

Spot test Repro I

(Filled answers 1/1)

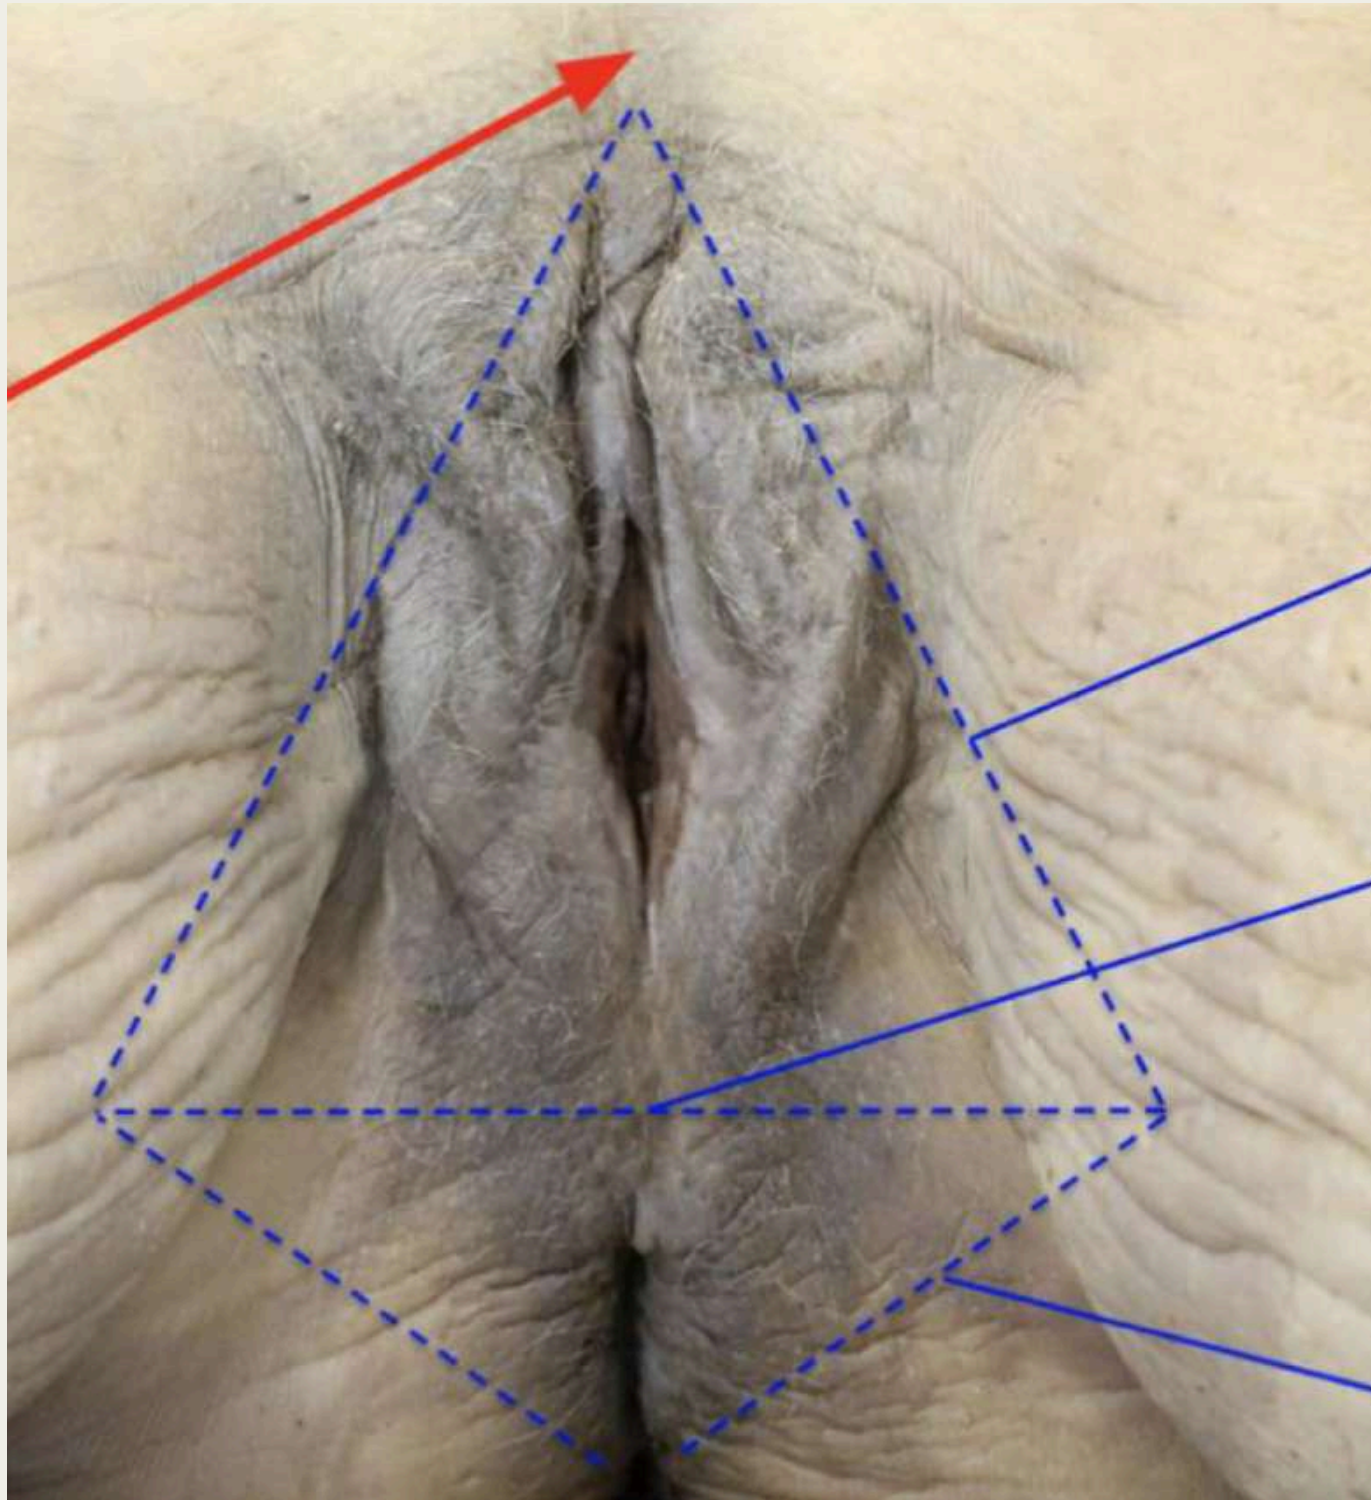

CaT edited

Academic 80 <3

01

A

