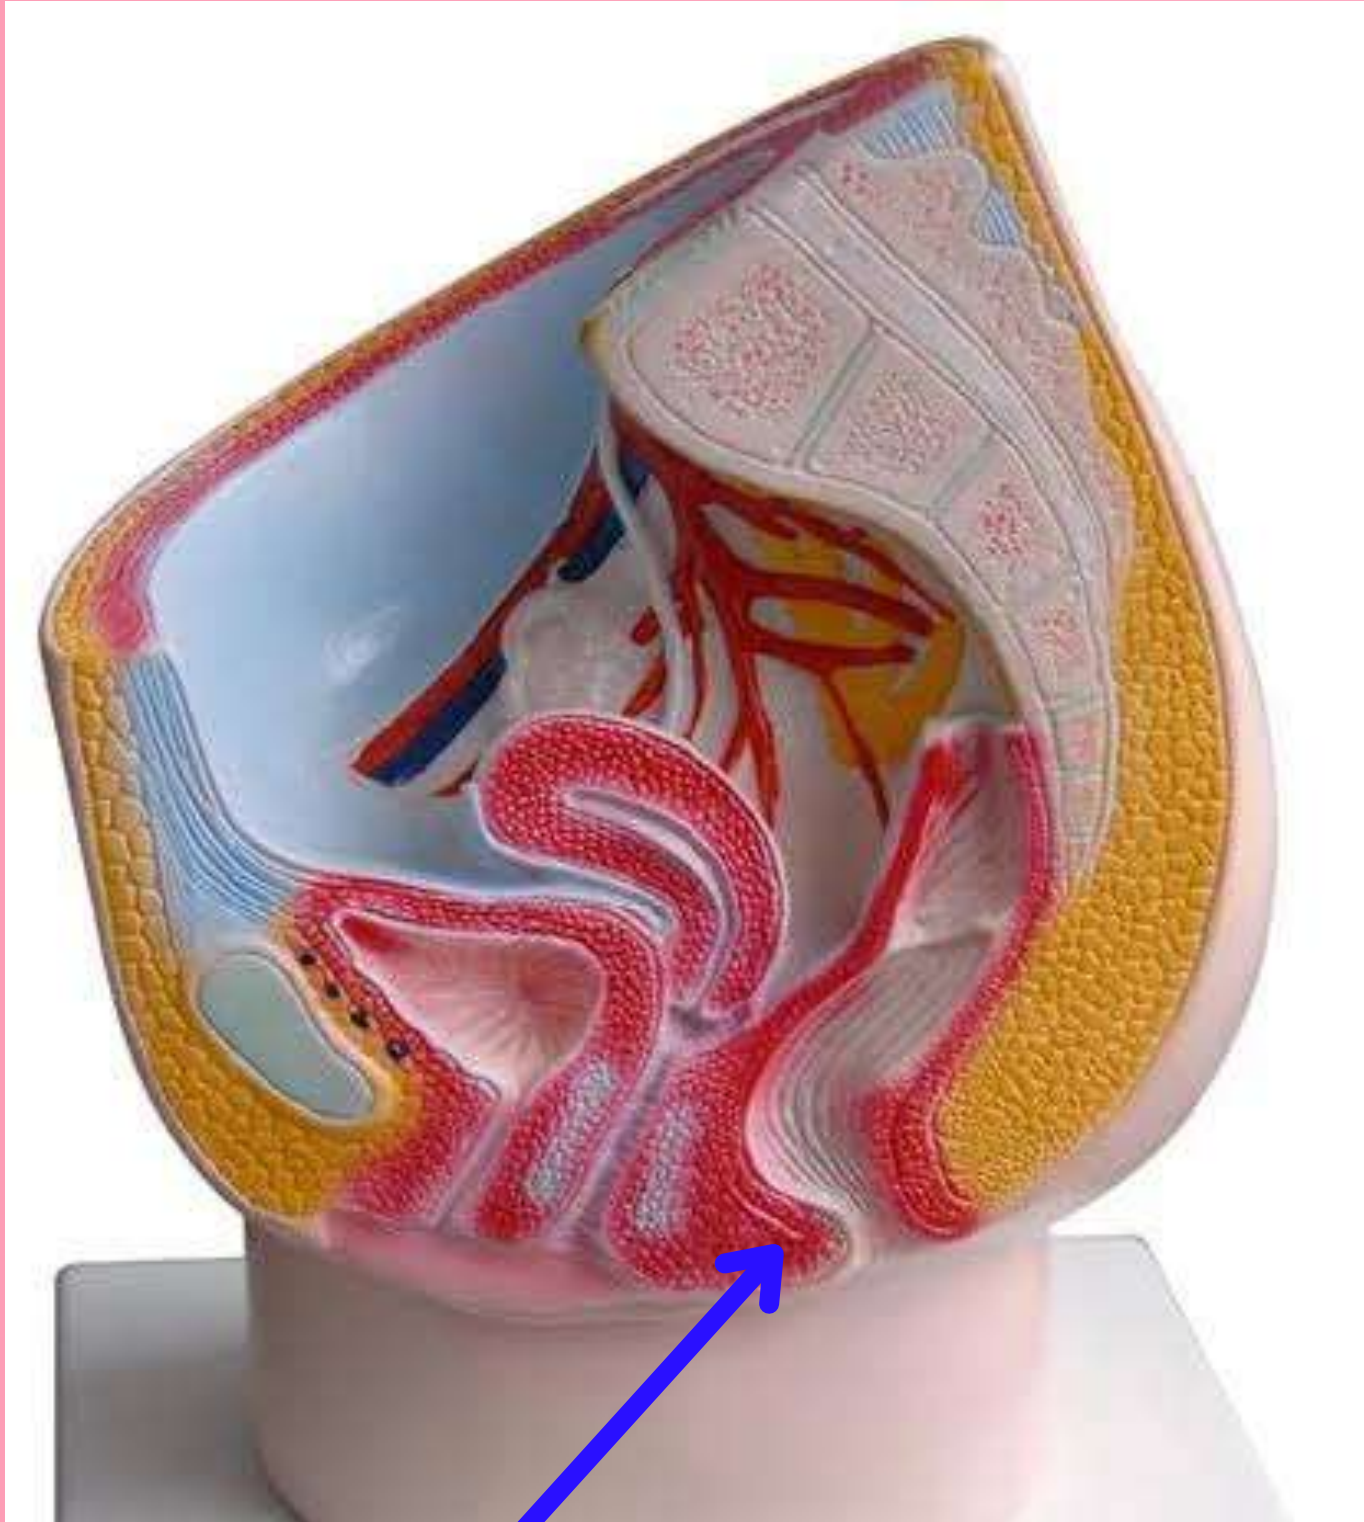

Q9 Identify space **A**

- A. Urogenital triangle
- B. Ischioanal fossa**
- C. Superficial perineal pouch
- D. Deep perineal pouch

Q10 What is the roof of this area?

- A. Urogenital diaphragm
- B. Perineal membrane
- C. Pelvic diaphragm**

06

A (ของจริงเป็นโมเดล)

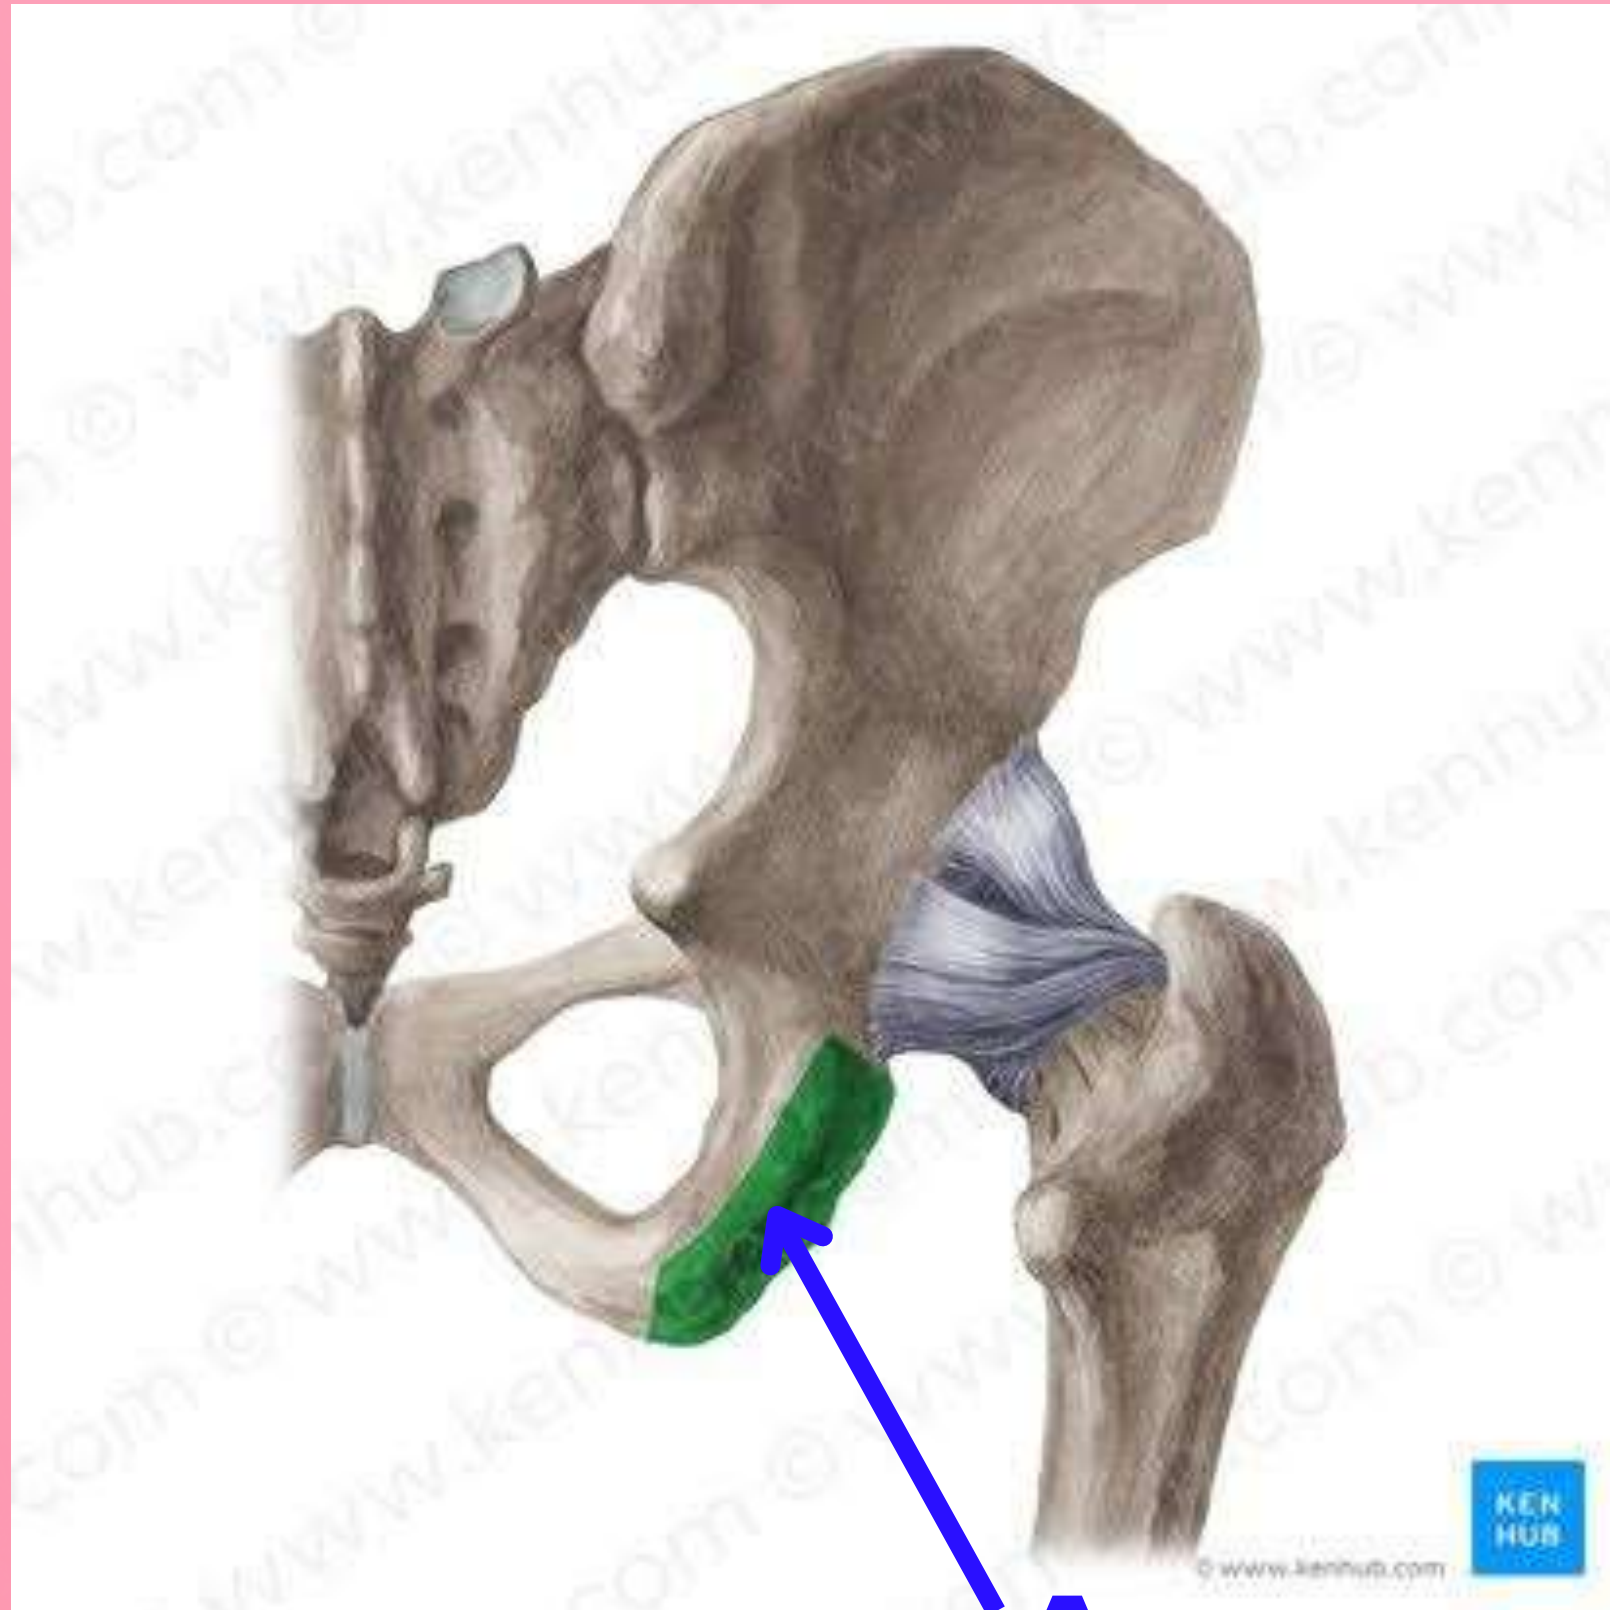

Q11 Identify muscle **A**

- A. Internal anal sphincter
- B. External anal sphincter**
- C. Pelvic diaphragm
- D. Progenies diaphragm

Q12 What is the innervation to this muscle?

- A. Ilioinguinal nerve
- B. Iliohypogastric nerve
- C. Pudendal nerve**
- D. Genitofemoral nerve

07

A

Q13 Identify structure **A**

A. Ischial spine

B. Ischial tuberosity

C. Pubic ramus

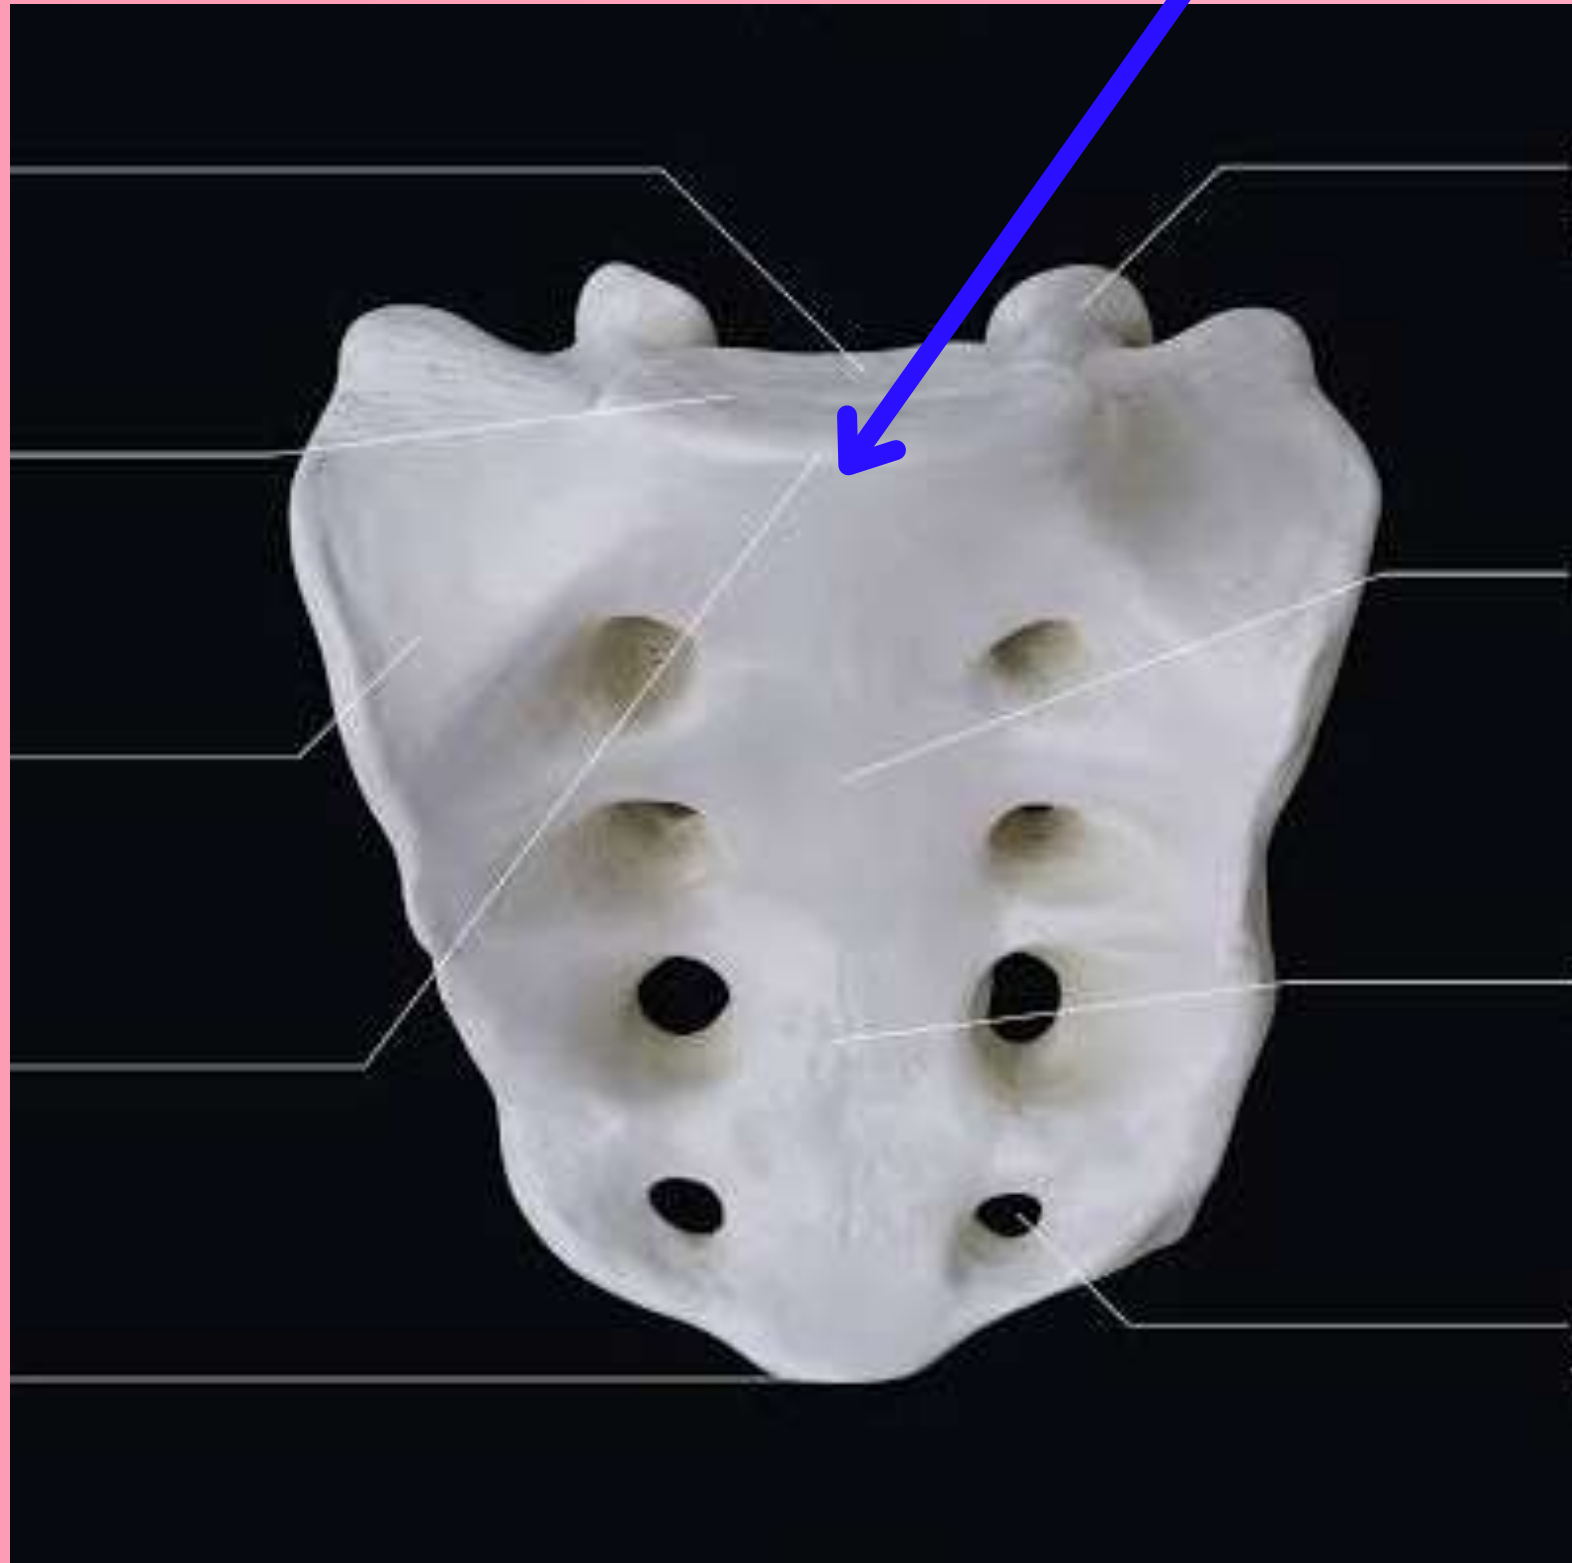

D. ASIS

Q14 Is it used in clinical pelvimetry?