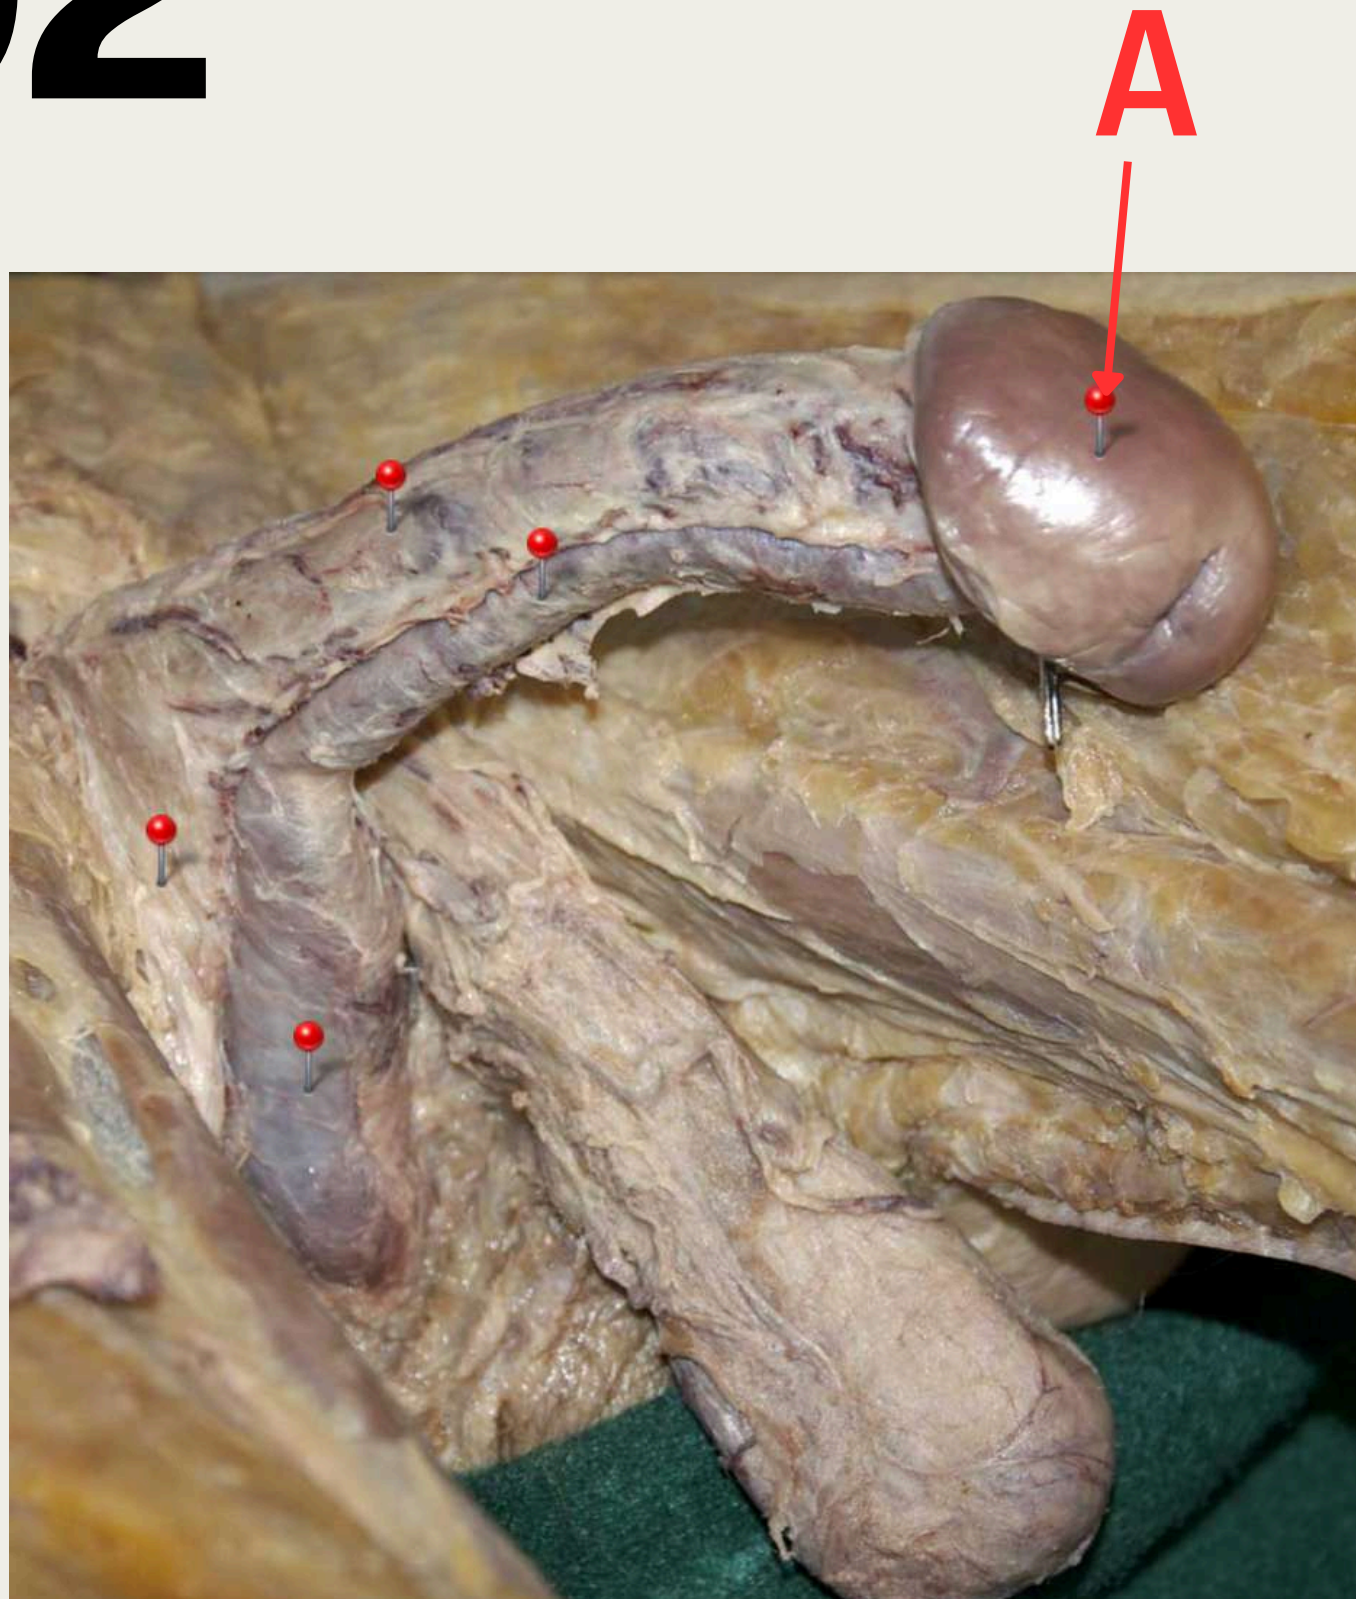

Q1 Identify area A

1. Mons pubis
2. Labia majora
3. Labia minora
4. Glans of Clitoris

Q2 What is its innervation?