A. Yes

B. No

08

Q15 Identify structure **A**

- A. Sacral promontory
- B. Sacral ala
- C. Apex of sacrum
- D. Transverse line

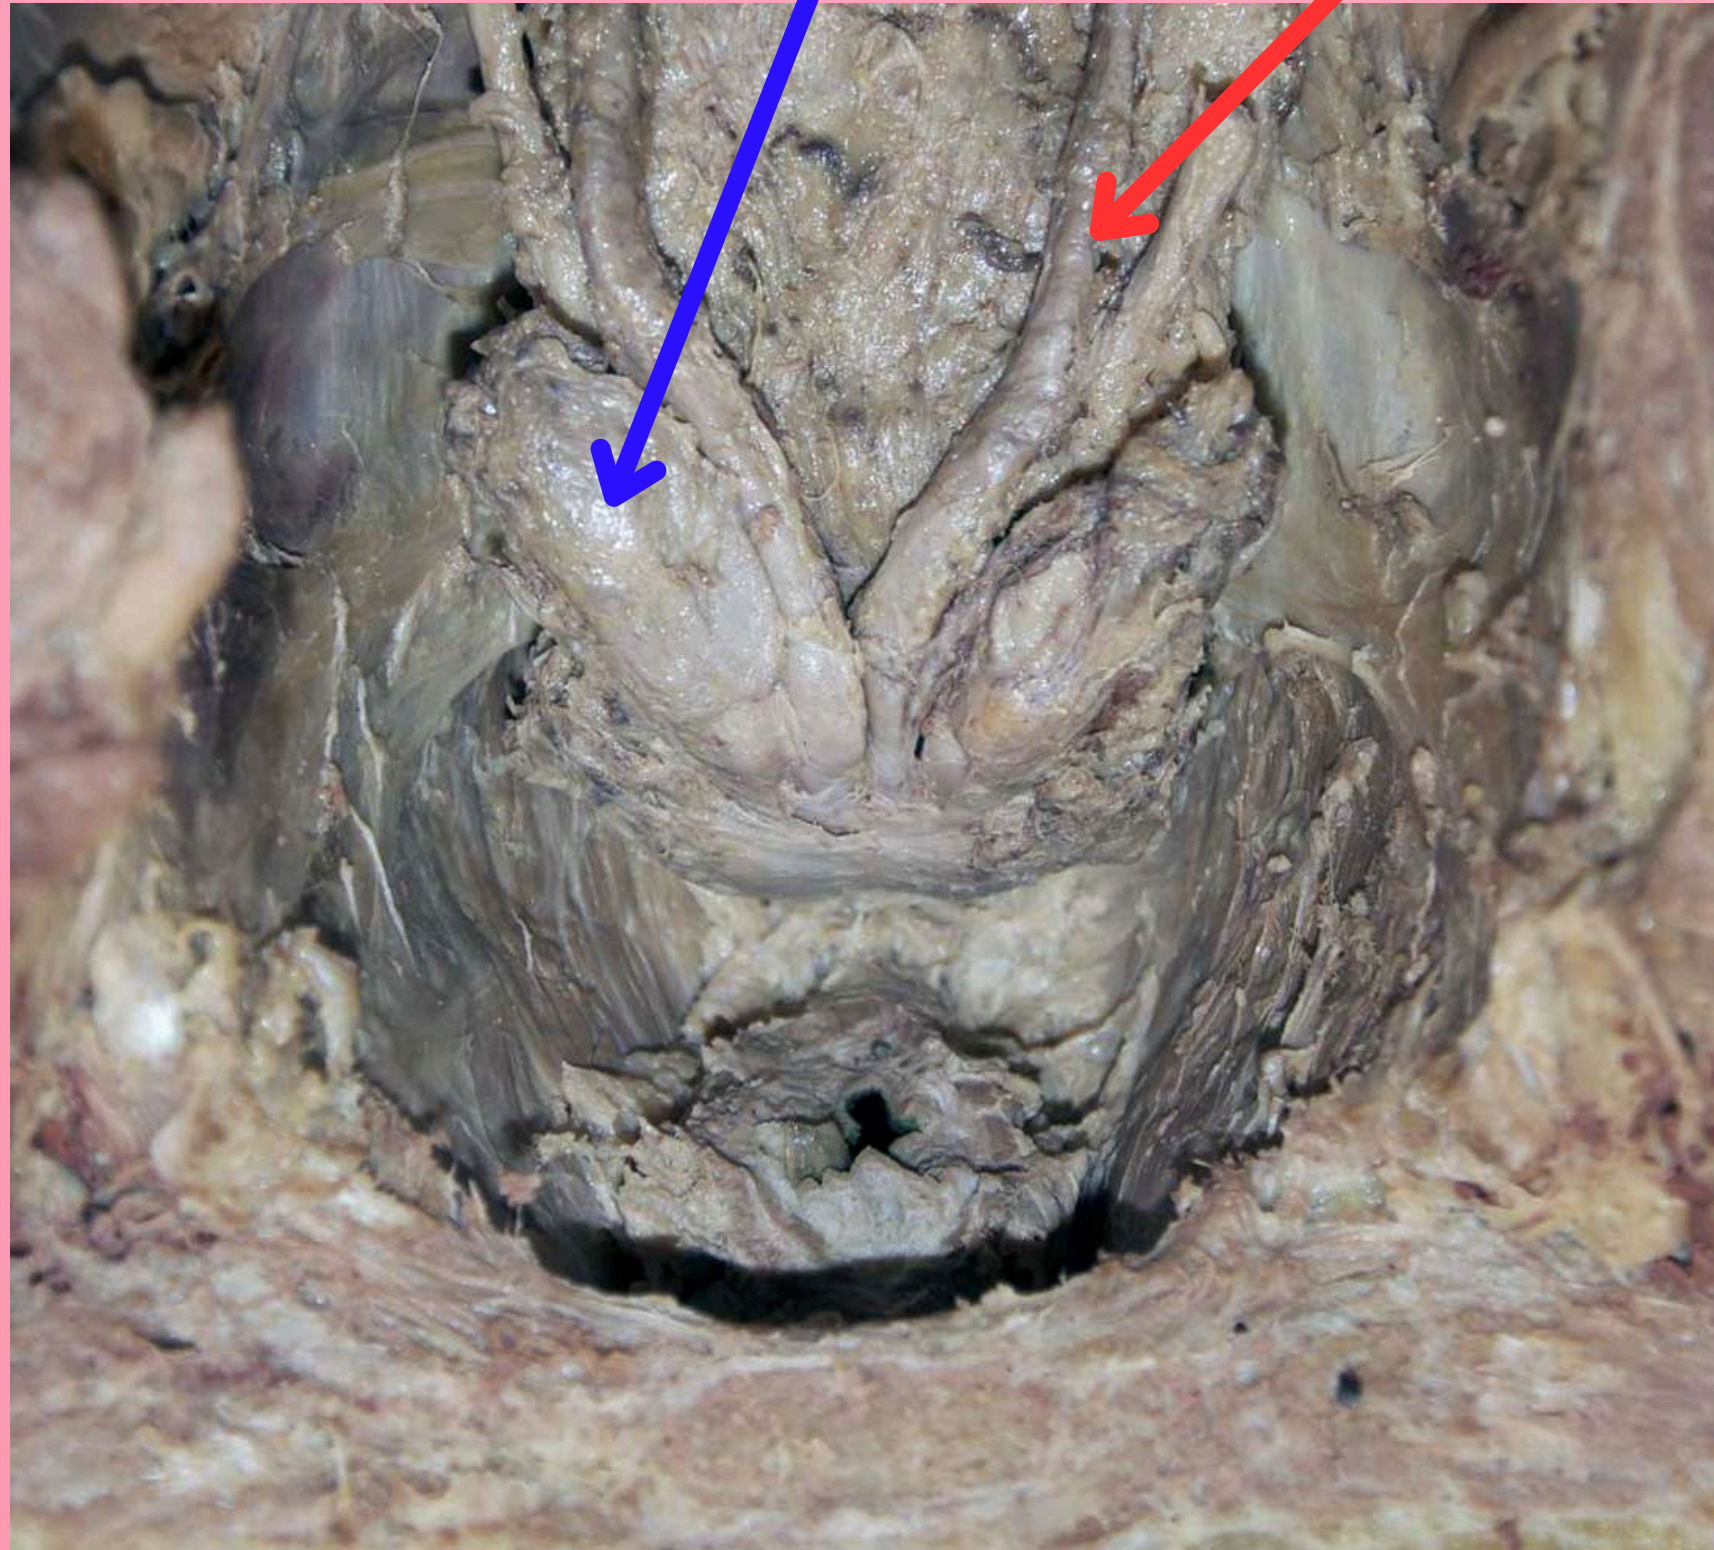

Q16 Is it used in clinical pelvimetry?

- A. Yes
- B. No

09

A

B

Q17 Identify structure **A**

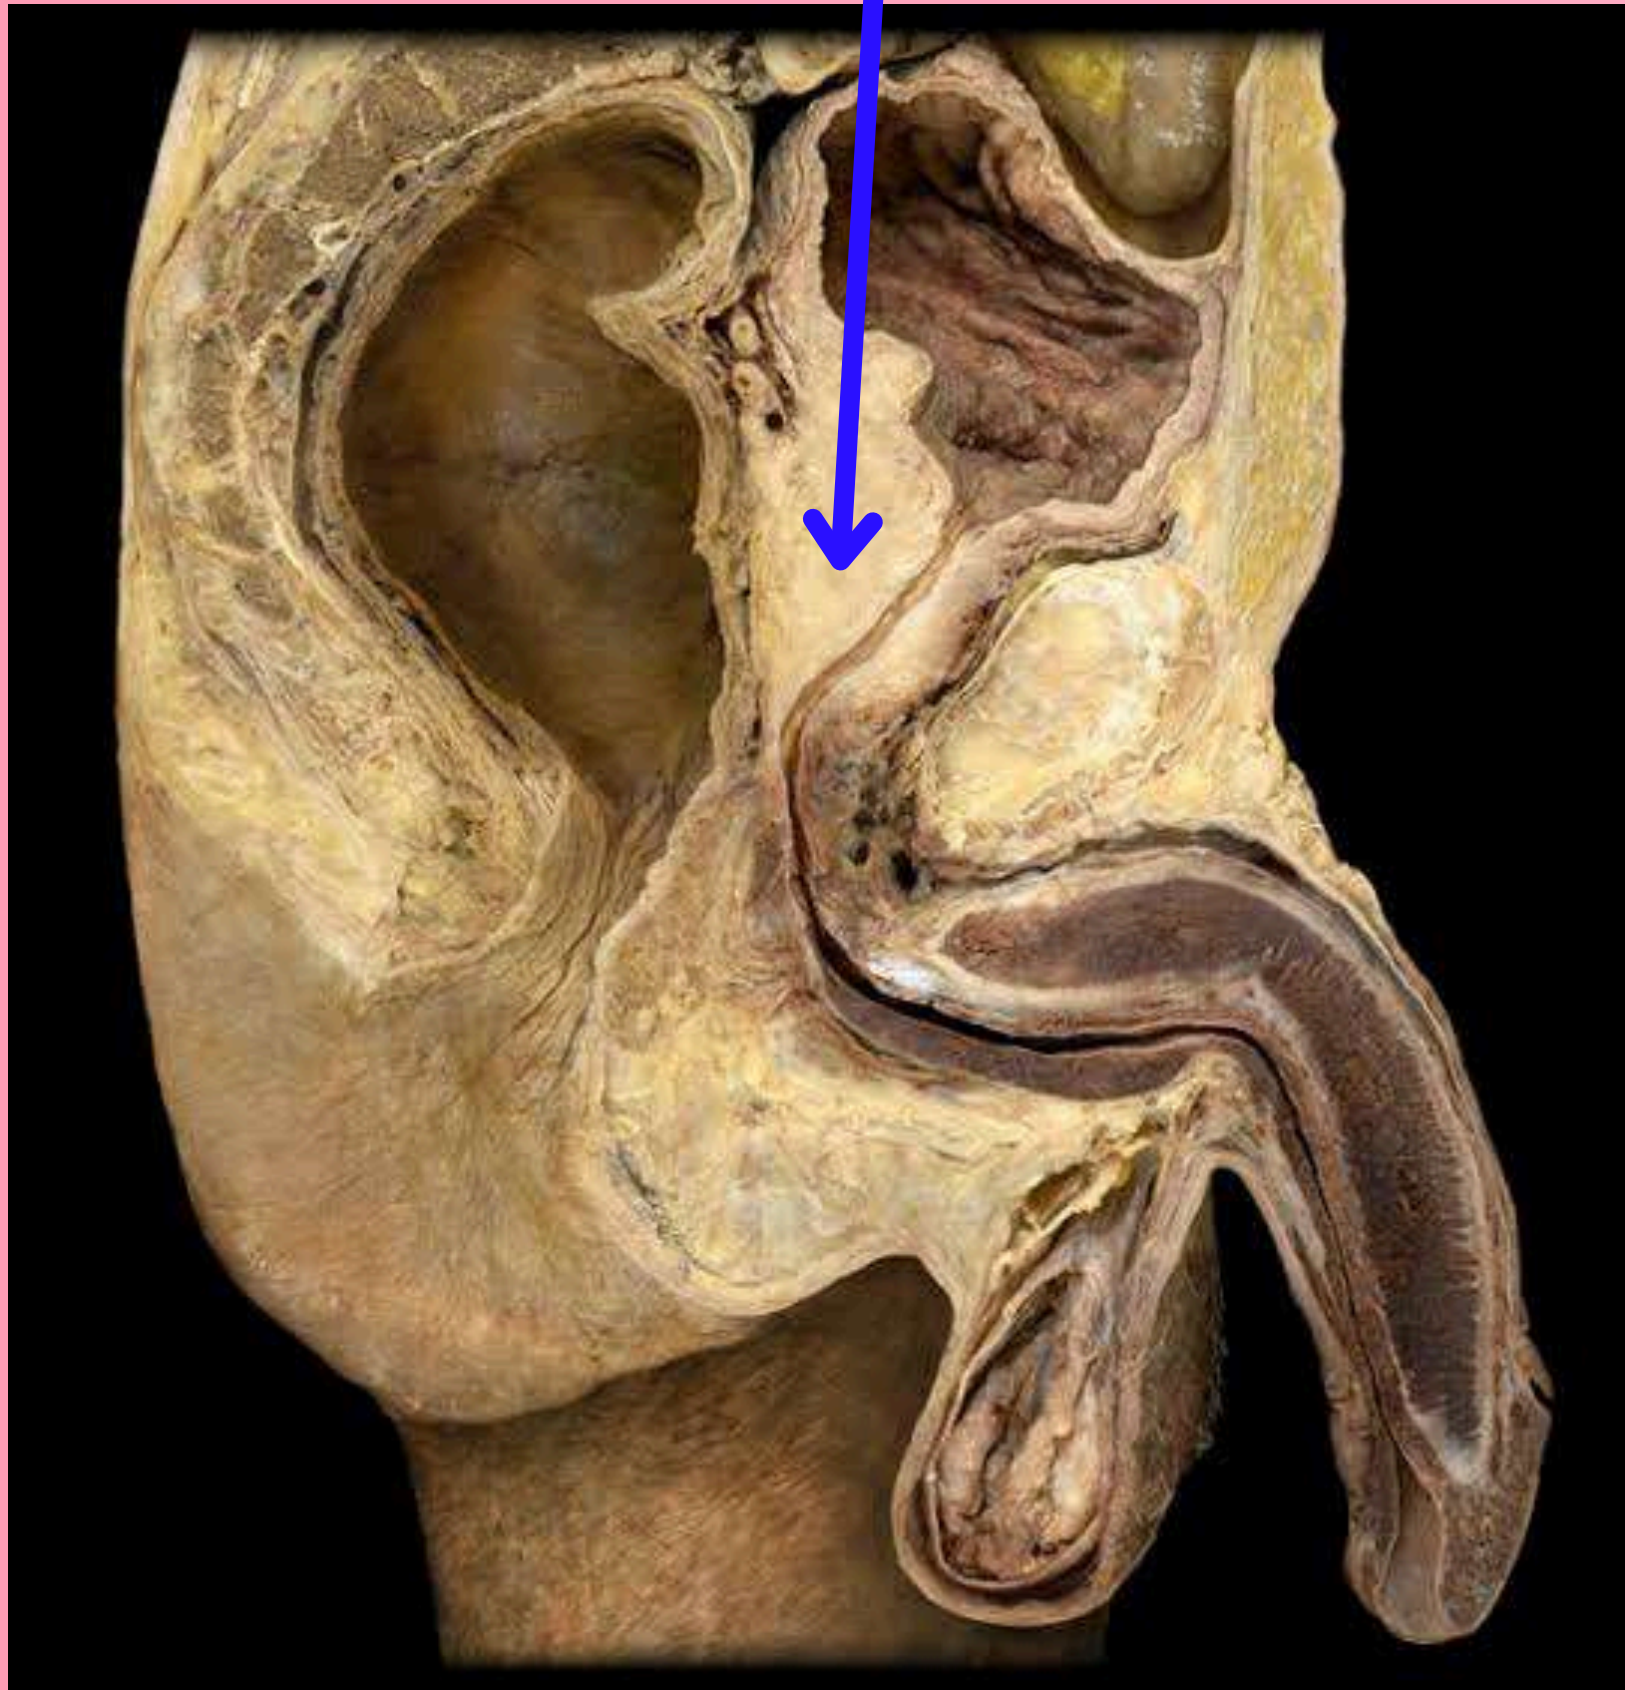

- A. Seminal vesicle
- B. Prostate gland
- C. Cowper's gland
- D. Ductus deferens

Q18 Identify structure **B**

- A. Seminal vesicle
- B. Prostate gland
- C. Cowper's gland
- D. Ductus deferens

10

A

Q19 Identify structure **A**

A. Seminal vesicle

B. Prostate gland

C. Cowper's gland

D. Ductus deferens

Q20 Which structure is homologous to this structure?