1. Pudendal nerve
2. Iliohypogastric nerve
3. Ilioinguinal nerve
4. Genitofemoral nerve

02

Q1 Identify structure A

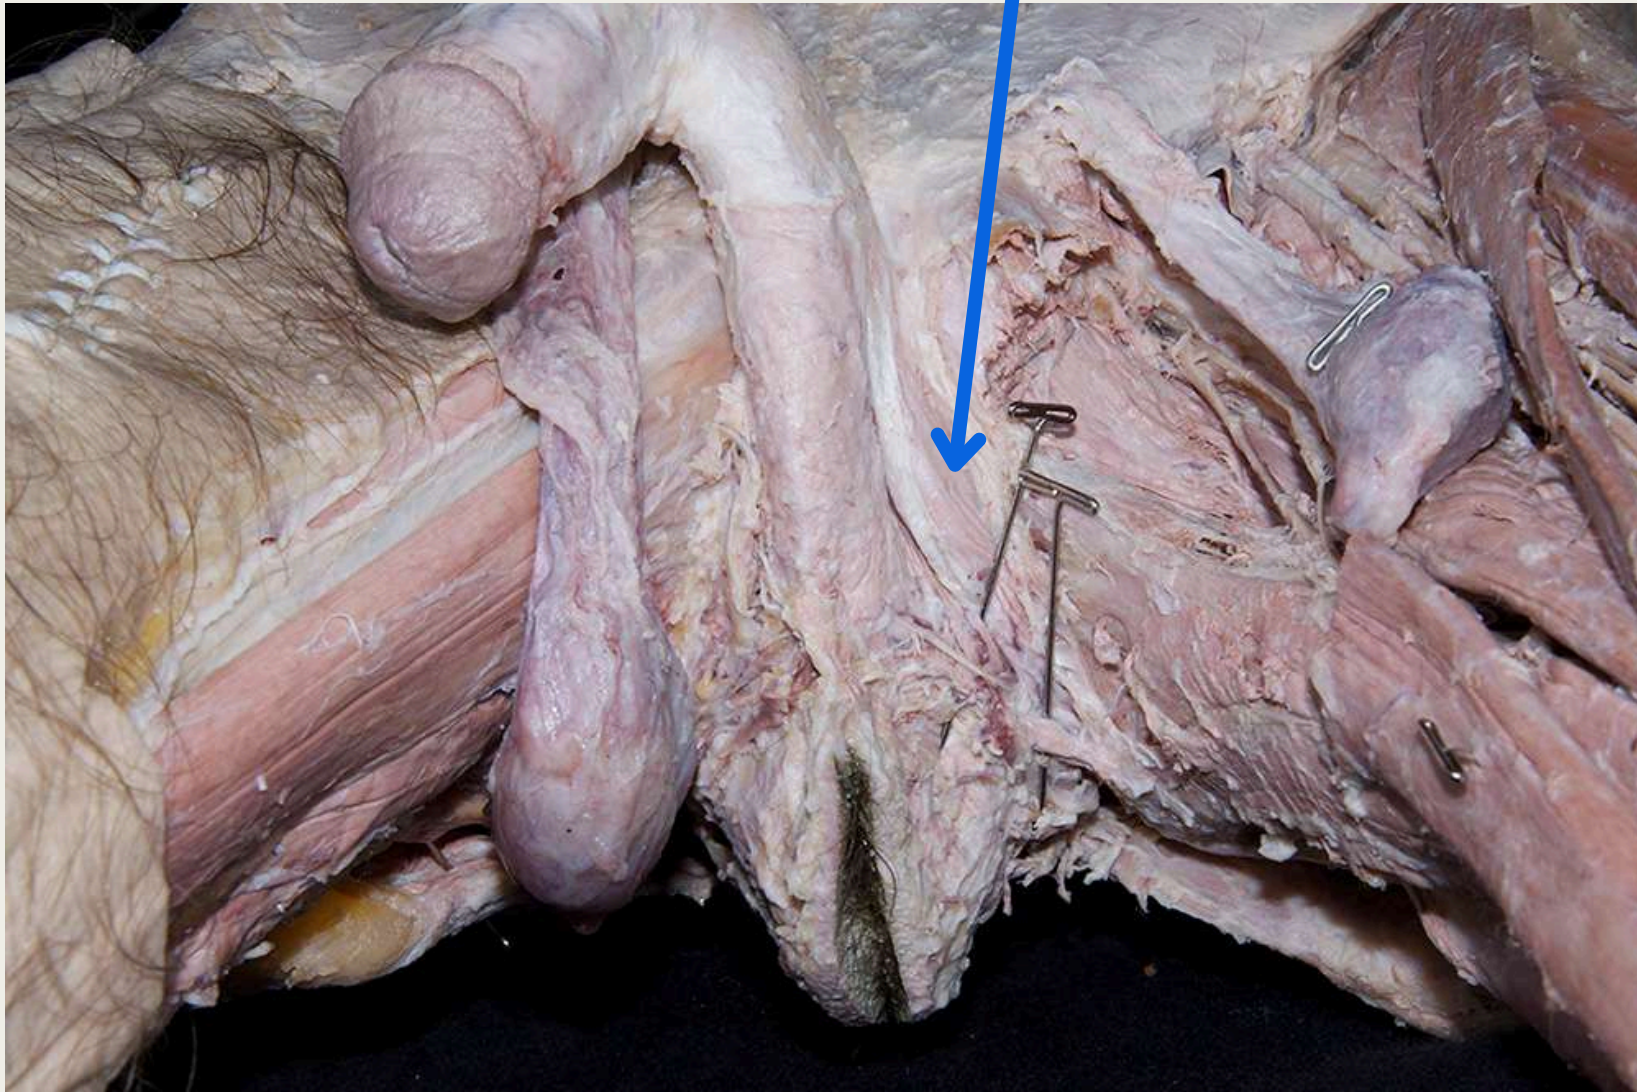

1. Glands penis
2. Glans penis
3. Prepuce
4. Bulb of penis

Q2 What is its innervation?

1. Ilioinguinal nerve
2. Dorsal nerve of the penis
3. Pudendal nerve
4. Inferior hypogastric nerve

03

A

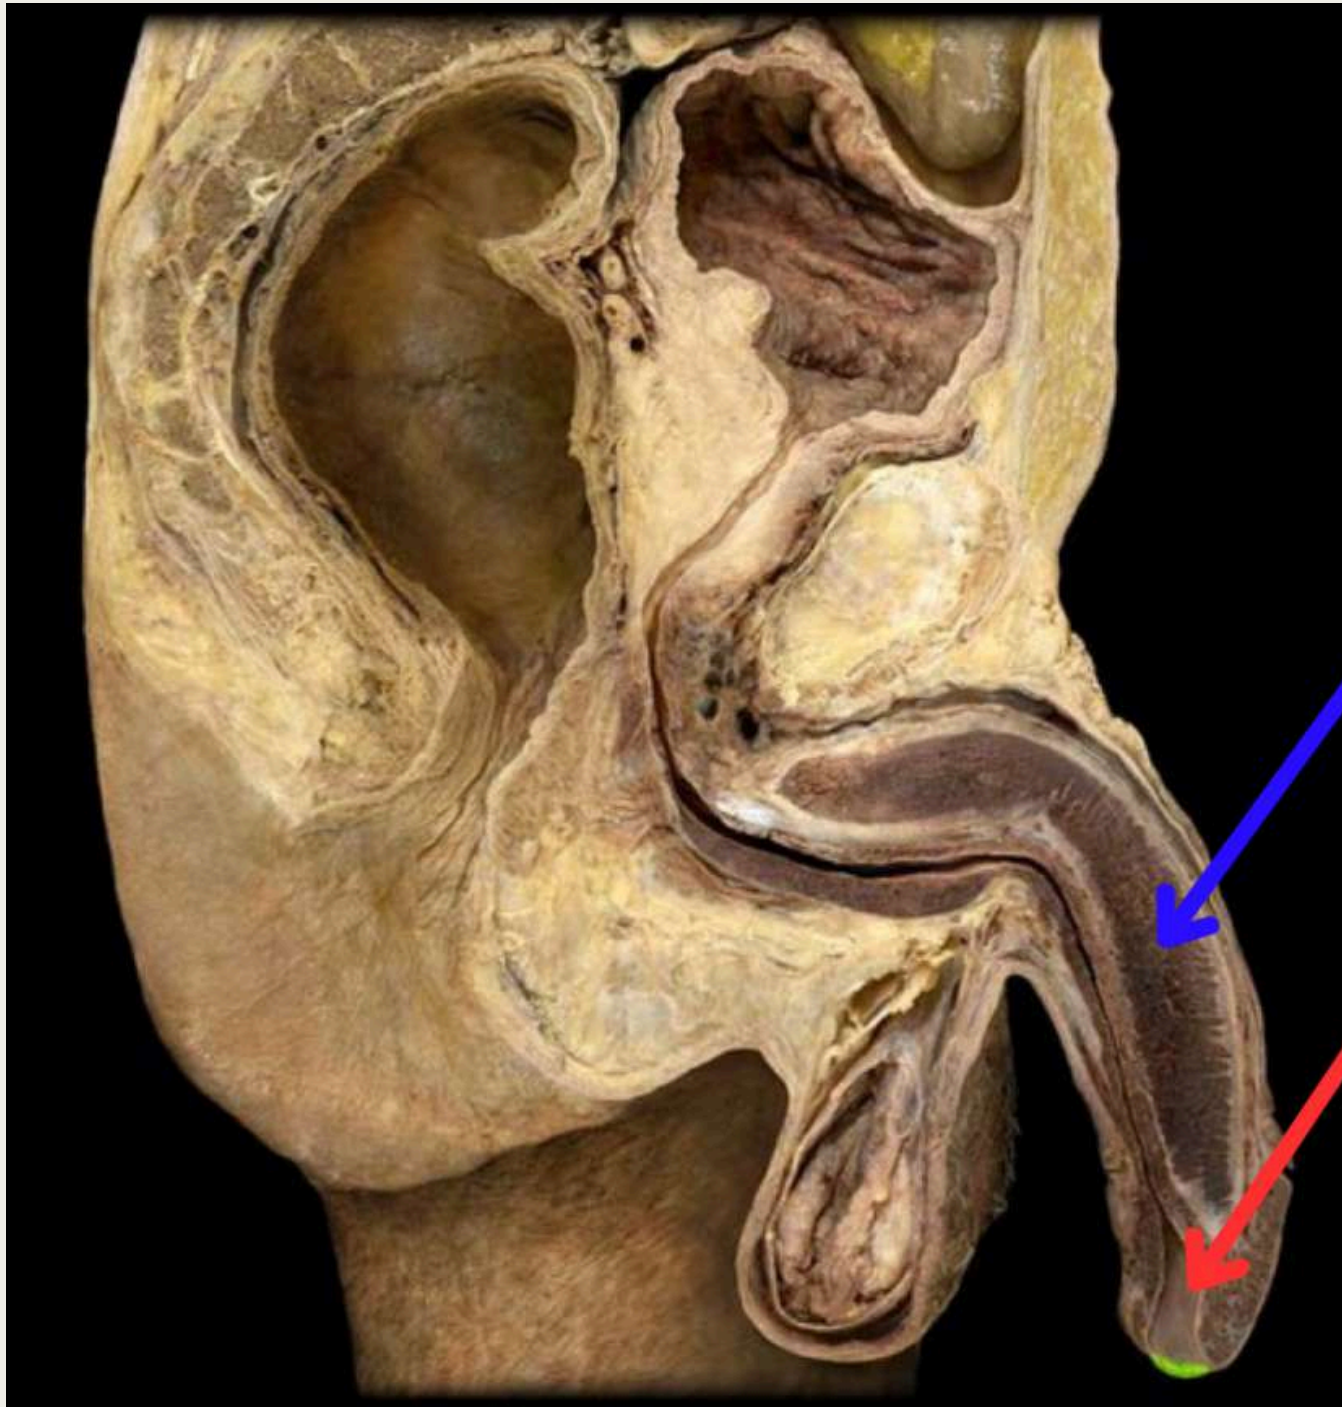

Q1 Identify structure A

1. Corpus cavernosum
2. Corpus spongiosum
3. Bulbospongiosus
4. Ischiocavernosus

Q2 What is its function?