A. Cowper's gland

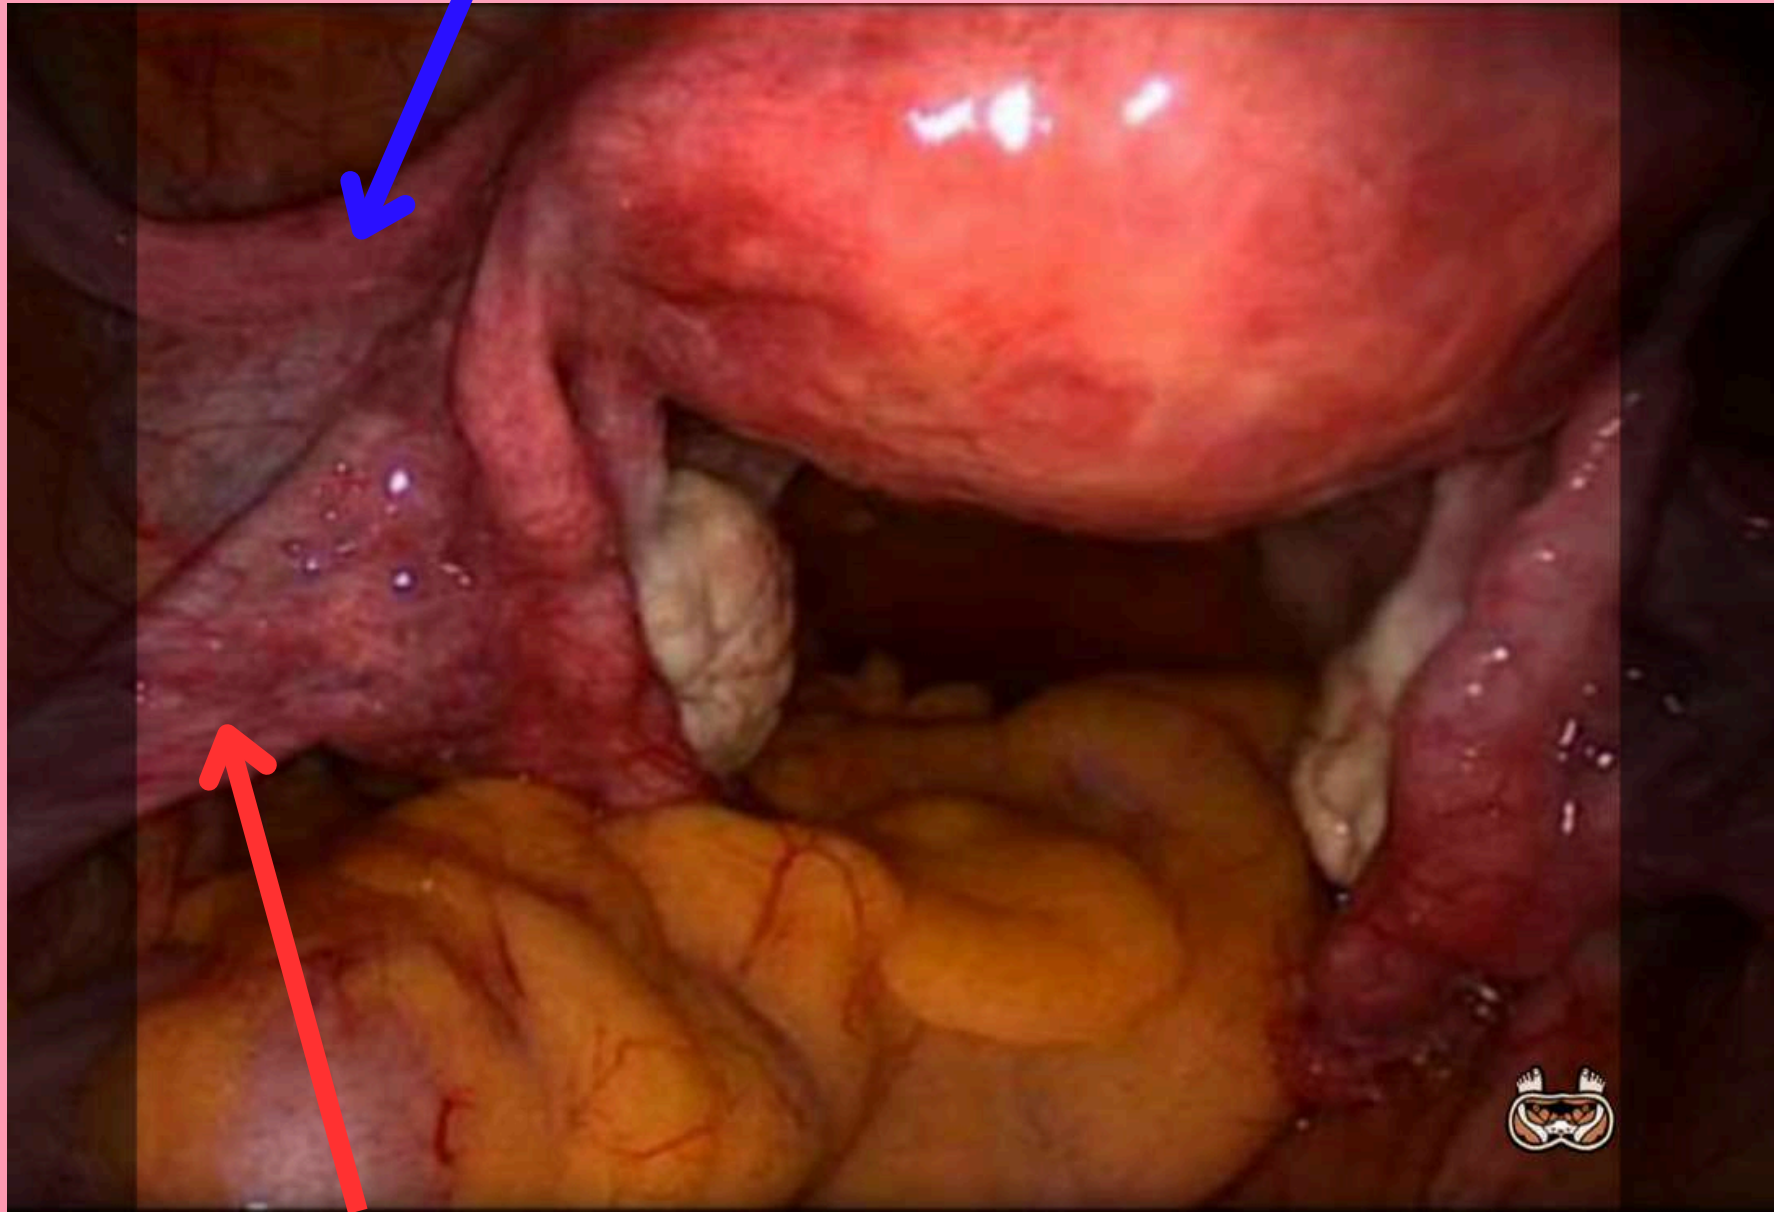

B. Bartholin's gland

C. Skene's gland

D. None of the above

11

A

B

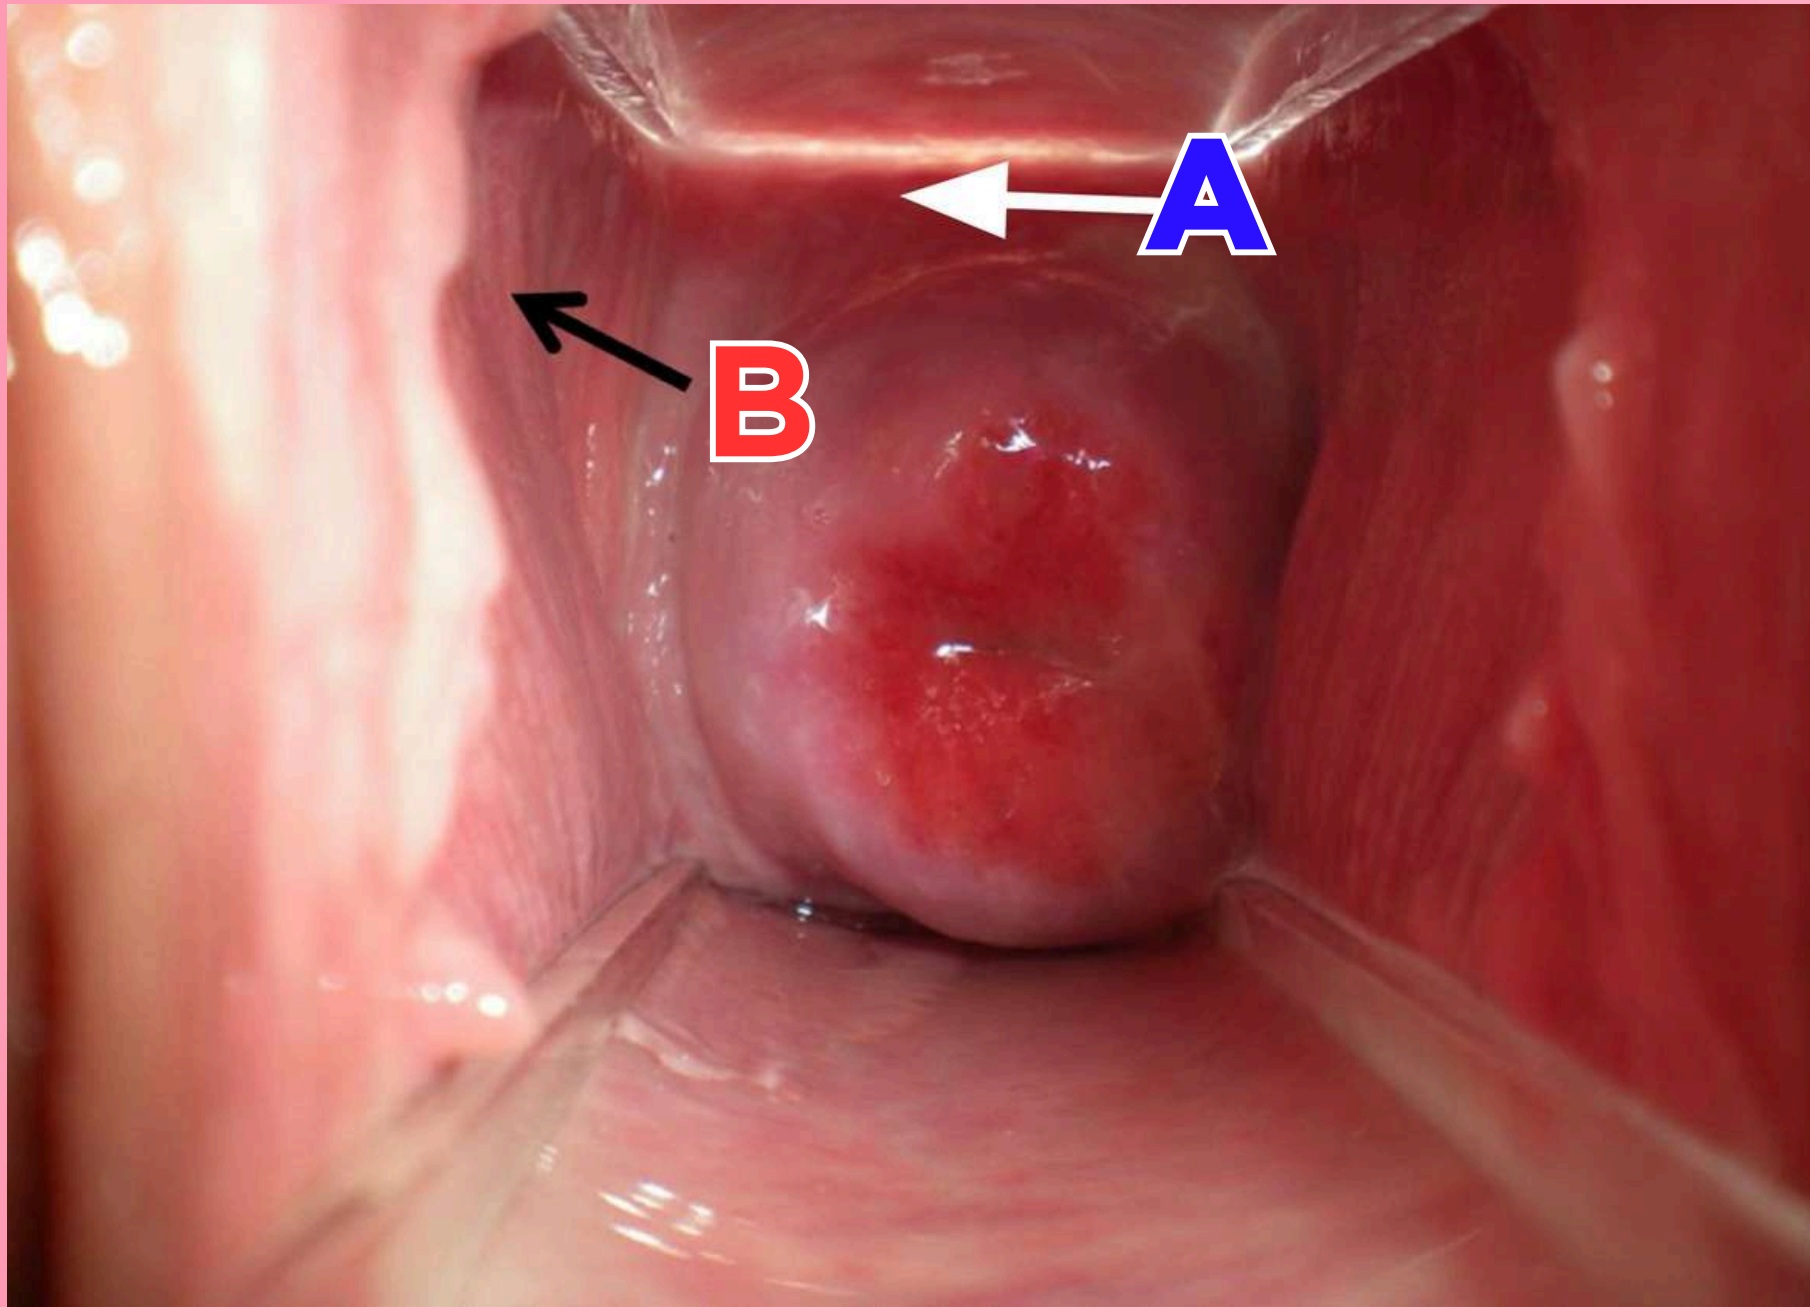

Q21 Identify structure **A**

- A. Ligament of ovary
- B. Suspensory ligament**
- C. Uterine tube
- D. Round ligament

Q22 Identify structure **B**

- A. Ligament of ovary
- B. Suspensory ligament
- C. Uterine tube
- D. Round ligament**

12

Q23 Identify structure **A**

A. Anterior fornix

B. Lateral fornix

C. Posterior fornix

D. Vaginal rugae

Q24 Identify structure **B**

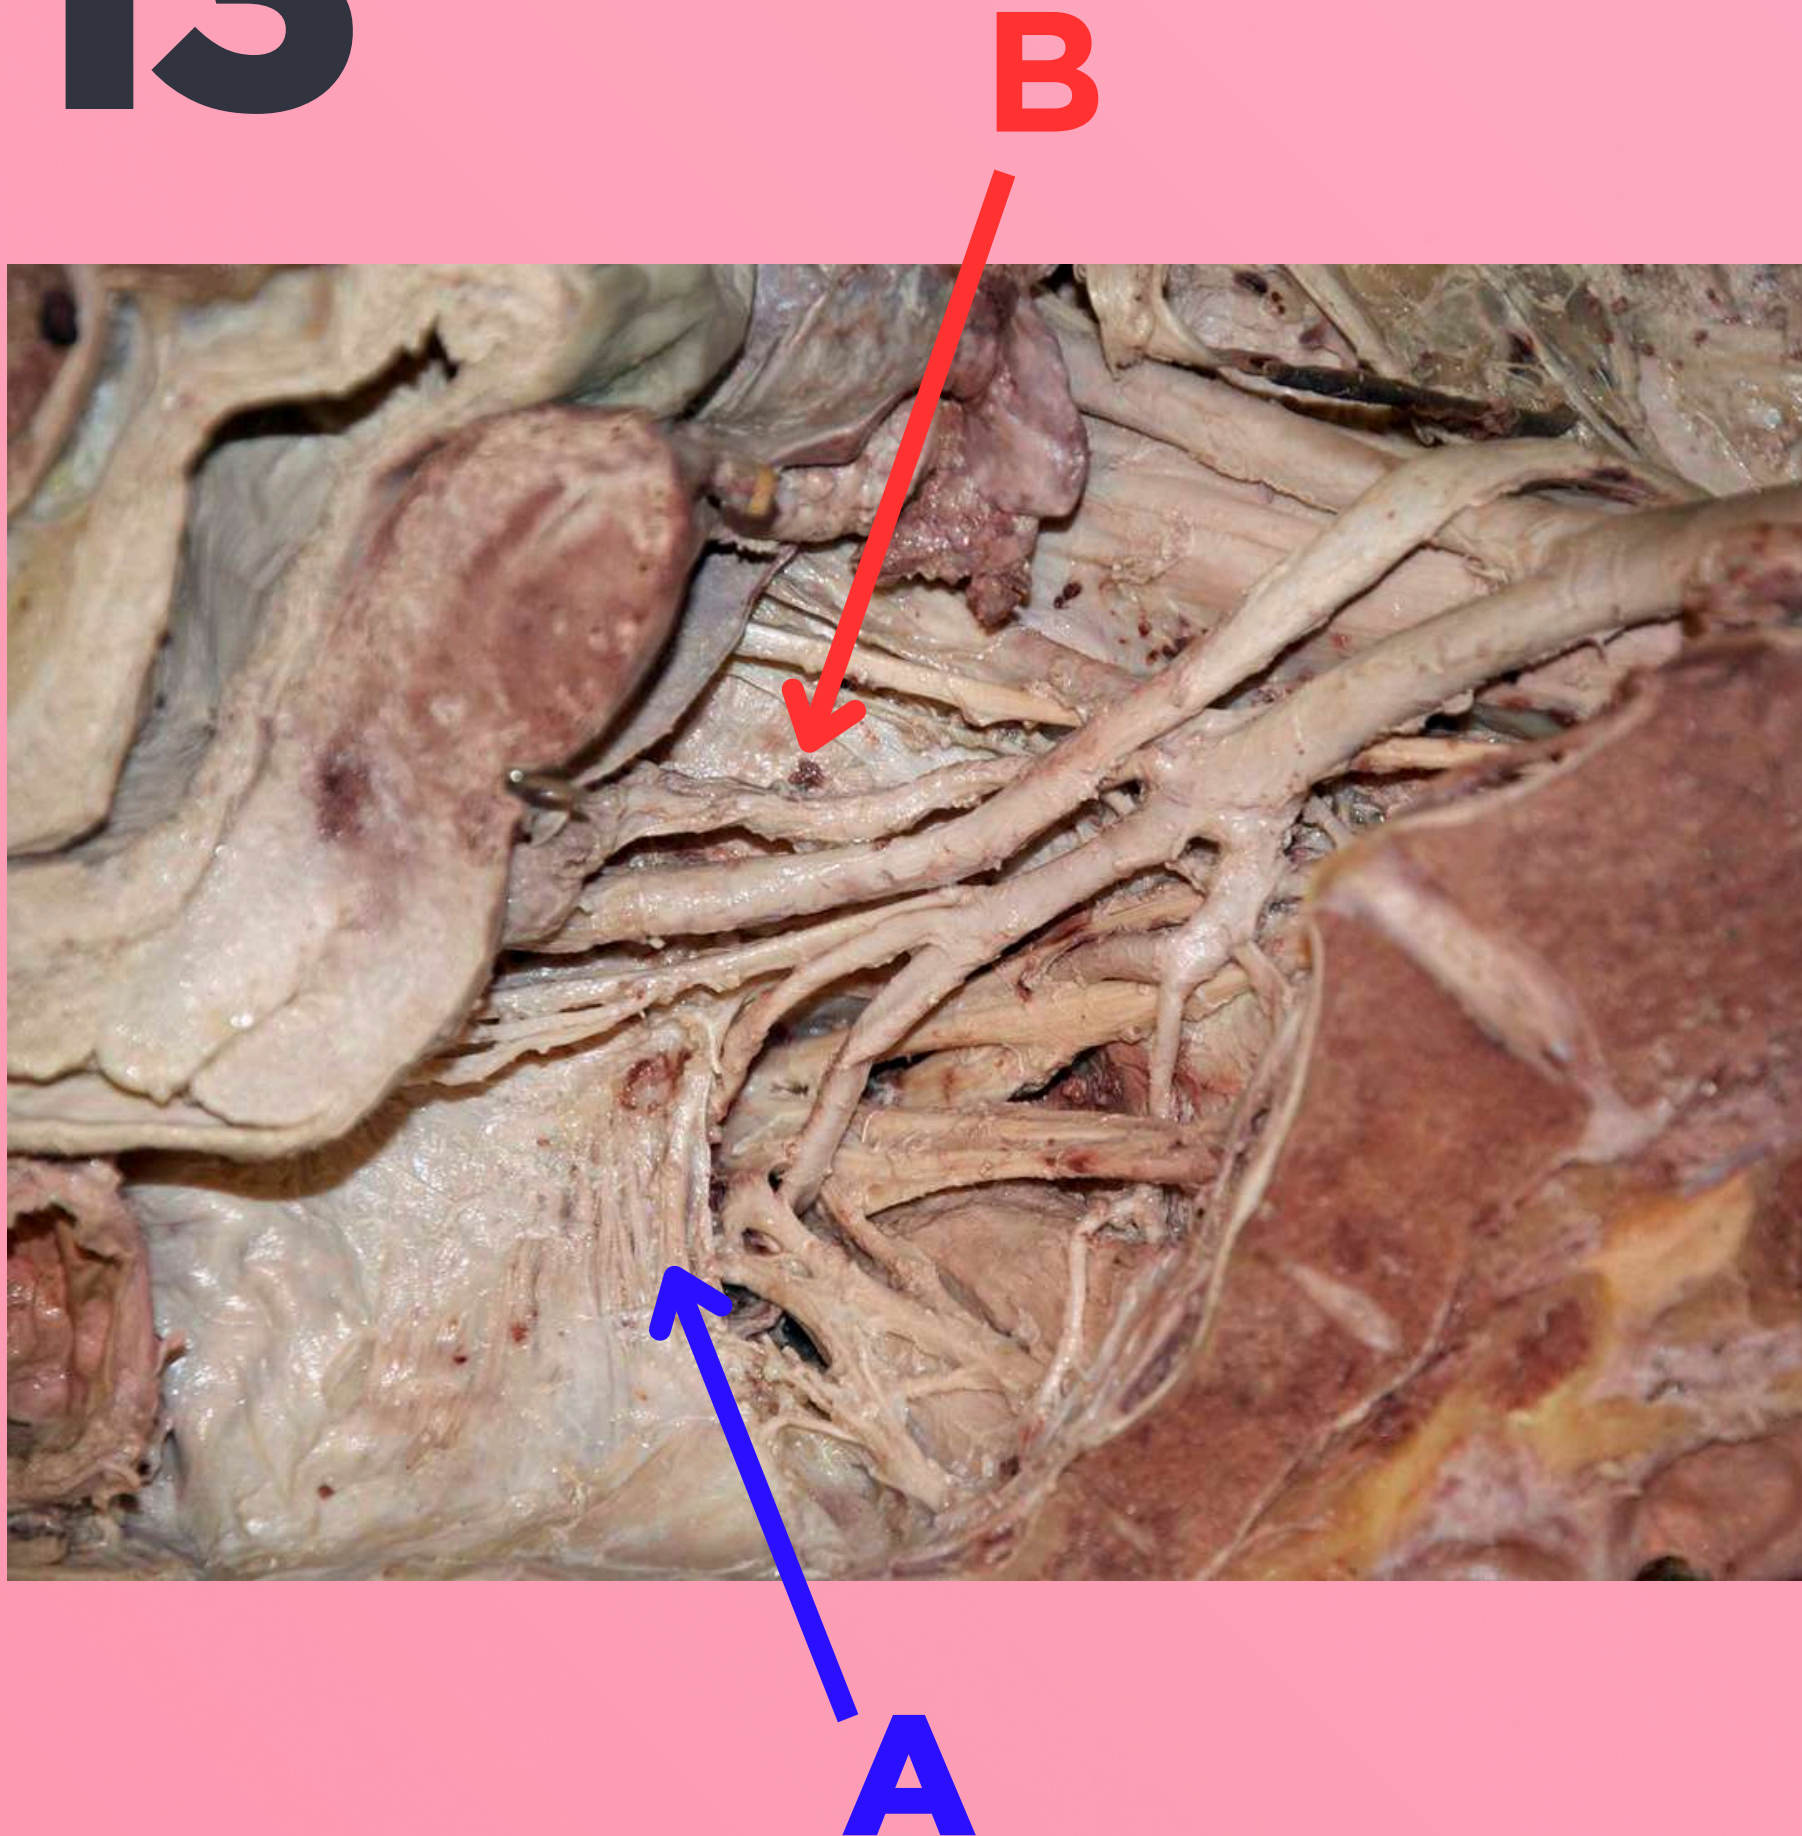

A. Anterior fornix

B. Lateral fornix

C. Posterior fornix

D. Vaginal rugae

13

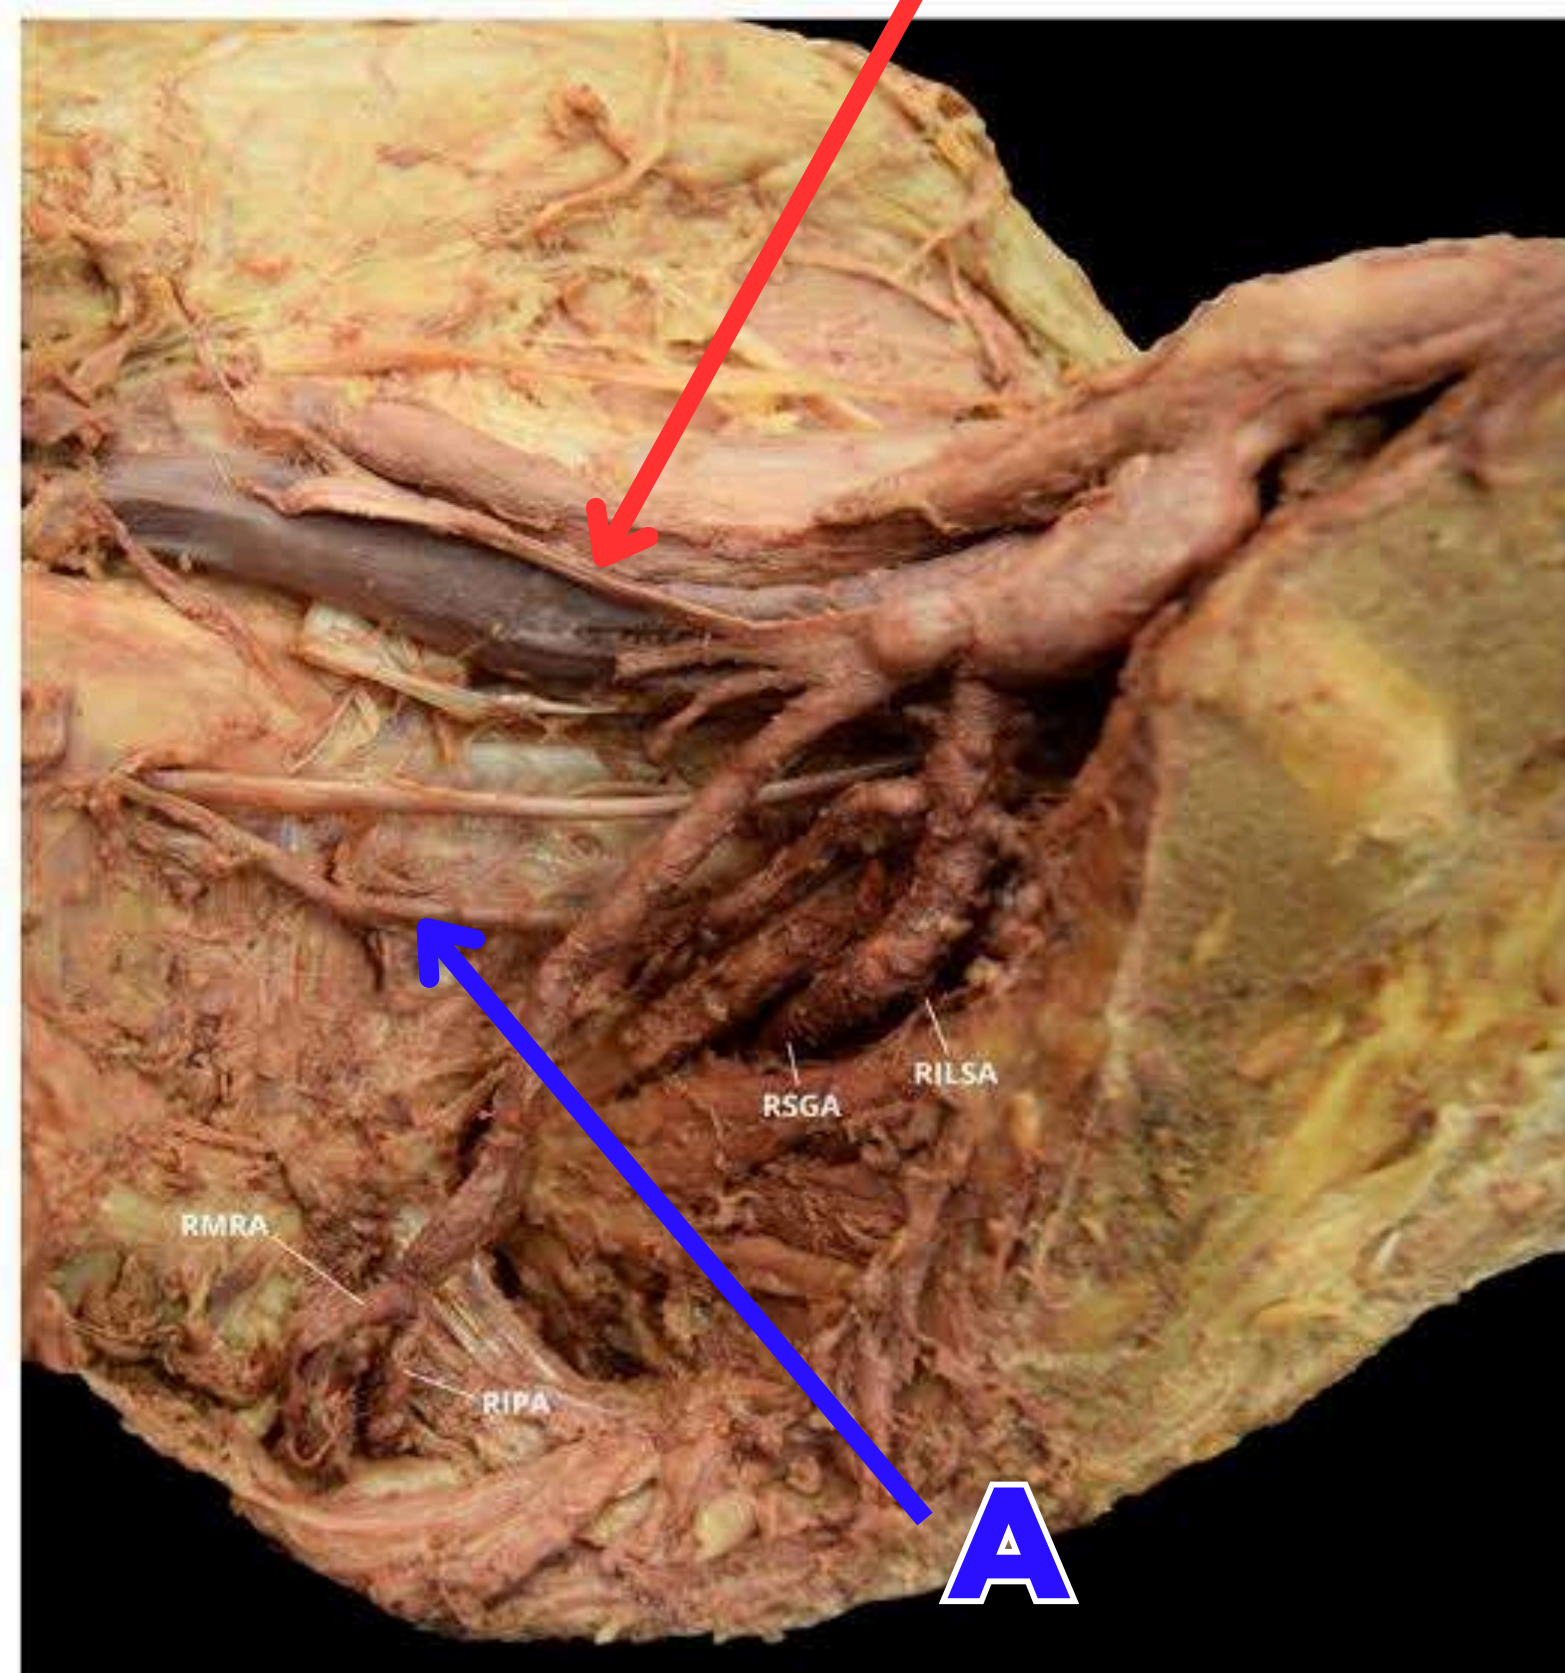

Q25 Identify muscle **A**

- A. Levator Ani m.
- B. Coccygeus m.**
- C. Obturator interns m.
- D. Obturator external m.

Q26 Identify muscle **B**

- A. Levator Ani m.
- B. Coccygeus m.
- C. Obturator interns m.**
- D. Obturator external m.

14

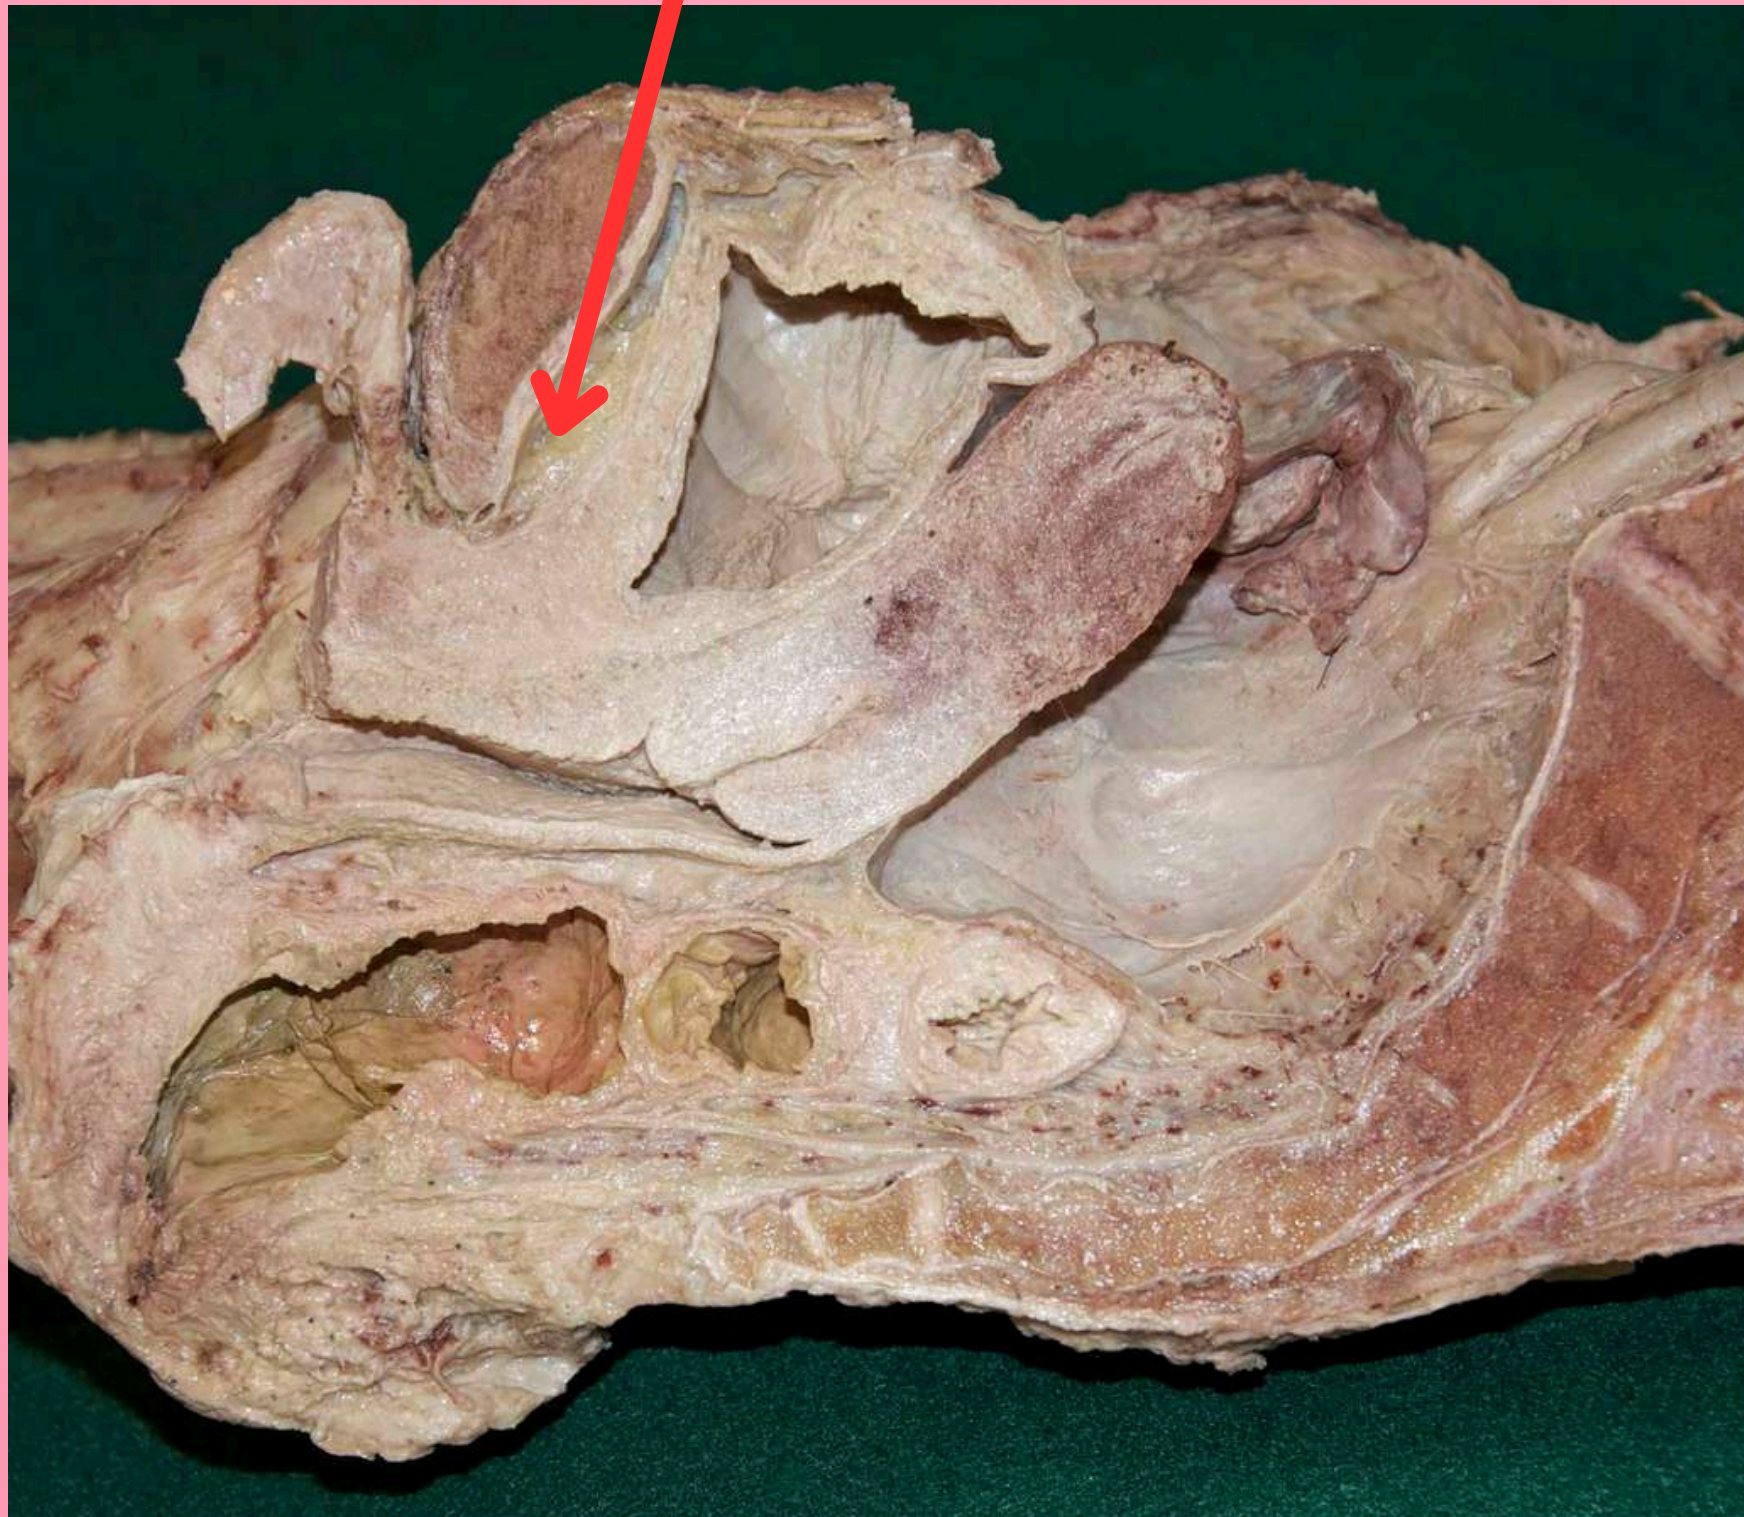

Q27 Identify vessel **A**

- A. Umbilical a.
- B. Uterine a.
- C. Obturator a.
- D. Superior gluteal a.

Q28 Identify vessel **B**

- A. Umbilical a.
- B. Uterine a.
- C. Obturator a.
- D. Superior gluteal a.

15

Q29 Identify structure **A**
Male A. Puboprostatic ligament

Female **B. Pubovesical ligament**

C. Rectovesical pouch

D. Vesicouterine pouch

Q30 Derived from which structure?