1. Compresses the urethra during ejaculation
2. Assists in maintaining erection by pushing blood from the root.
3. Acts as a primary sphincter of anus
4. Supports perineal body

04

A

B

Q1 Identify structure A

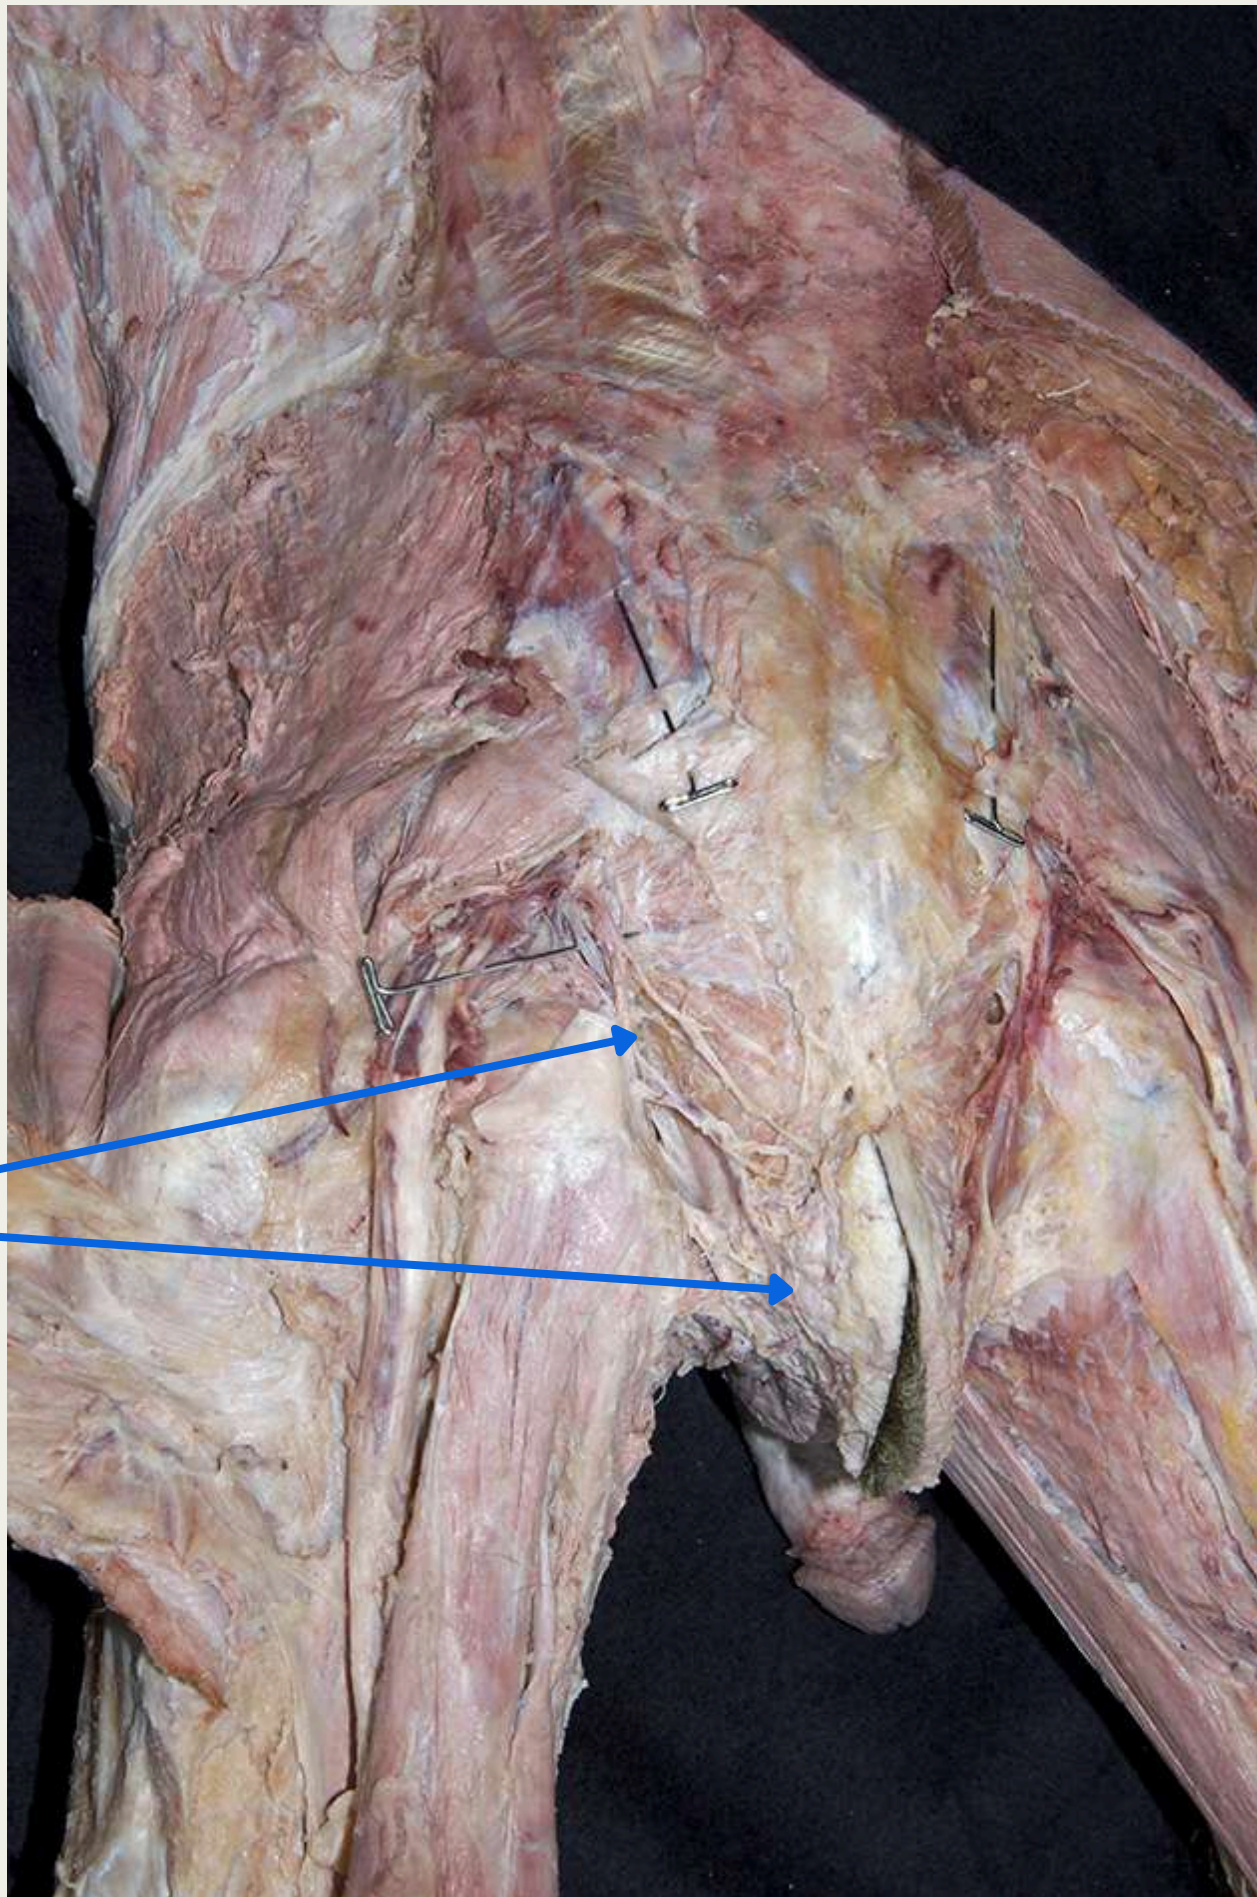

1. Corpus cavernosum
2. Corpus spongiosum
3. Bulbospongiosus
4. Ischiocavernosus

Q2 Identify structure B

1. Corpus cavernosum
2. Corpus spongiosum
3. Penile urethra
4. Fossa navicularis

05

A

Q1 Identify space A

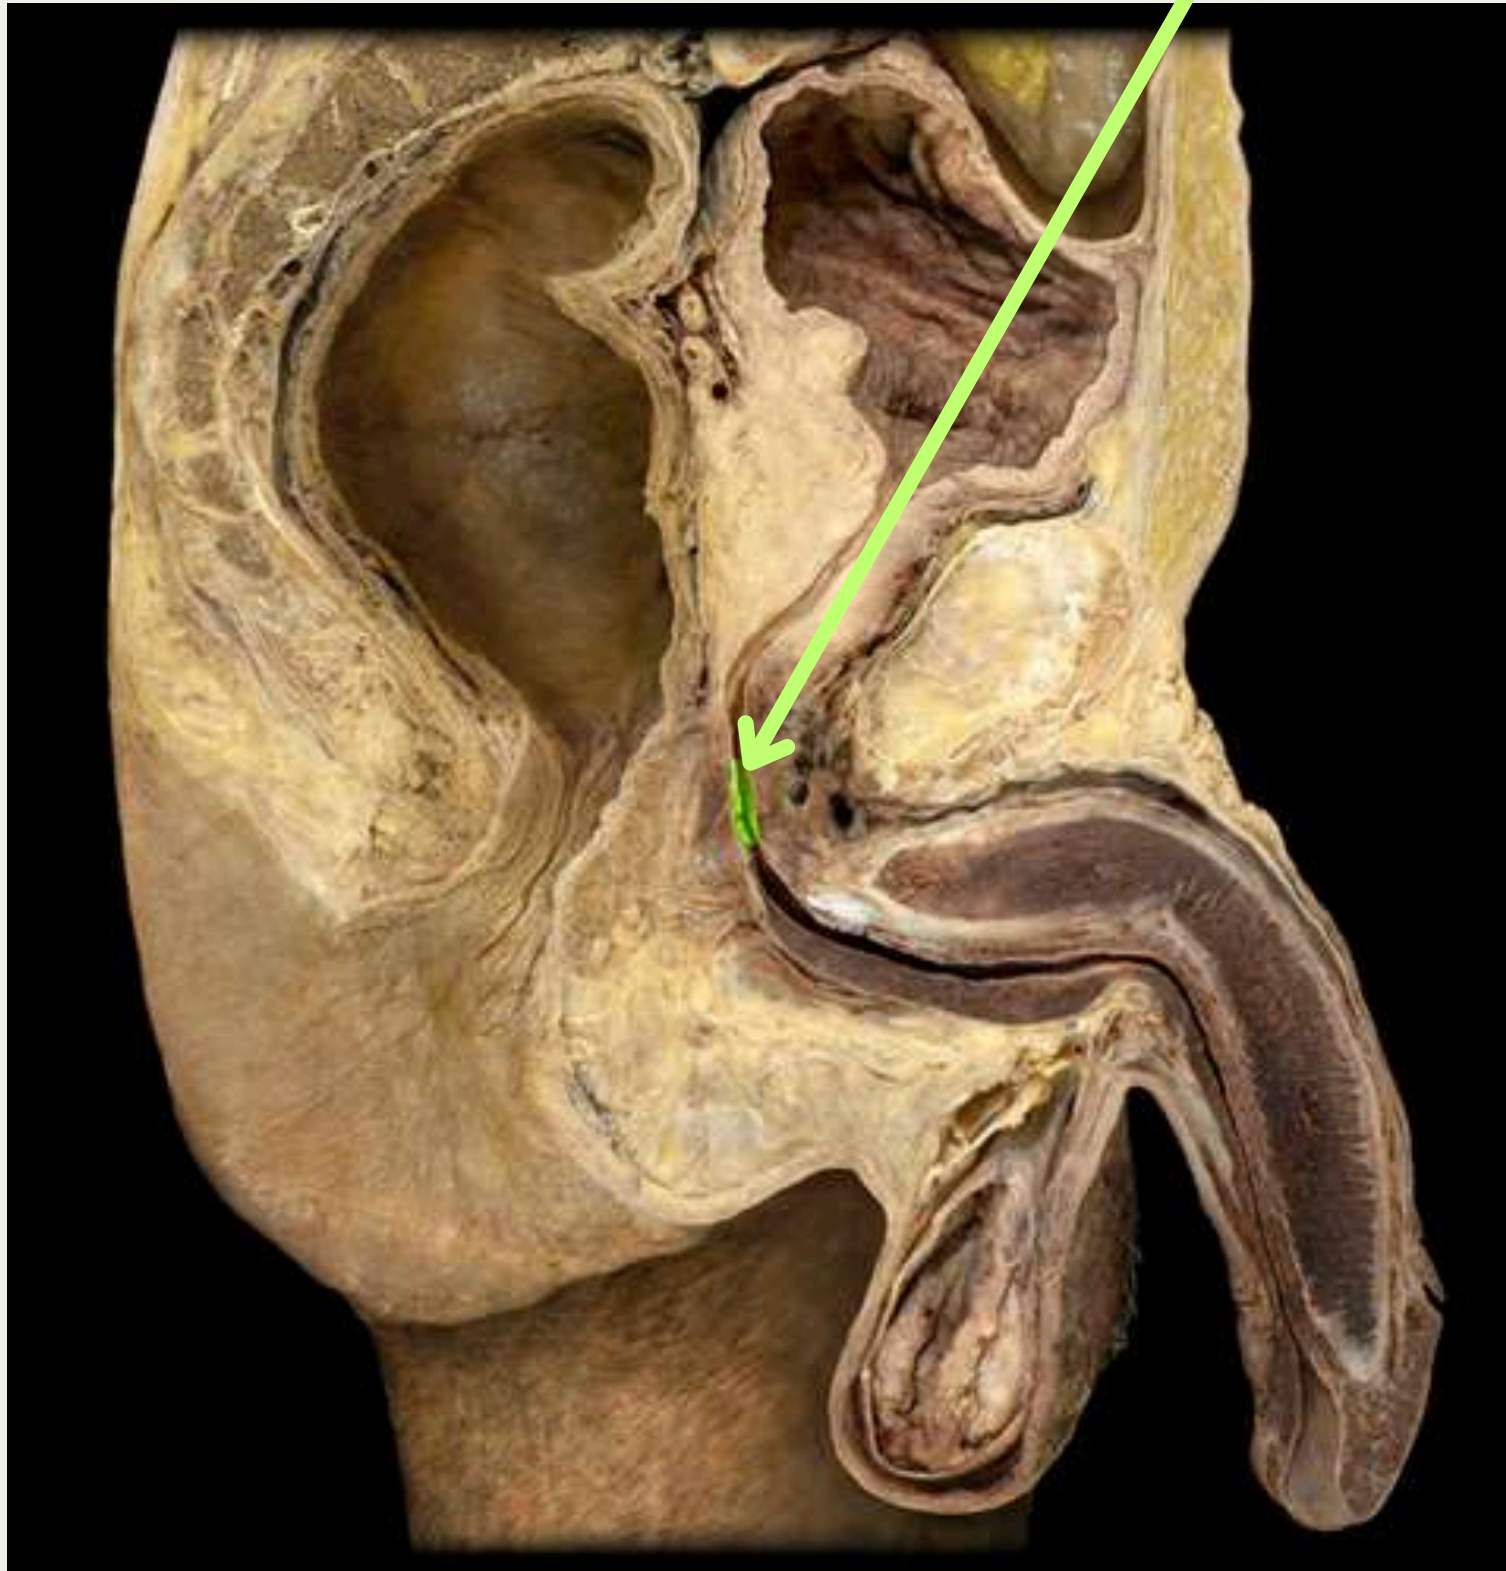

1. Superficial perineal pouch
2. Ischioanal fossa
3. Deep perineal pouch