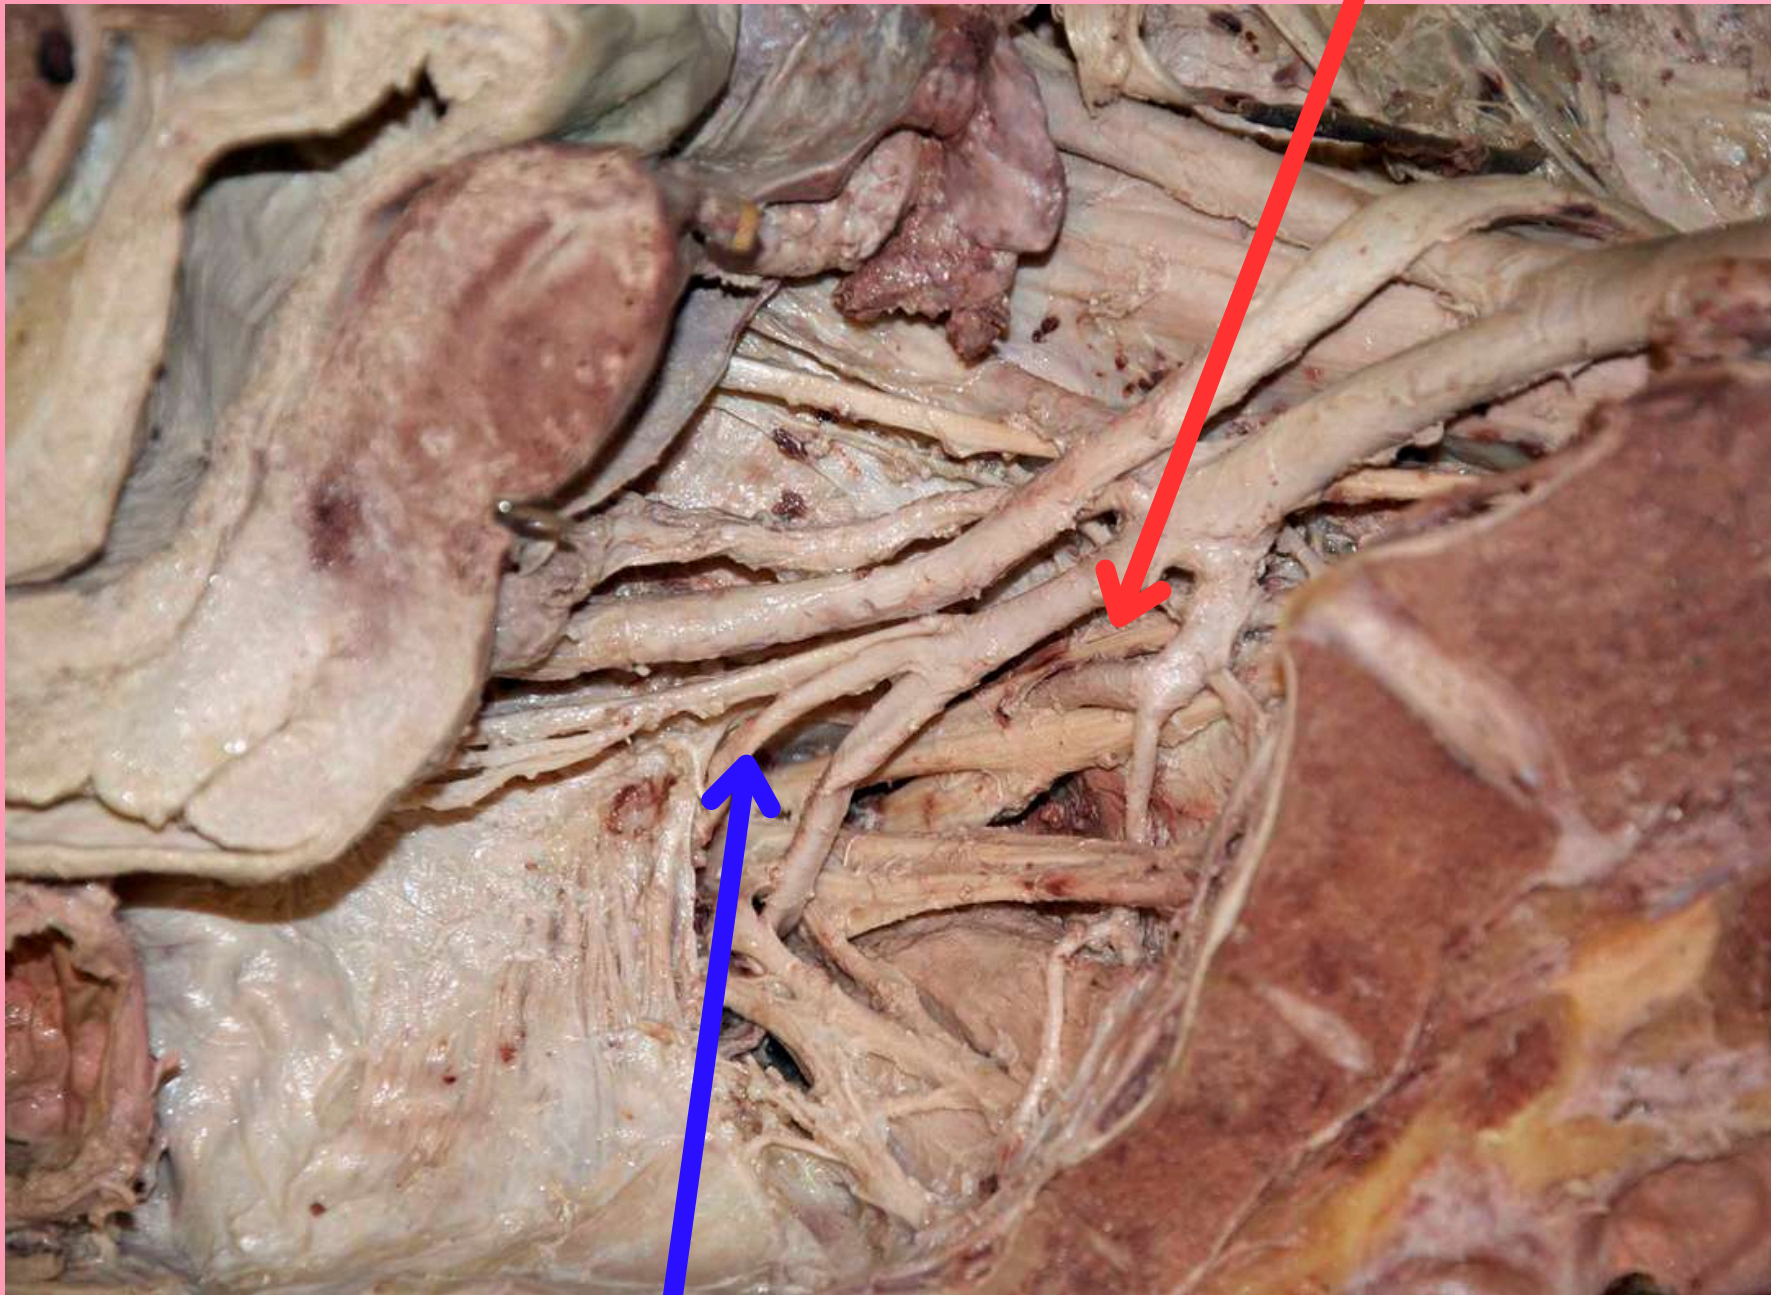

A. Membranous pelvic fascia

B. Endopelvic fascia

C. Hypogastric sheath

D. Loose areolar tissue

16

Q31 Identify structure **A**

A. Superior gluteal a.

B. Inferior gluteal a.

C. Internal pudendal a.

D. Obturator n.

Q32 Identify structure **B**

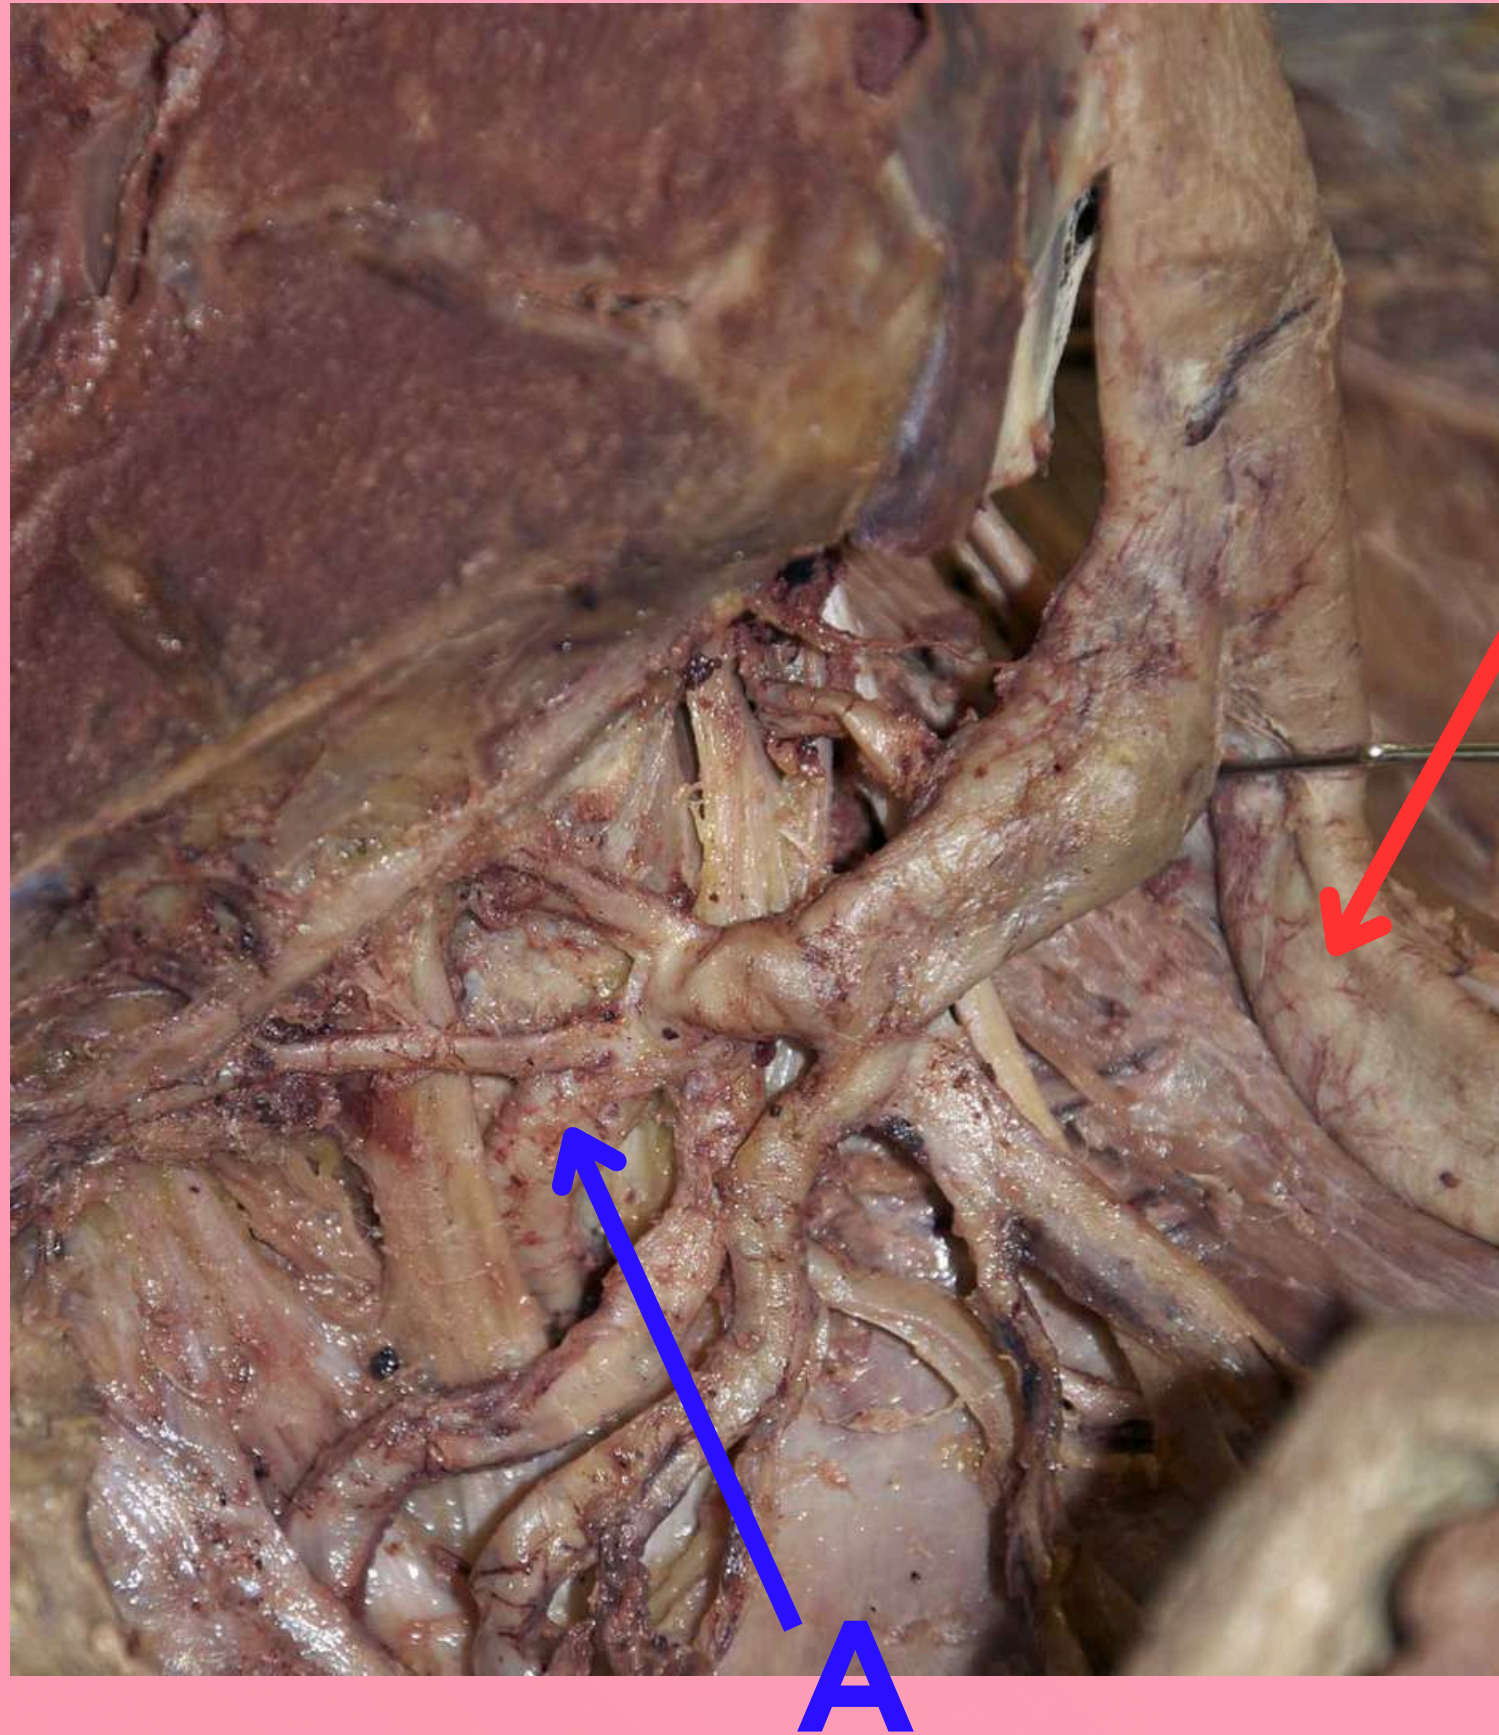

A. Lumbosacral trunk

B. S1

C. S2

D. S3

17

Q33 Identify structure **A**

A. Superior gluteal a.

B. Inferior gluteal a.

C. Internal iliac a.

D. External iliac a.

Q34 Identify structure **B**

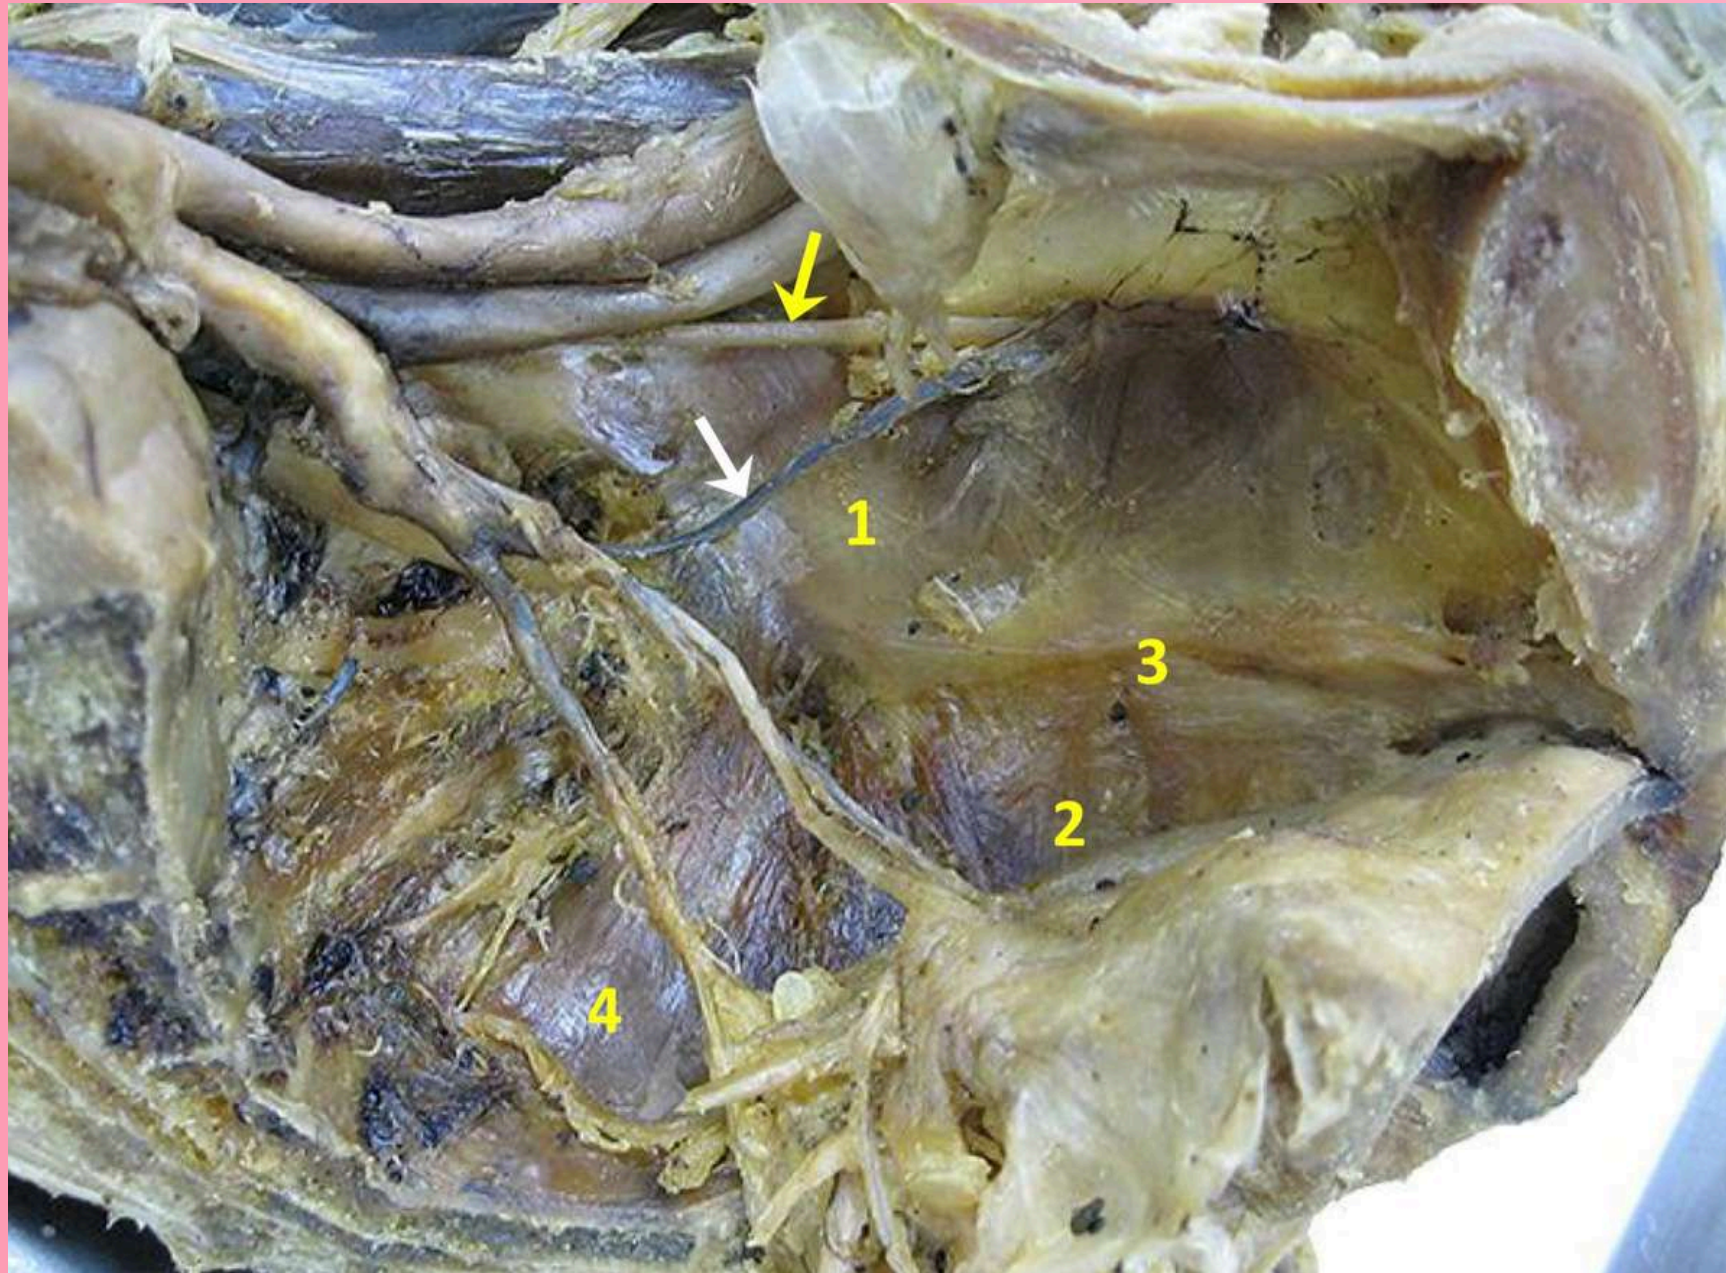

A. Superior gluteal a.

B. Inferior gluteal a.

C. Internal iliac a.

D. External iliac a.

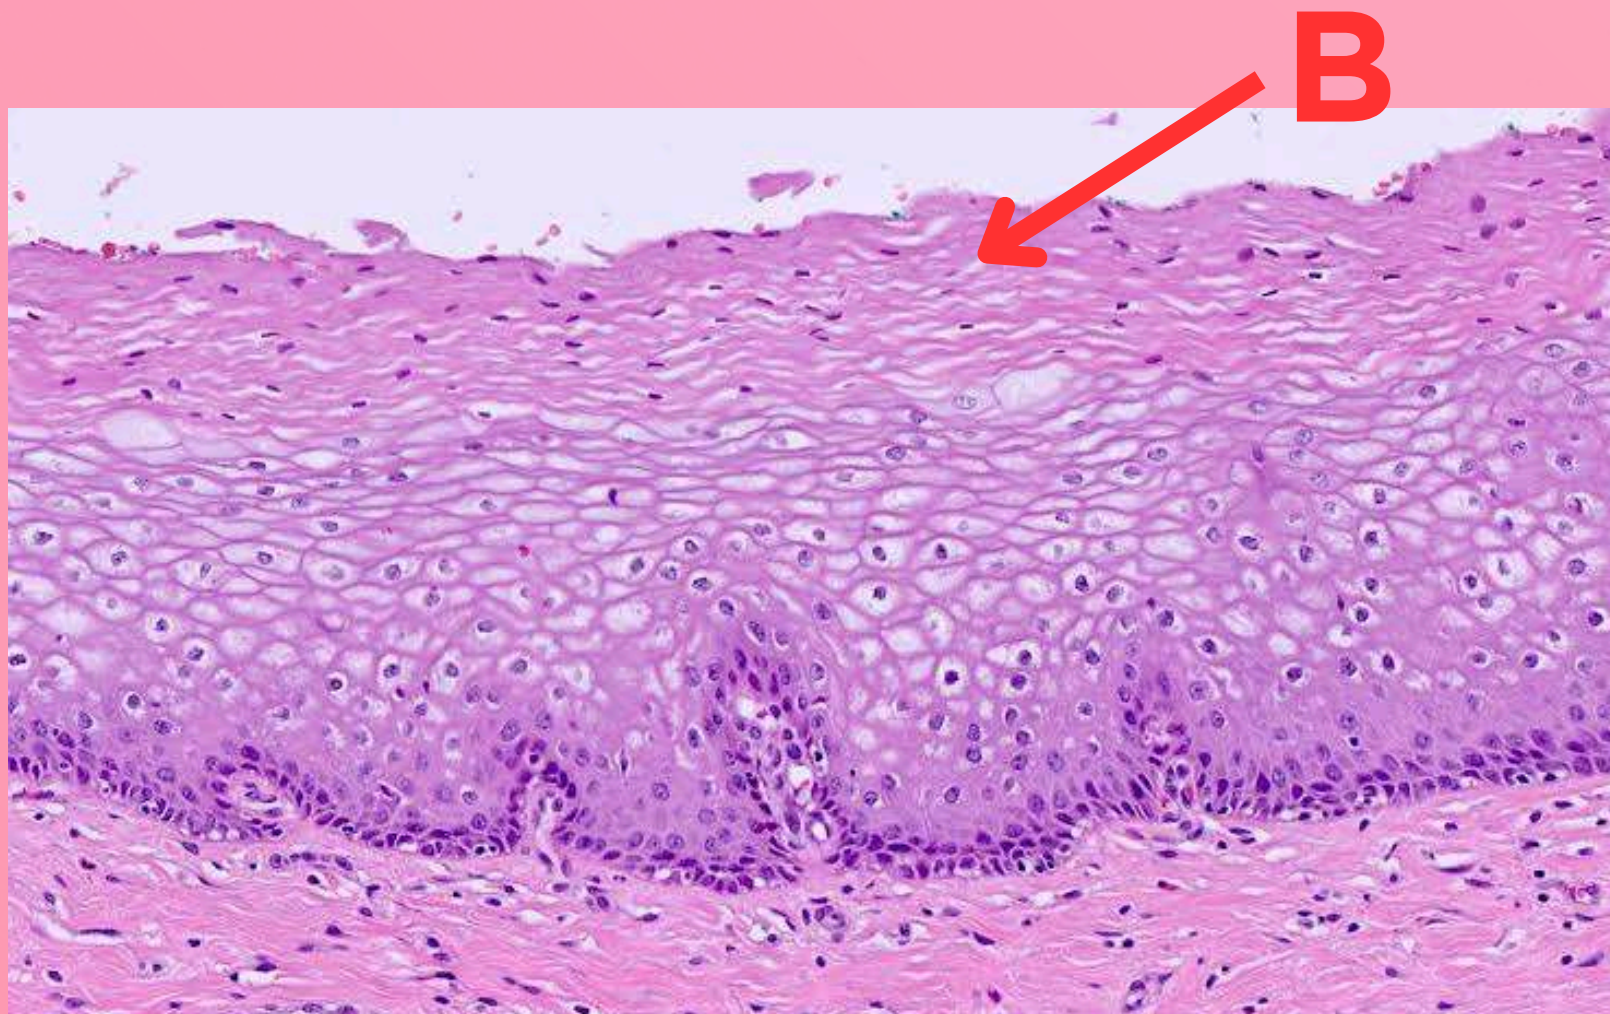

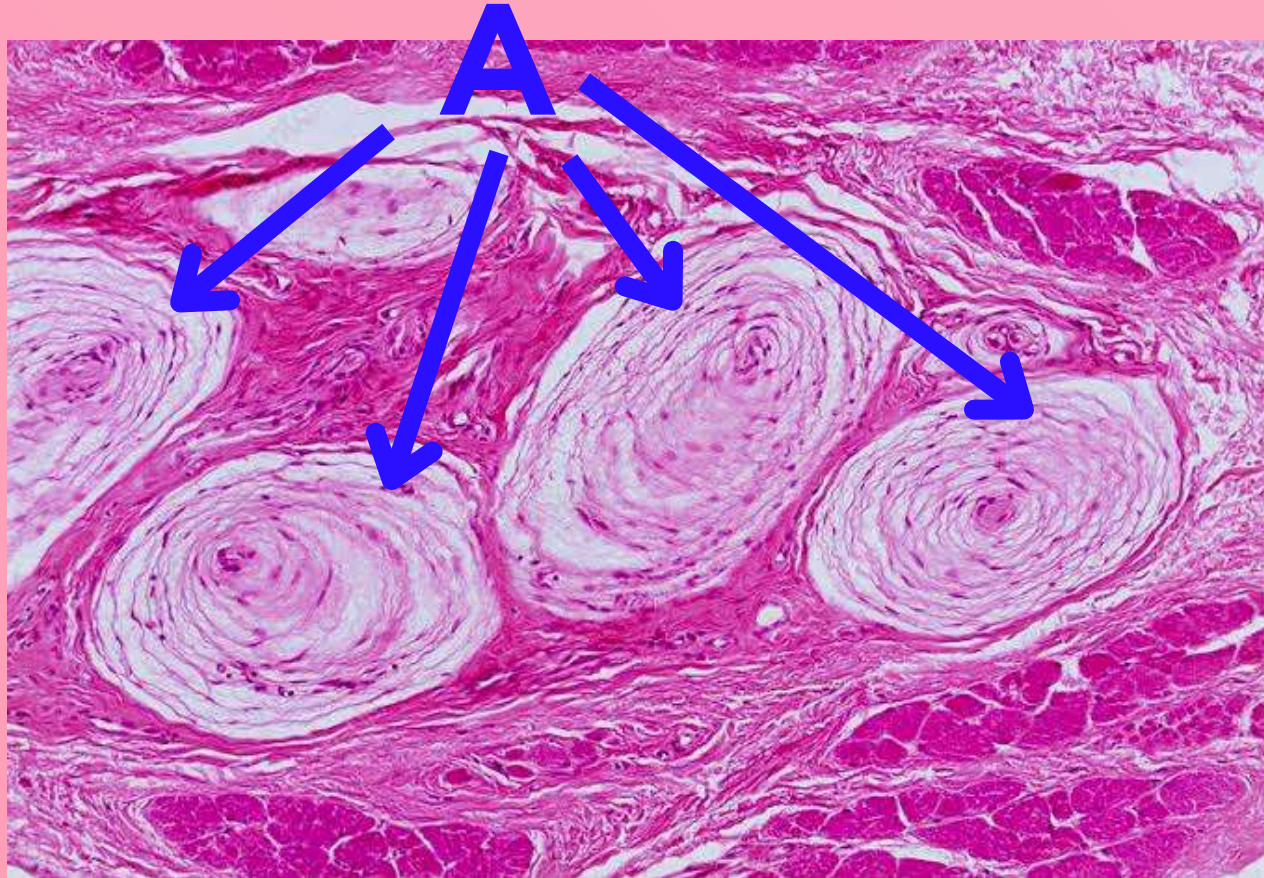

18

- Q35** Identify structure **2**
- A. Obturator internus m.
 - B. Obturator externus m.
 - C. Levator Ani m.
 - D. Coccygeus m.