4. Urogenital triangle

Q2 Identify roof of space A

1. Pelvic diaphragm
2. Perineal membrane
3. Urogenital diaphragm
4. Thoracic diaphragm

06

A

Q1 Identify structure A

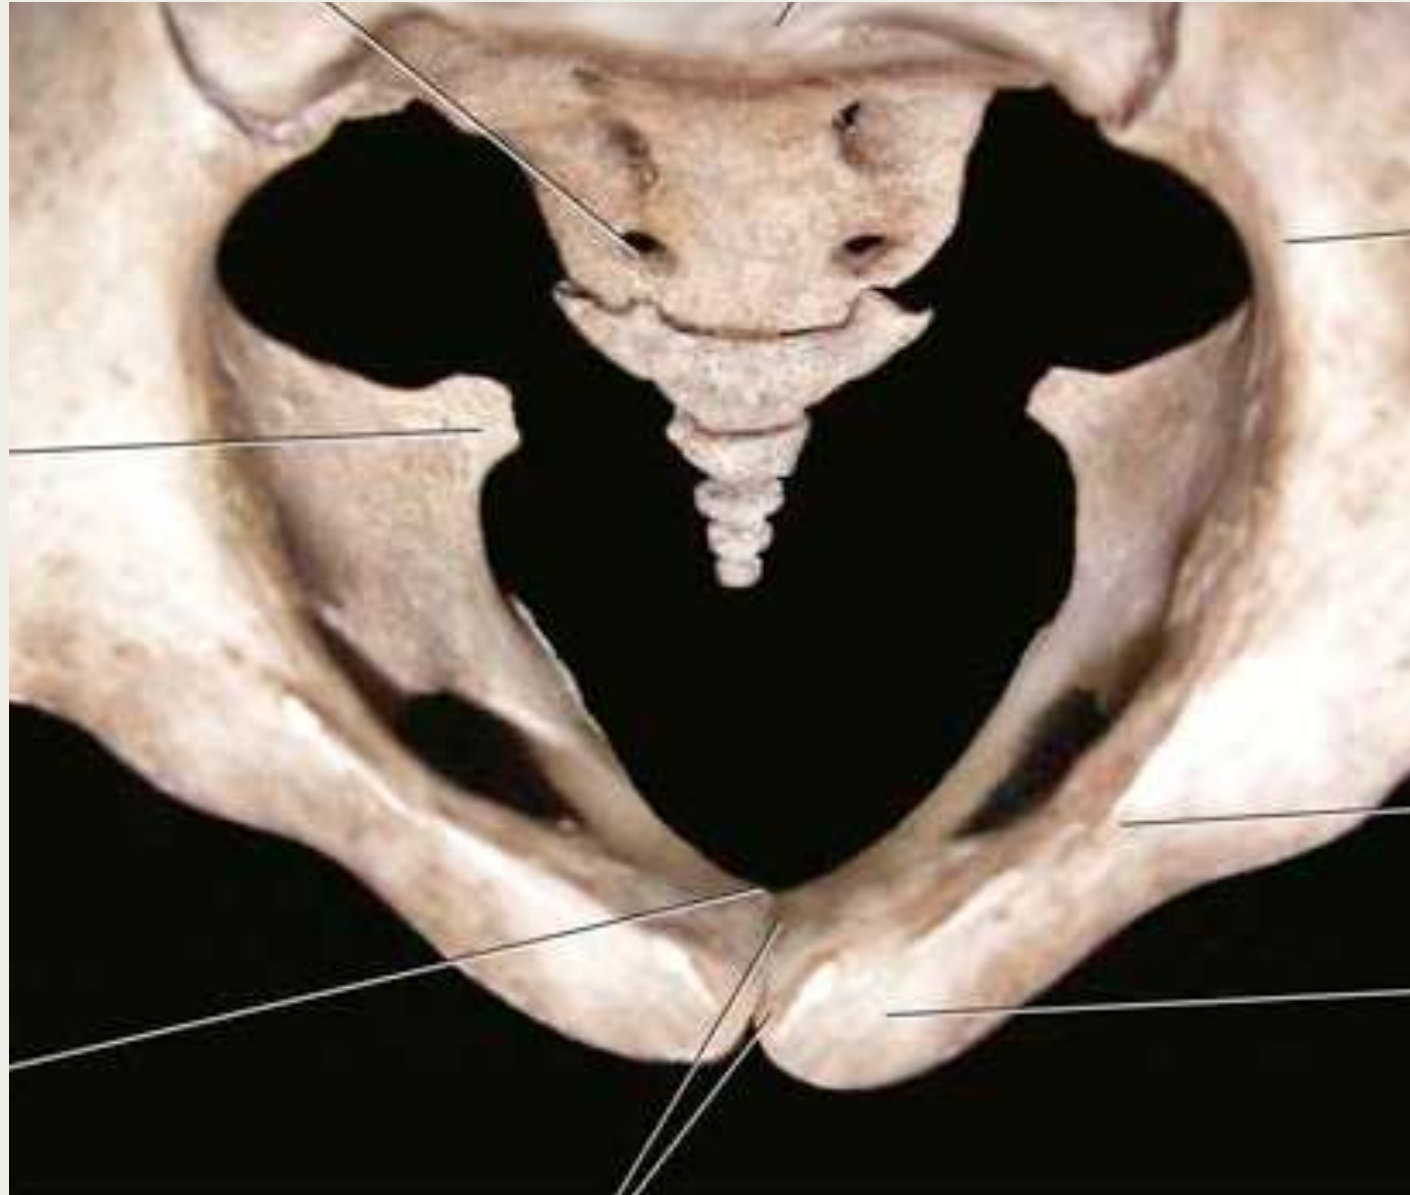

1. External urethral sphincter
2. Internal urethral sphincter
3. Deep transverse perineal muscle
4. Detrusor muscle

Q2 What is its innervation?

1. Pudendal nerve
2. Iliohypogastric nerve
3. Ilioinguinal nerve
4. Genitofemoral nerve

07

A

Q1 Identify structure A

1. Ischial tuberosity
2. Ischial spine
3. ASIS
4. AIIS

Q2 Is this structure used in the pudendal nerve block?