- Q36** Identify structure **3**
- A. Tendinous arch of levator ani m.
 - B. Tendinous arch of pelvic fascia
 - C. Rectovaginal septum

19

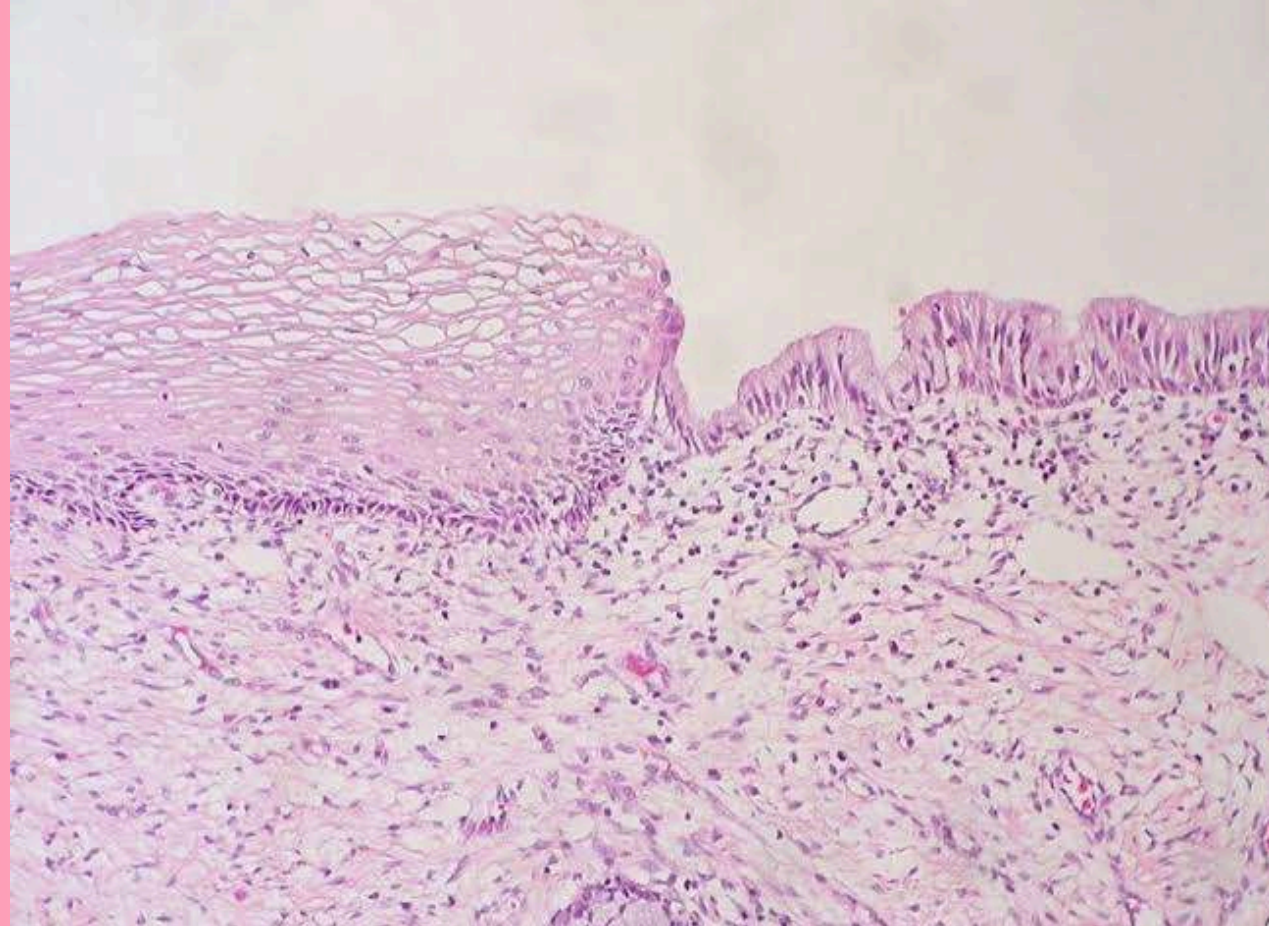

- Q37** Which structure is **A** located in?
- A. Labia minora
 - B. Labia majora and mons pubis
 - C. Clitoris**
 - D. Vagina

- Q38** Which cell layer is **B**
- A. Superficial**
 - B. Intermediate
 - C. Parabasal
 - D. Basal

20

Q39

Q40

Q39 Identify this area

A. Transformation zone of the cervix

B. Marginal zone

C. Compact zone

Q40 What phase of the uterus is this?

A. Proliferative phase

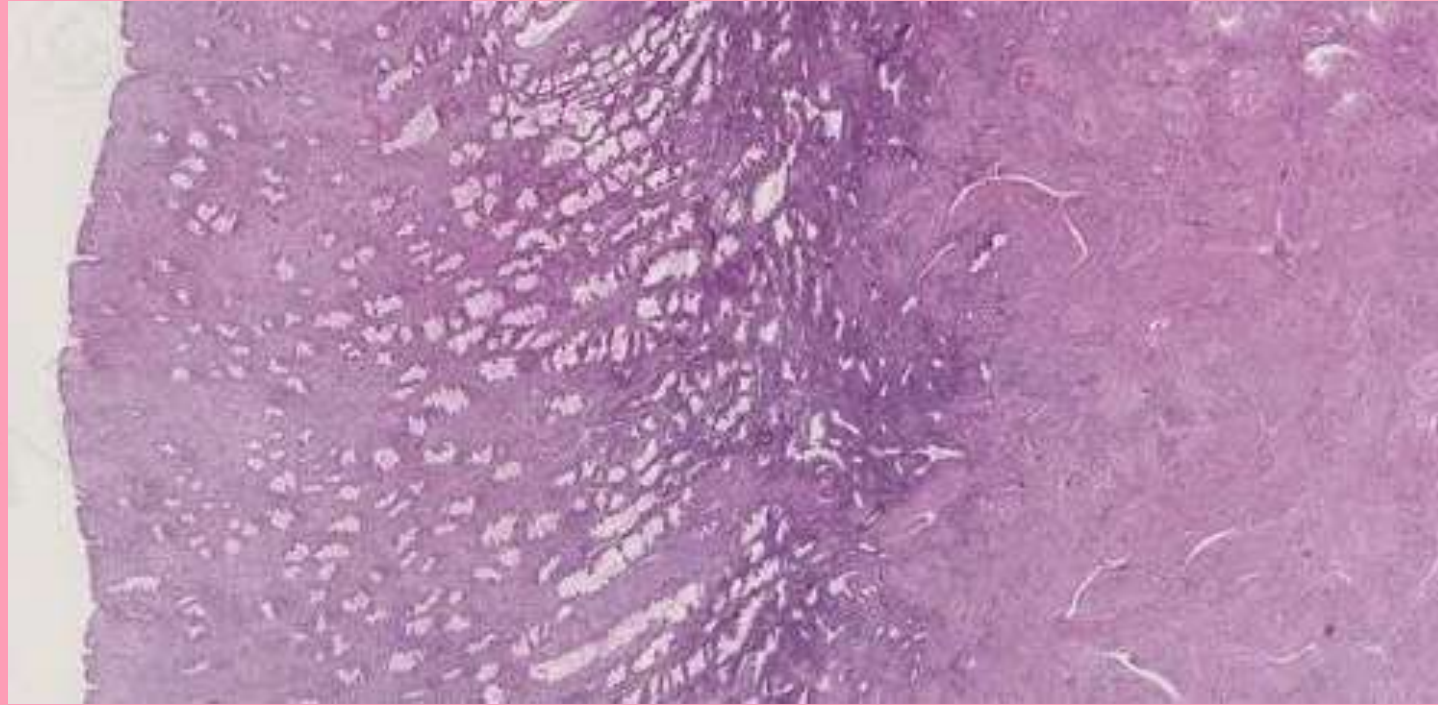

B. Early secretory phase

C. Late secretory phase

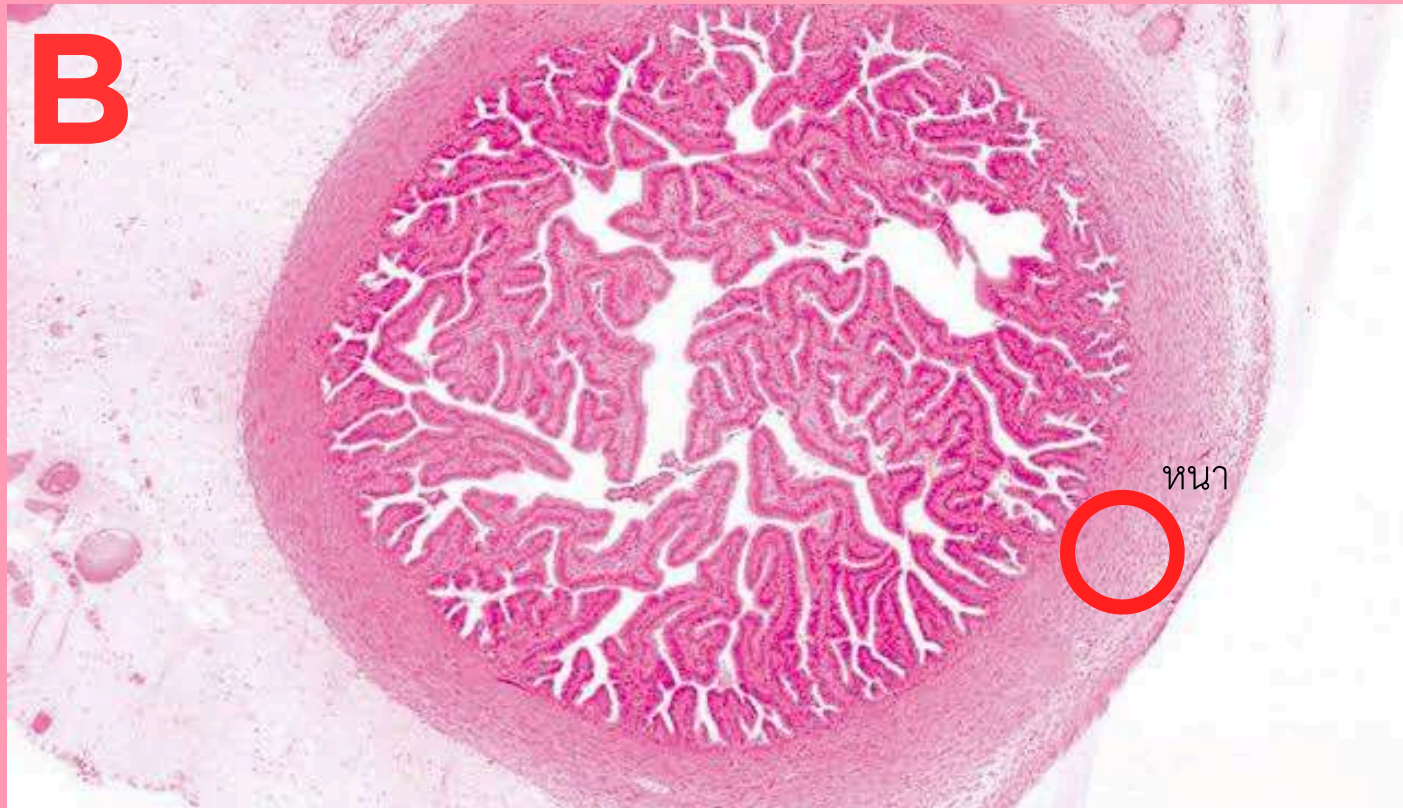

D. Menstrual phase

21

A

B

Q41 Identify structure **A**

A. Perimetrium

B. Myometrium

C. Endometrium

Q42 Which part of the oviduct is **B**?