1. Yes
2. No

08

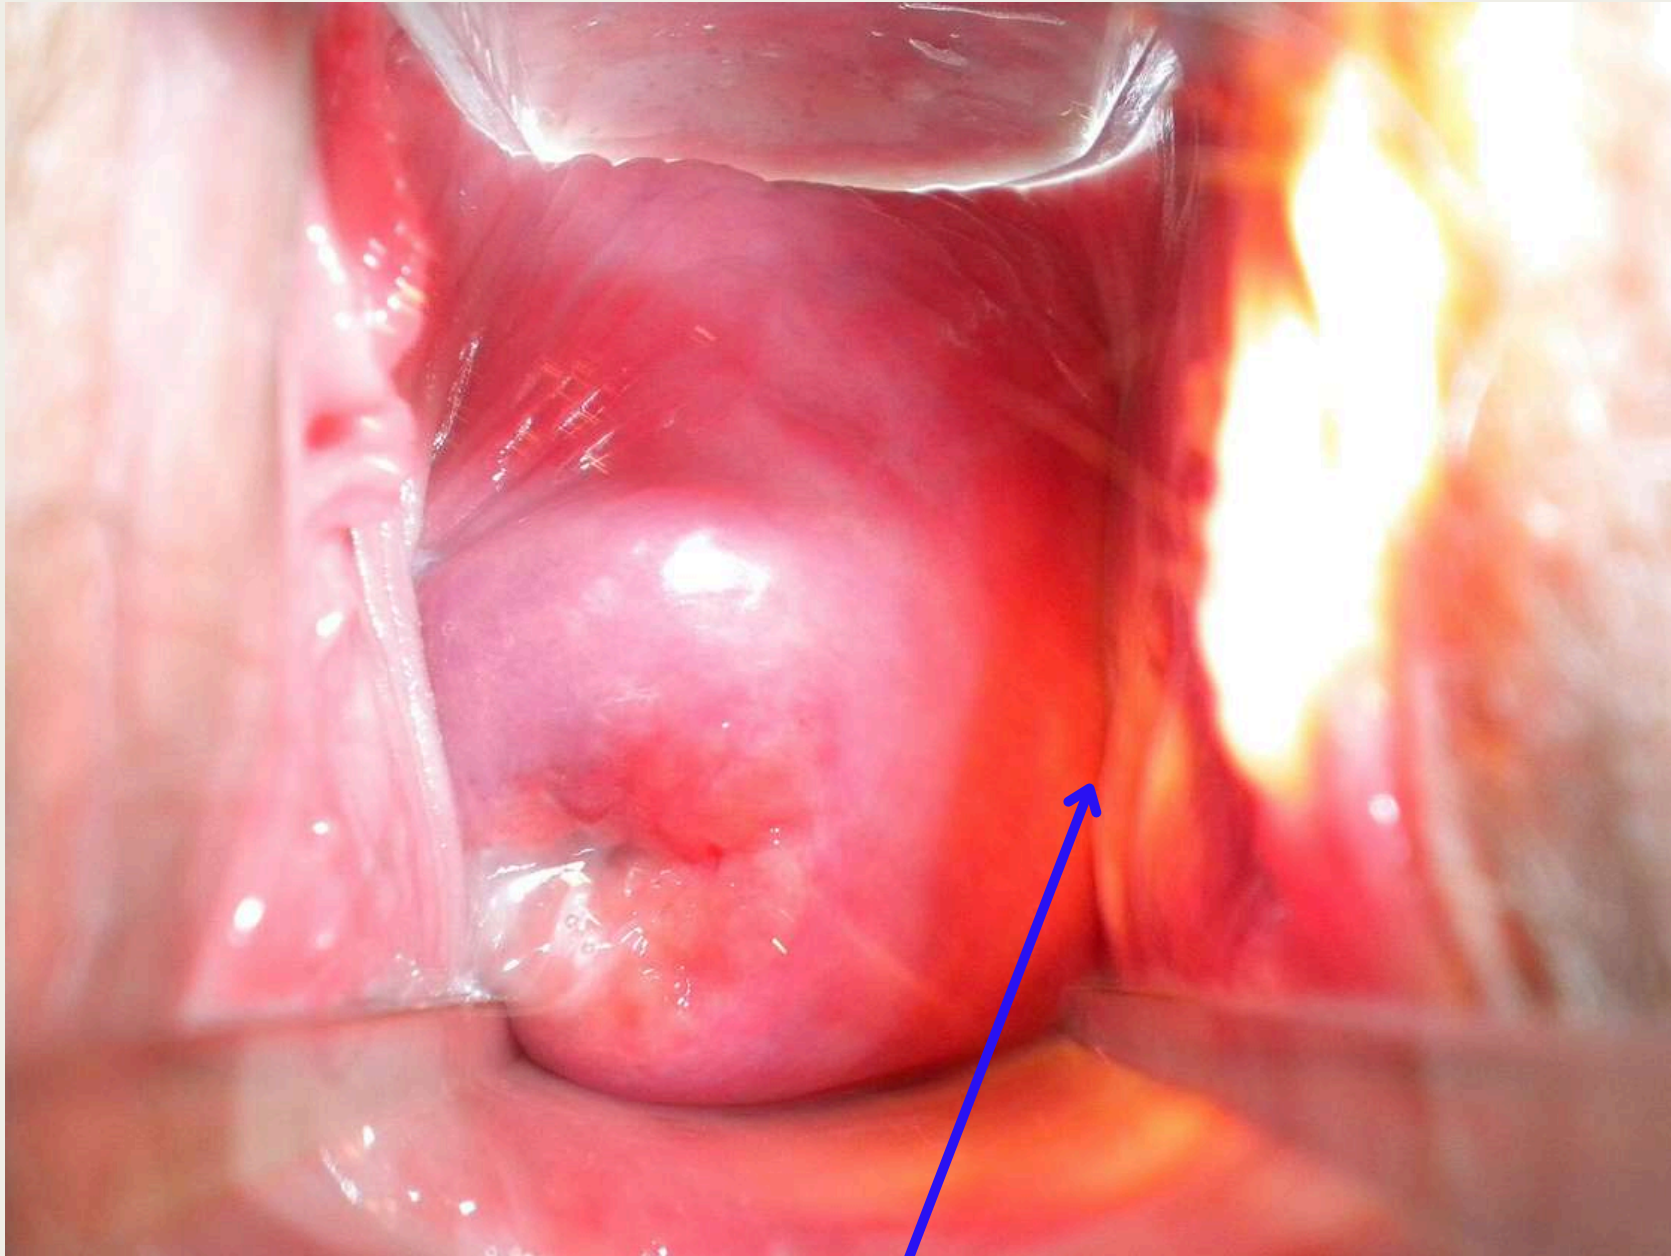

Q1 Identify structure A

1. Ischial tuberosity
2. Ischial spine
3. ASIS
4. AIIS

Q2 Is this structure used for pelvimetry?

1. Yes
2. No

09

A

Q1 Identify area A

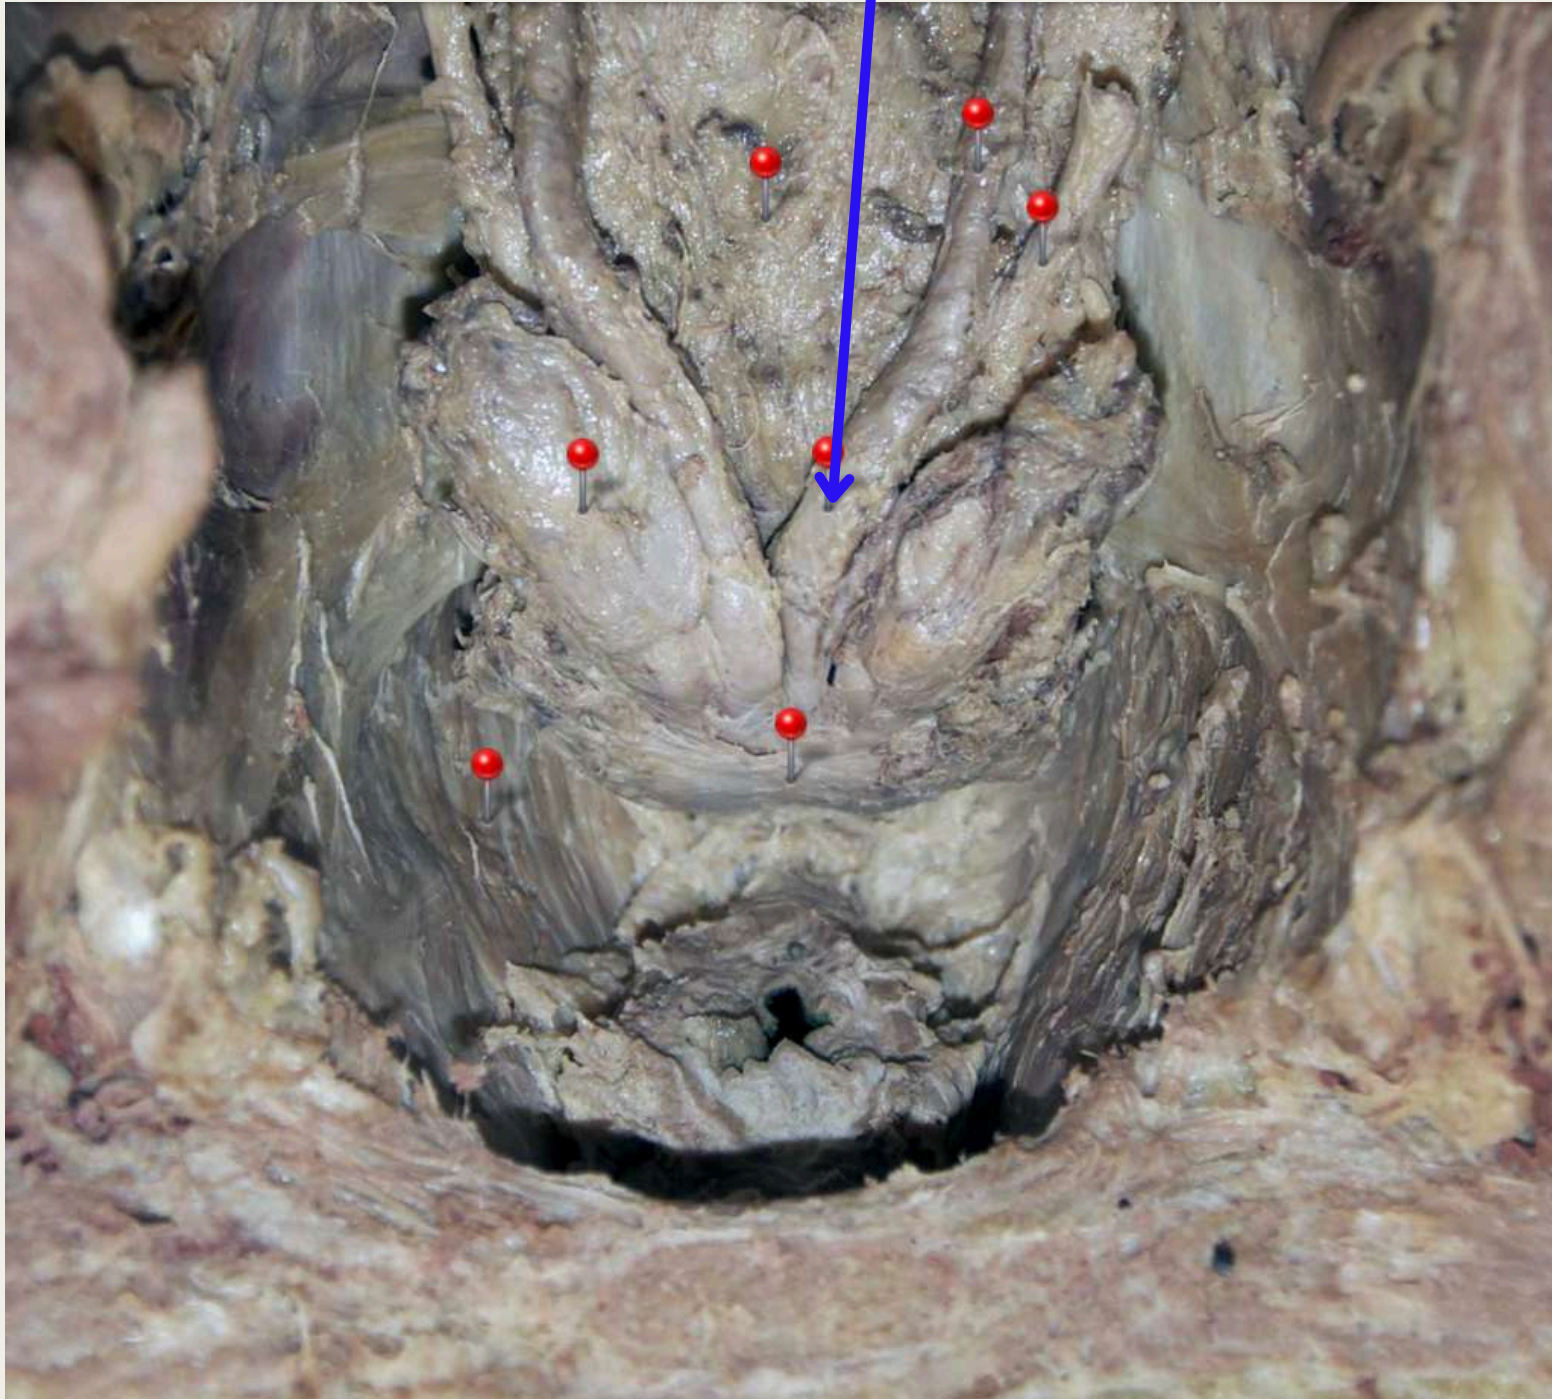

1. Anterior fornix
2. Posterior fornix
3. Lateral fornix
4. ไม่รู้อับ ม่ายไหวล้า

Q2 Identify the deepest area

1. Anterior fornix
2. Posterior fornix
3. Lateral fornix