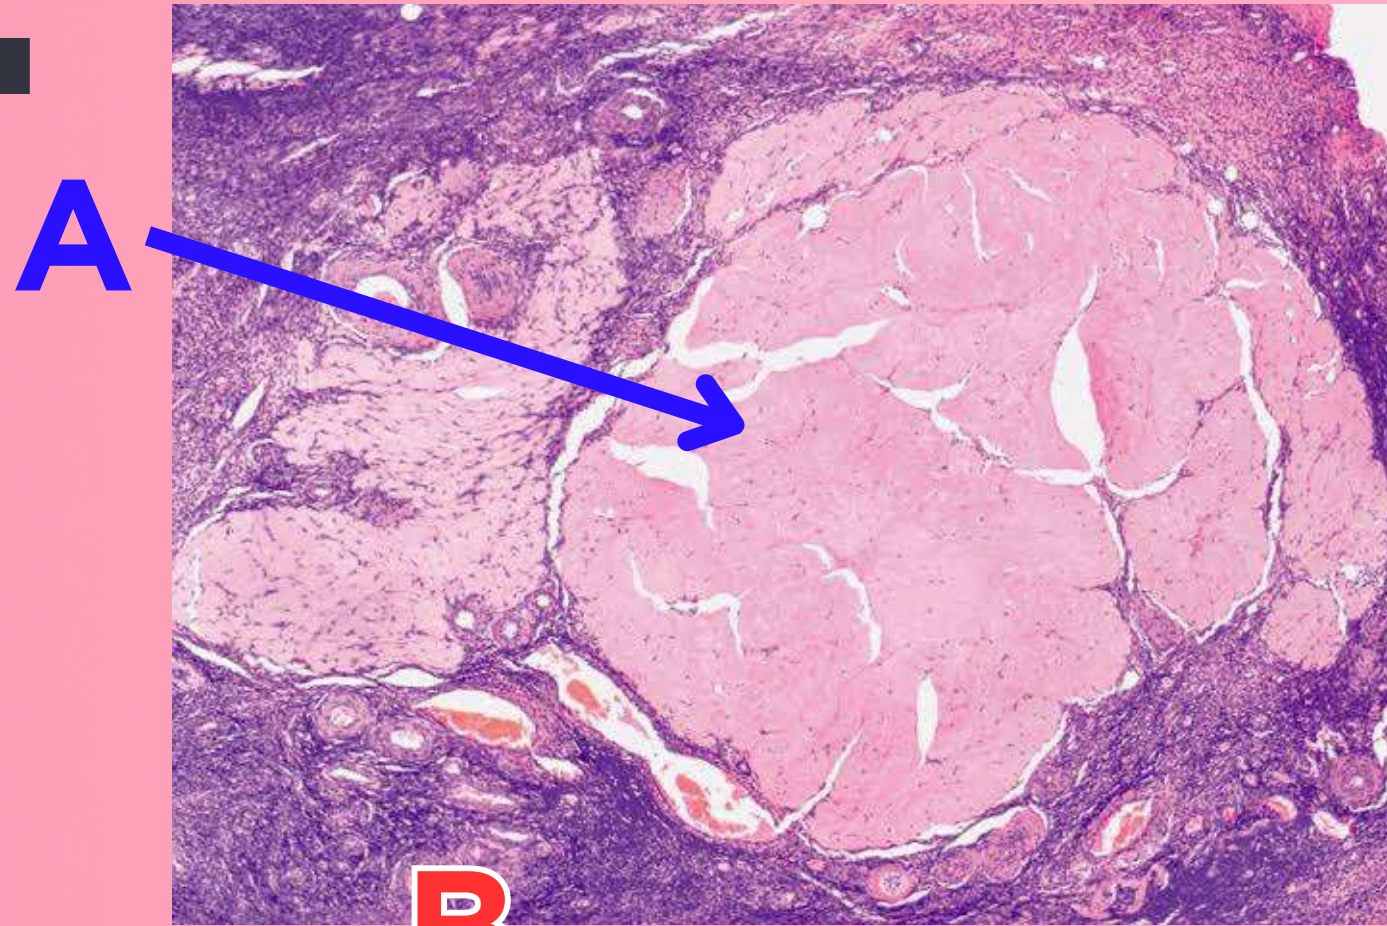

A. Intramural

B. Isthmus

C. Ampulla

D. Infundibulum

22

Q43 Identify structure **A**

A. Corpus luteum

B. Corpus albicans

C. Graafian follicle

D. Secondary follicle

Q44 Identify structure **B**

A. Theca lutein cells

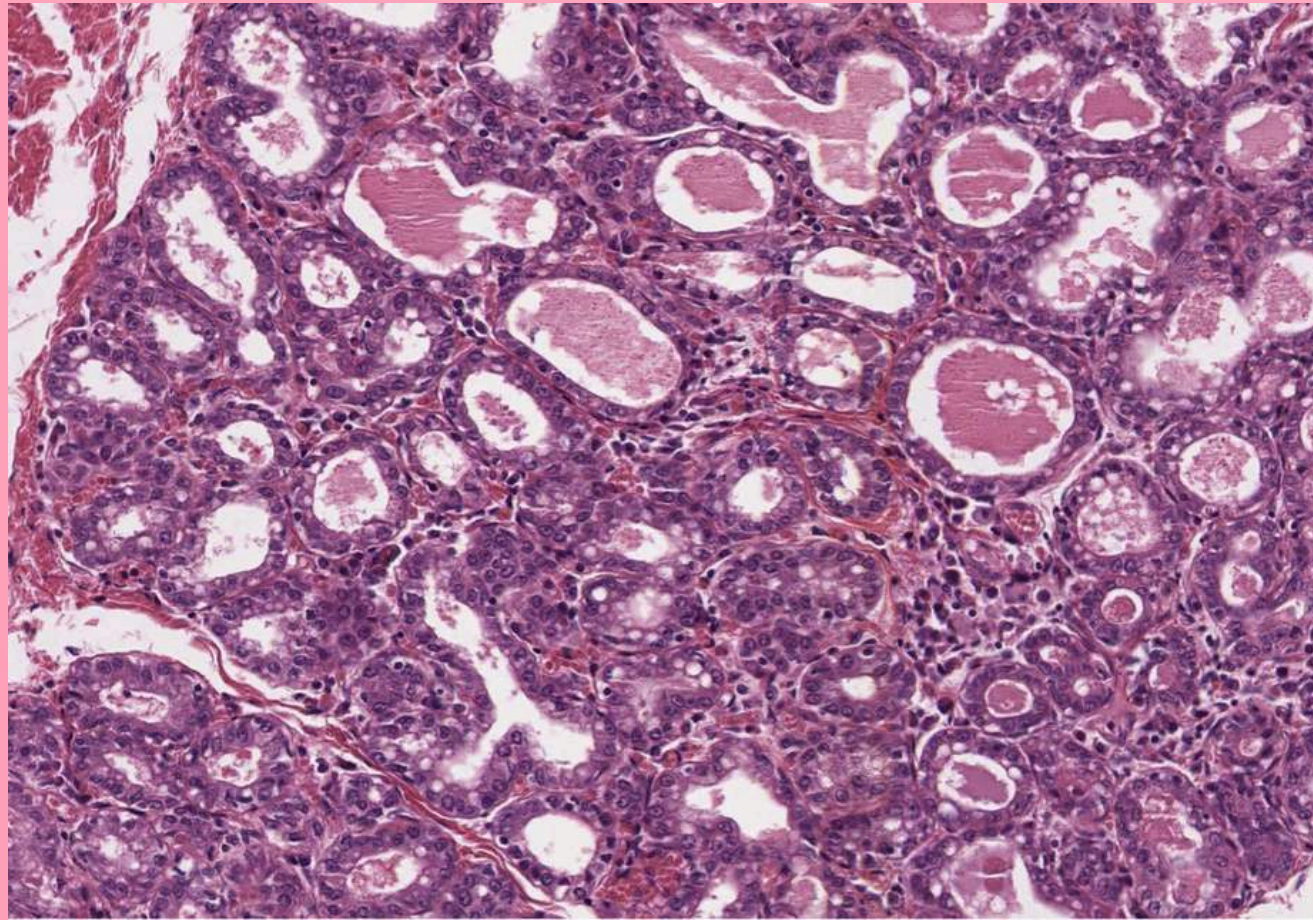

B. Granulosa lutein cells

C. Cumulus oophorus

D. Corona radiata

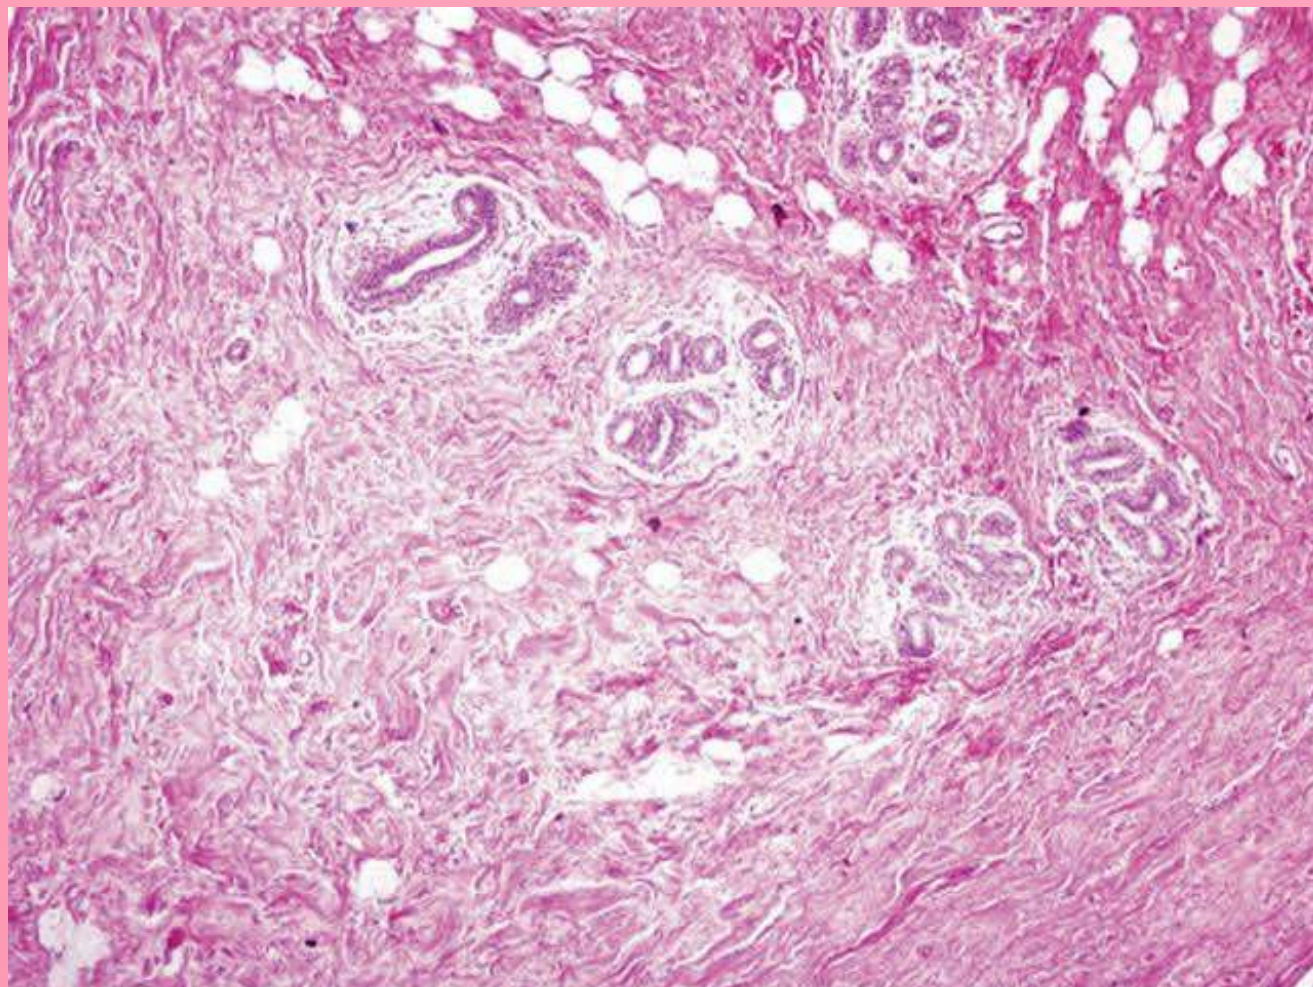

23

Q45

- Q45** Which phase is this mammary gland in?
- A. Active (non-lactating)
 - B. Active (lactating)**
 - C. Inactive (adult)
 - D. Inactive (puberty)

Q46

- Q46** Which phase is this mammary gland in?
- A. Active (non-lactating)
 - B. Inactive (Infant)
 - C. Inactive (adult)**
 - D. Inactive (puberty)

24

Q47 Identify structure **A**

A. Wharton jelly

B. Uterine a.

C. Umbilical a.

D. Umbilical vein

Q48 Identify structure **B**

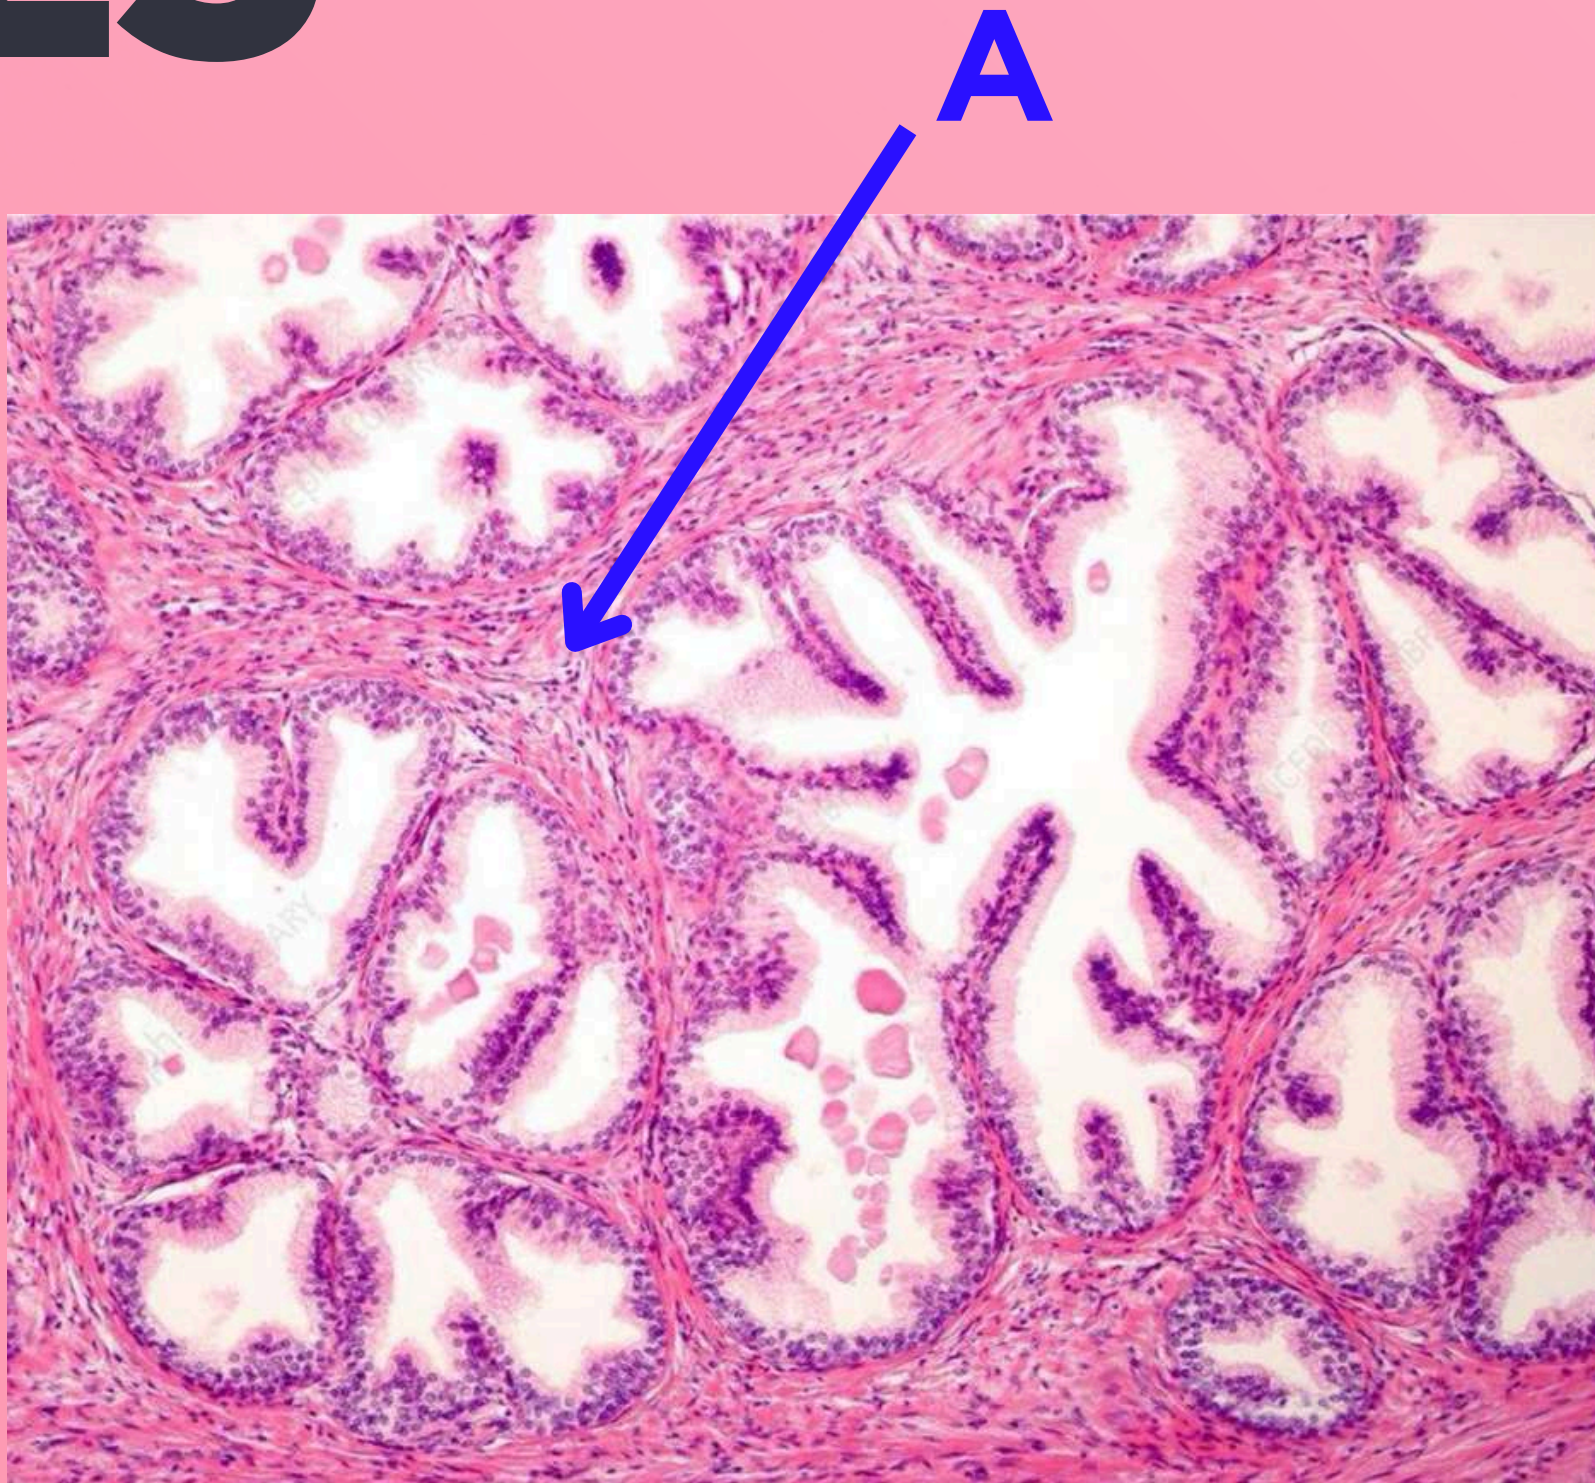

A. Decidua basalis

B. Chorionic plate

C. Chorionic villi

D. Intervillous space

25

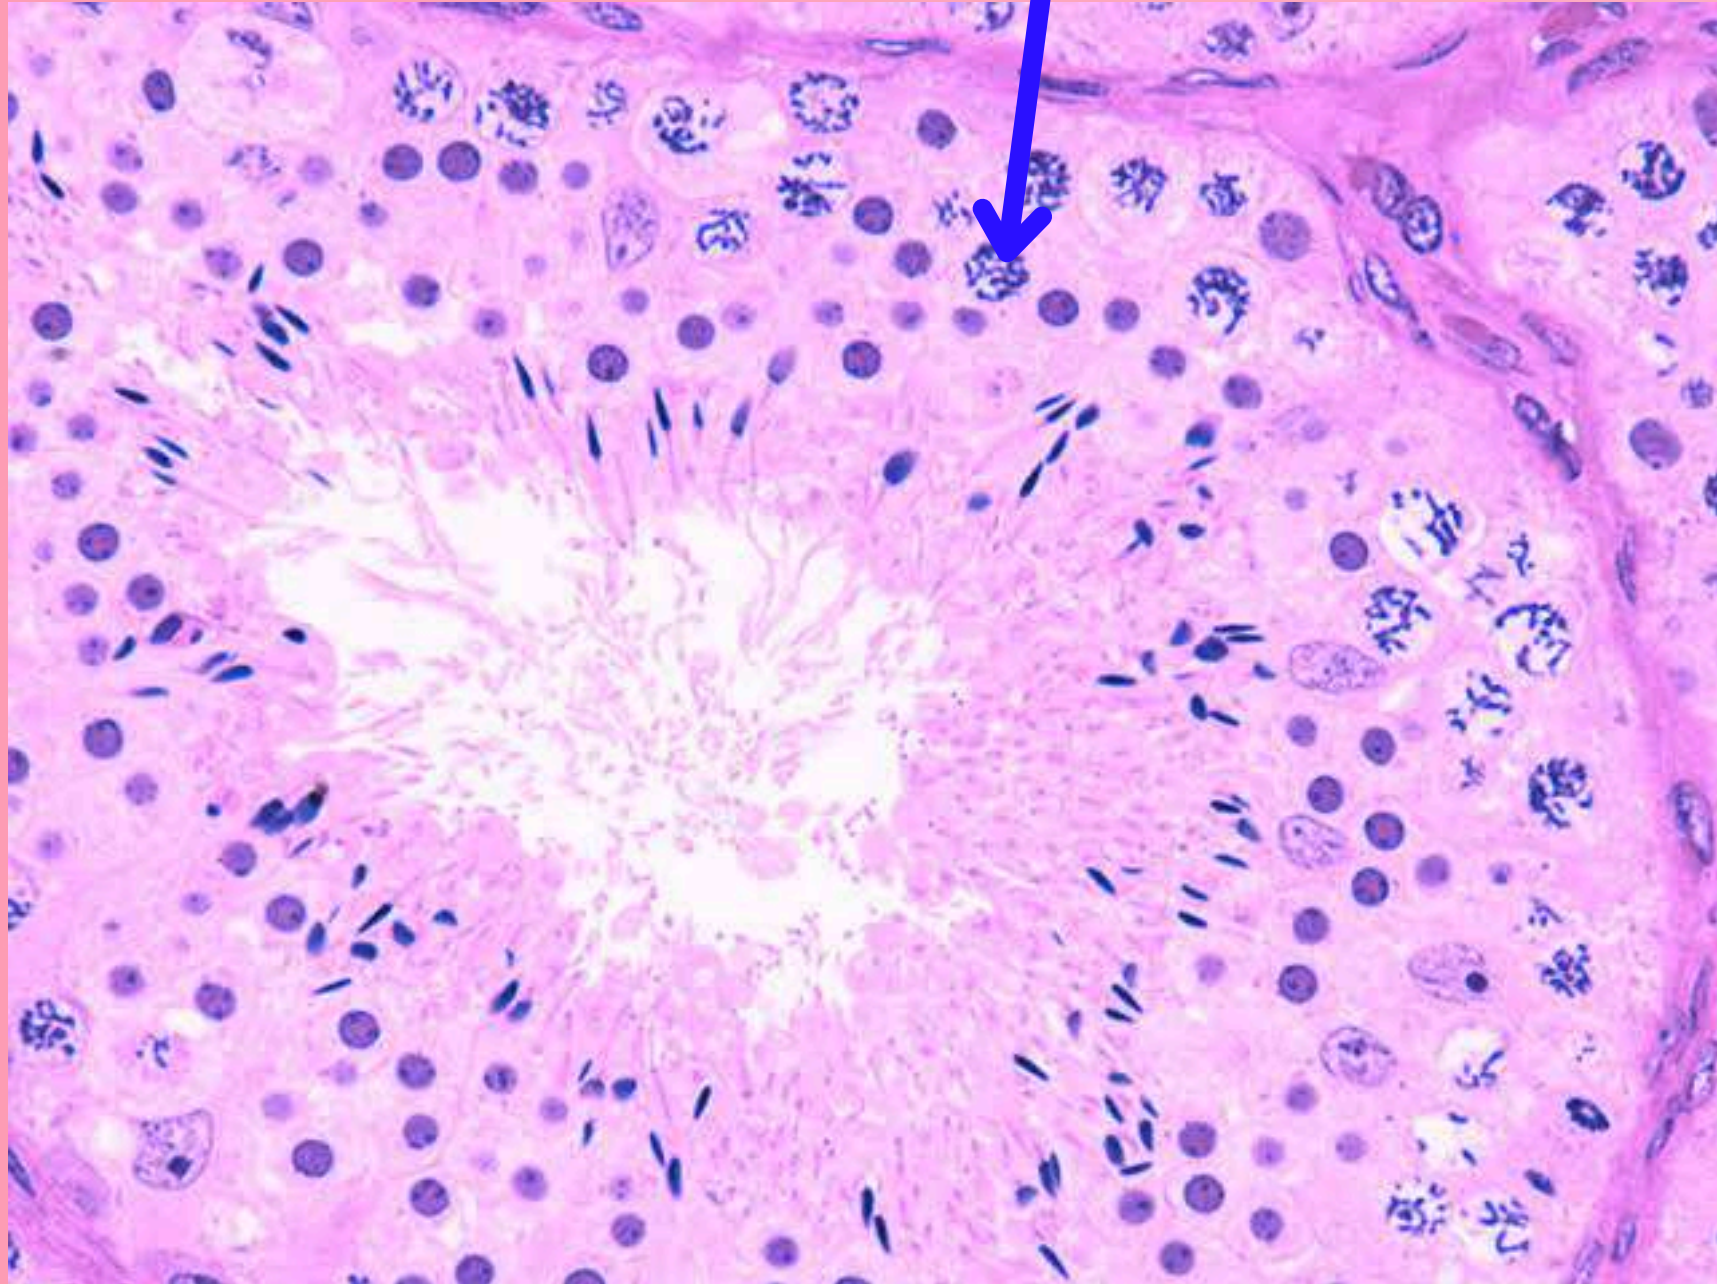

Q49 Identify this picture as a whole

- A. Seminal vesicle
- B. Prostate gland**
- C. Fallopian tube
- D. Epididymis

Q50 Identify structure **A**

- A. Fibromuscular stroma**
- B. Corpora amylacea
- C. Loose areolar CNT
- D. Smooth muscle

26

- Q51** Identify cell **A**
- A. Spermatogonia
 - B. Primary spermatocyte**
 - C. Secondary spermatocyte
 - D. Early spermatid

- Q52** Which cell division phase is next?
- A. Meiosis I**
 - B. Meiosis II
 - C. Mitosis
 - D. Spermiogenesis

27

Q53 Identify this structure

A. Straight tubule

B. Epididymis

C. Efferent ductules

D. Rete testis

Q54 Tell it's apical modification

A. Microvilli

B. Cilia

C. Stereocilia

D. Microvilli and cilia

28

Q55 Identify this structure

A. Straight tubule

B. Epididymis

C. Efferent ductules

D. Rete testis

Q56 Tell it's apical modification

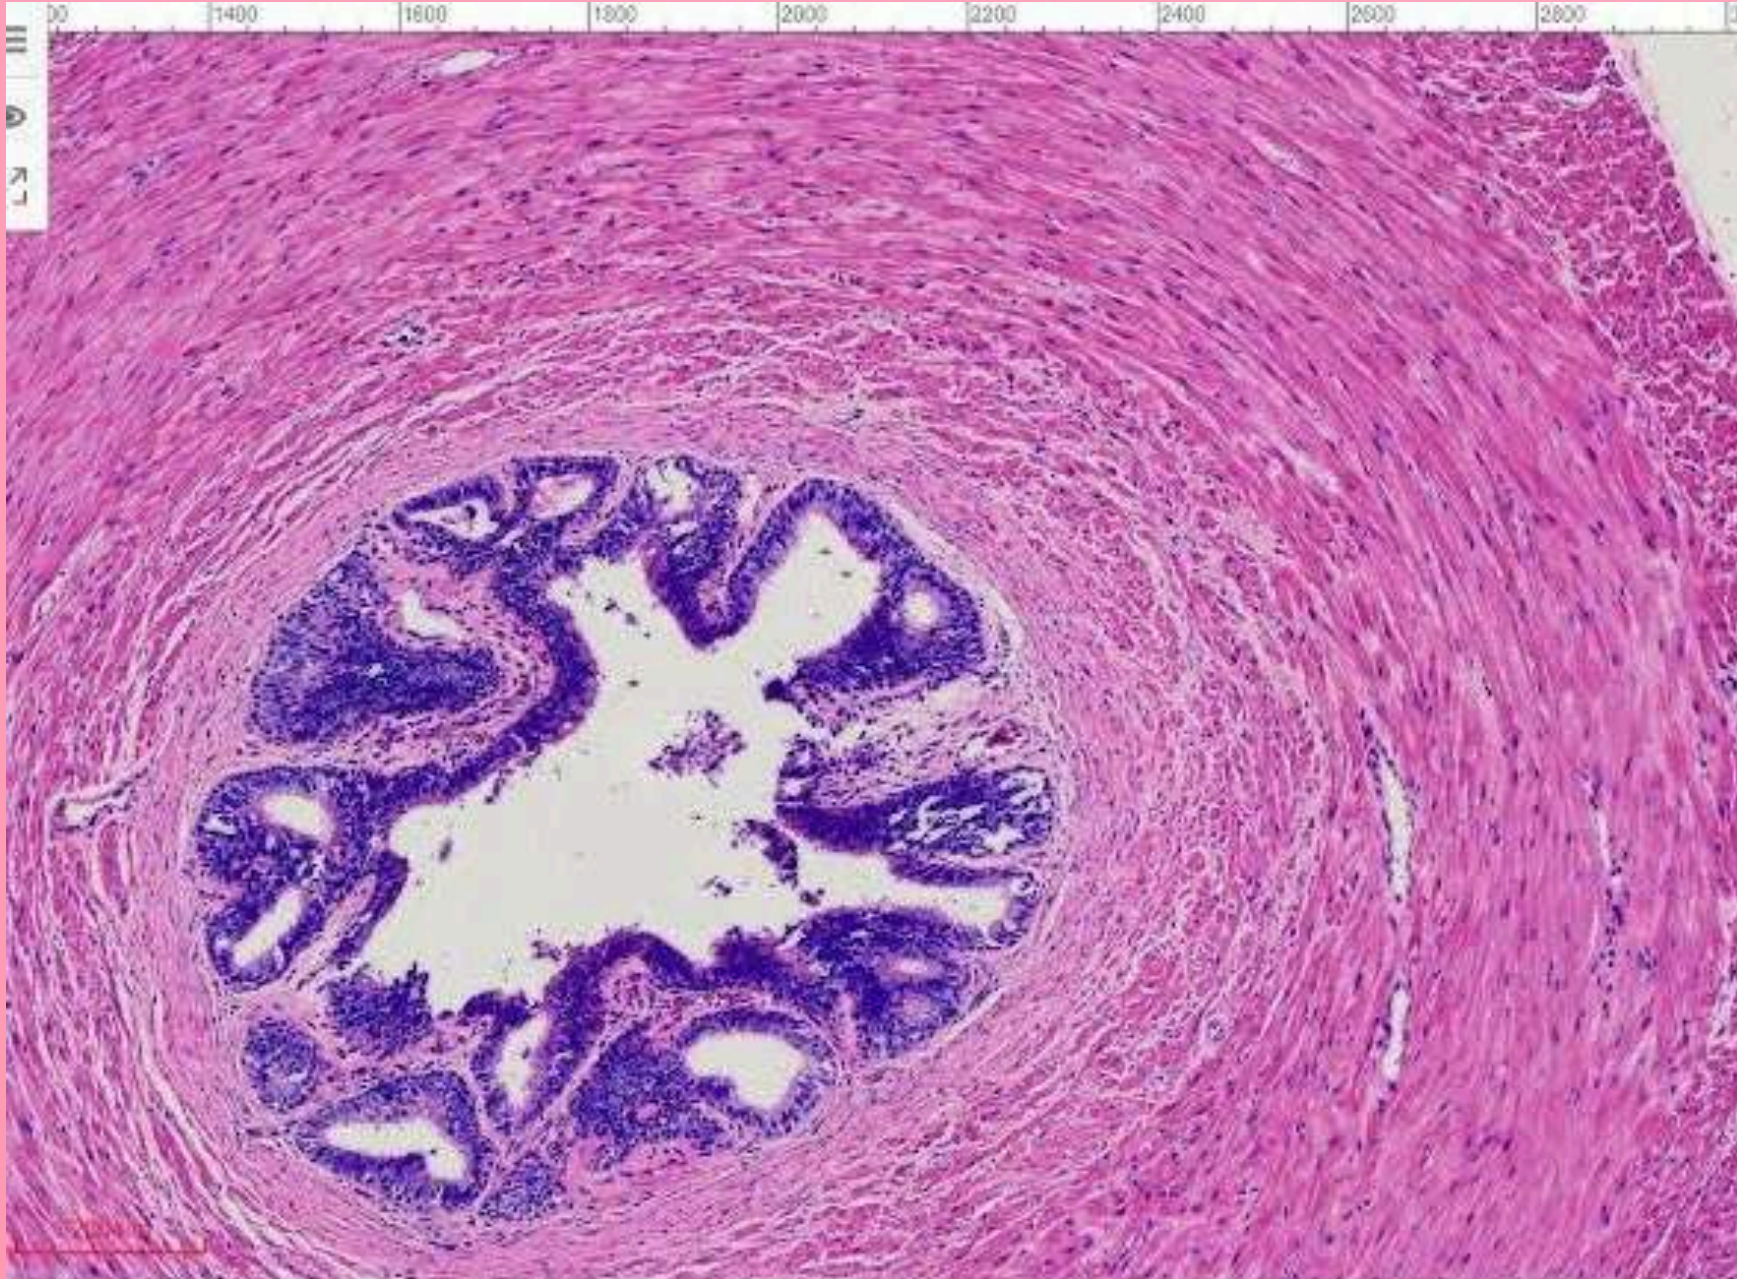

A. Microvilli

B. Cilia

C. Stereocilia

D. Microvilli and cilia

29

Q57 Identify this structure

A. Prostate gland

B. Vas deferens

C. Seminal vesicle

D. Cowper's gland

Q58 Which choice is correct regarding this structure?

A. Outer circular muscle layer

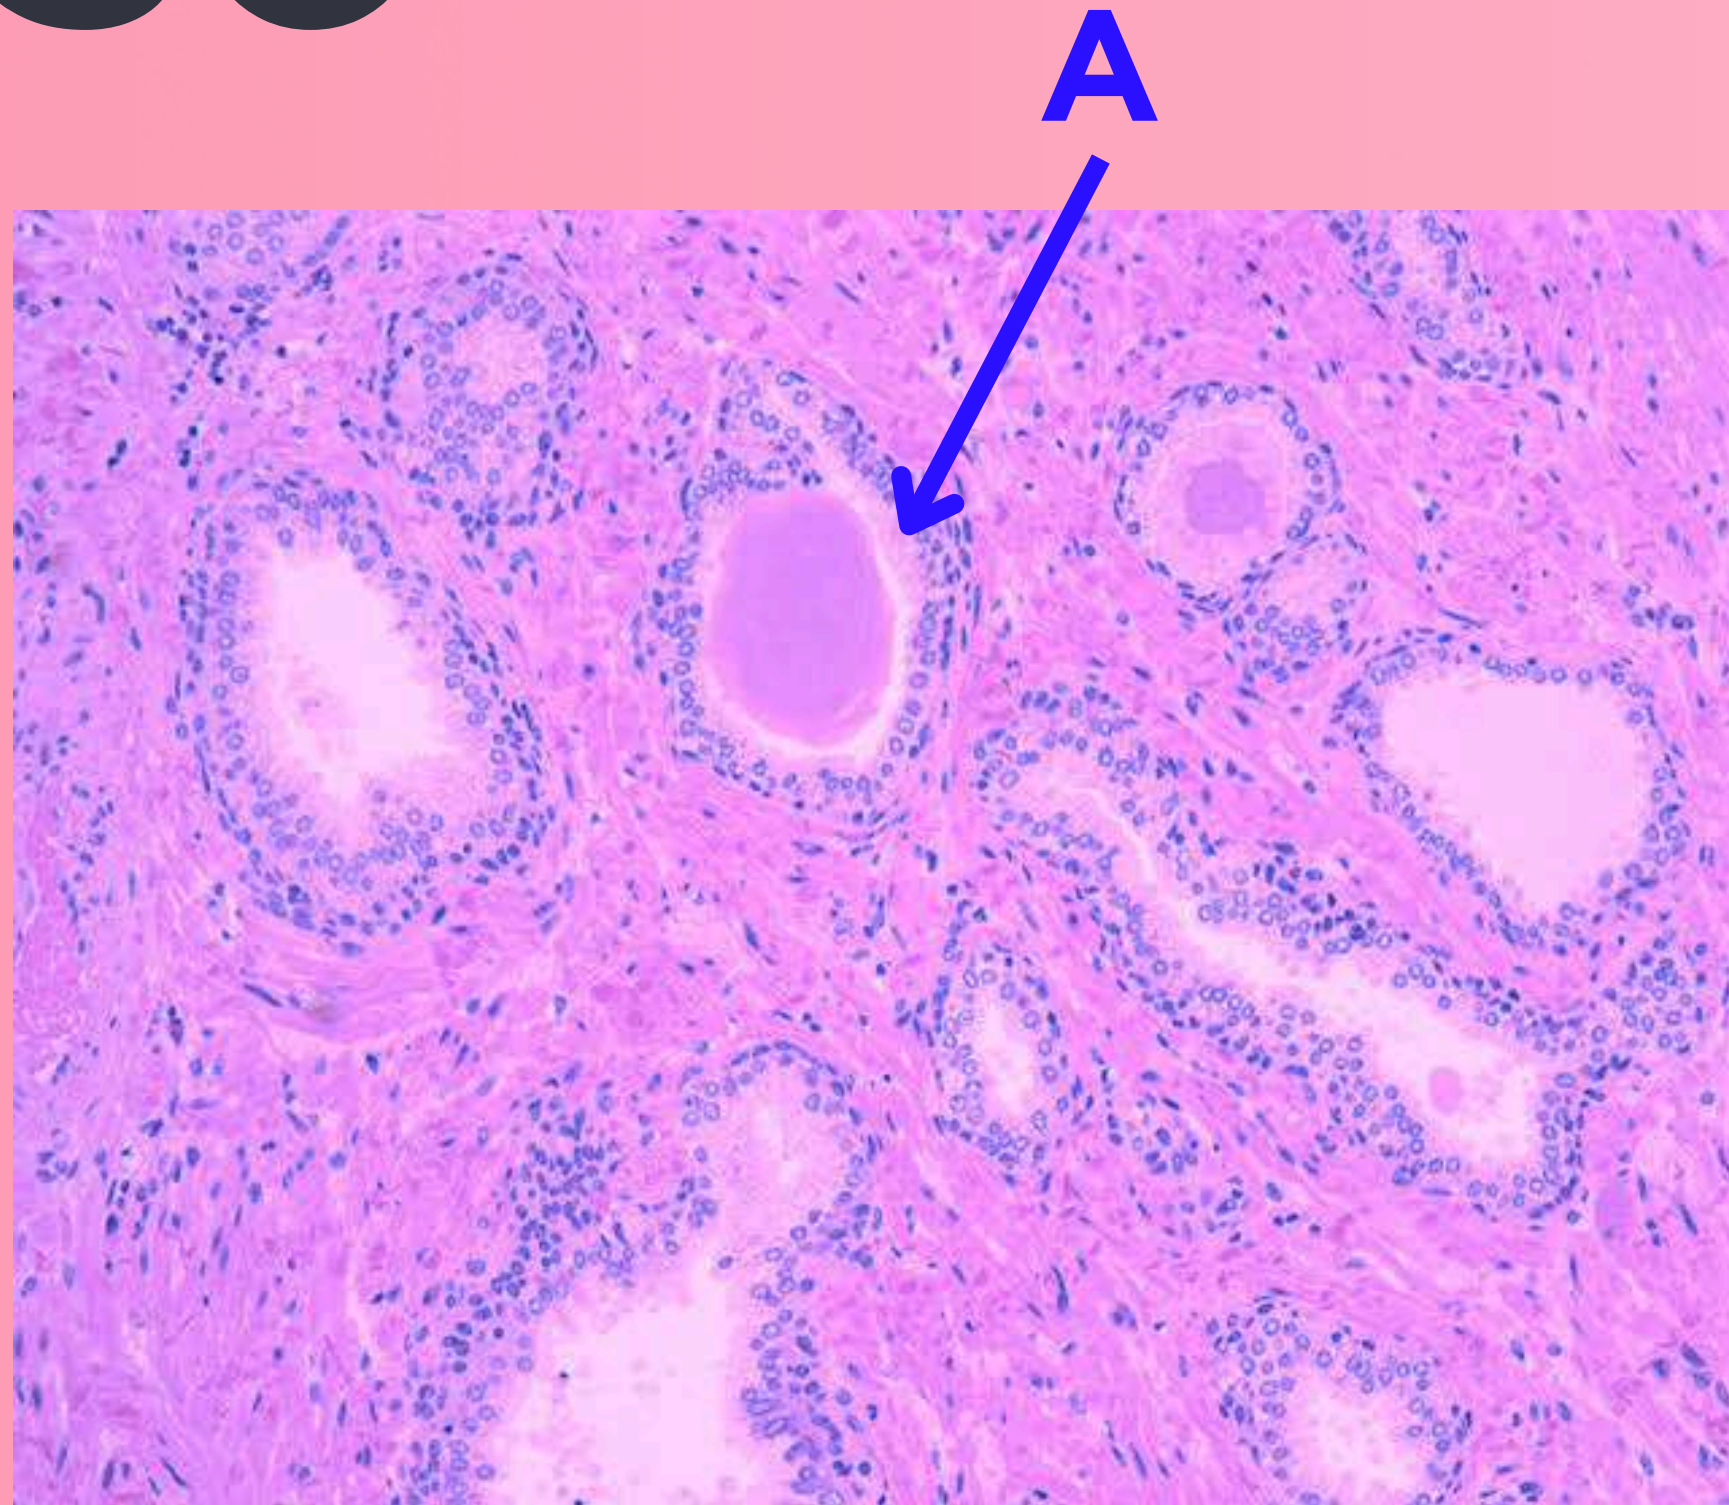

B. Middle longitudinal muscle layer

C. Inner circular muscle layer

D. Pseudostratified columnar epithelium

E. Microvilli in the lumen

30

Q59 Identify this structure

- A. Prostate gland
- B. Corpus spongiosum
- C. Seminal vesicle
- D. Cowper's gland
- E. Corpus cavernosum

Q60 Secretory products of **A**?

- A. Alkaline phosphatase
- B. Acid phosphatase
- C. Prostaglandins
- D. Mucous secretion
- E. Fibrinolysin