4. ไม่รู้เหมือนกันอับ ช่วยด้วยยย อี้อ ๓

10

A

Q1 Identify structure A

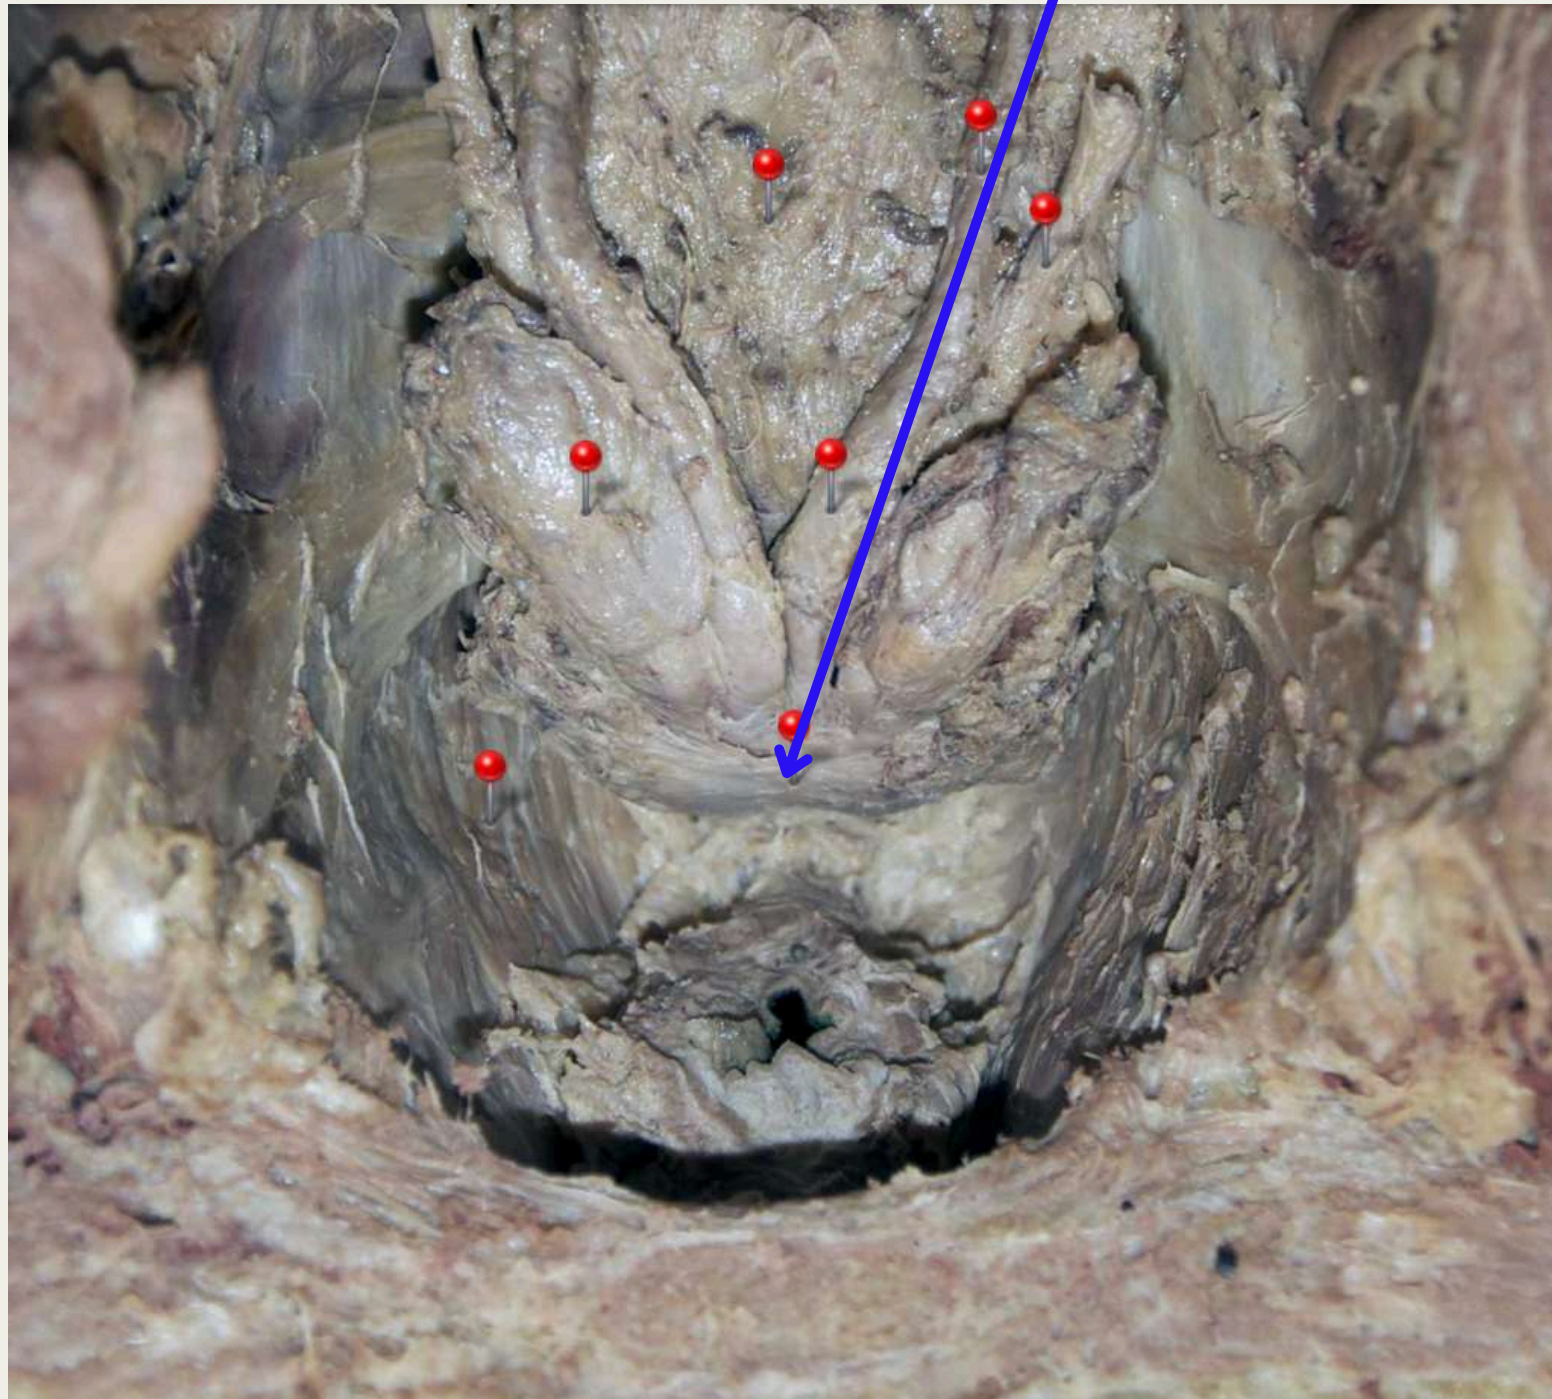

1. Ureter
2. Seminal vesicle
3. Ampulla of Vas deferens
4. Vas efferens

Q2 Is this structure involved with vasectomy?

1. Yes
2. No

11

A

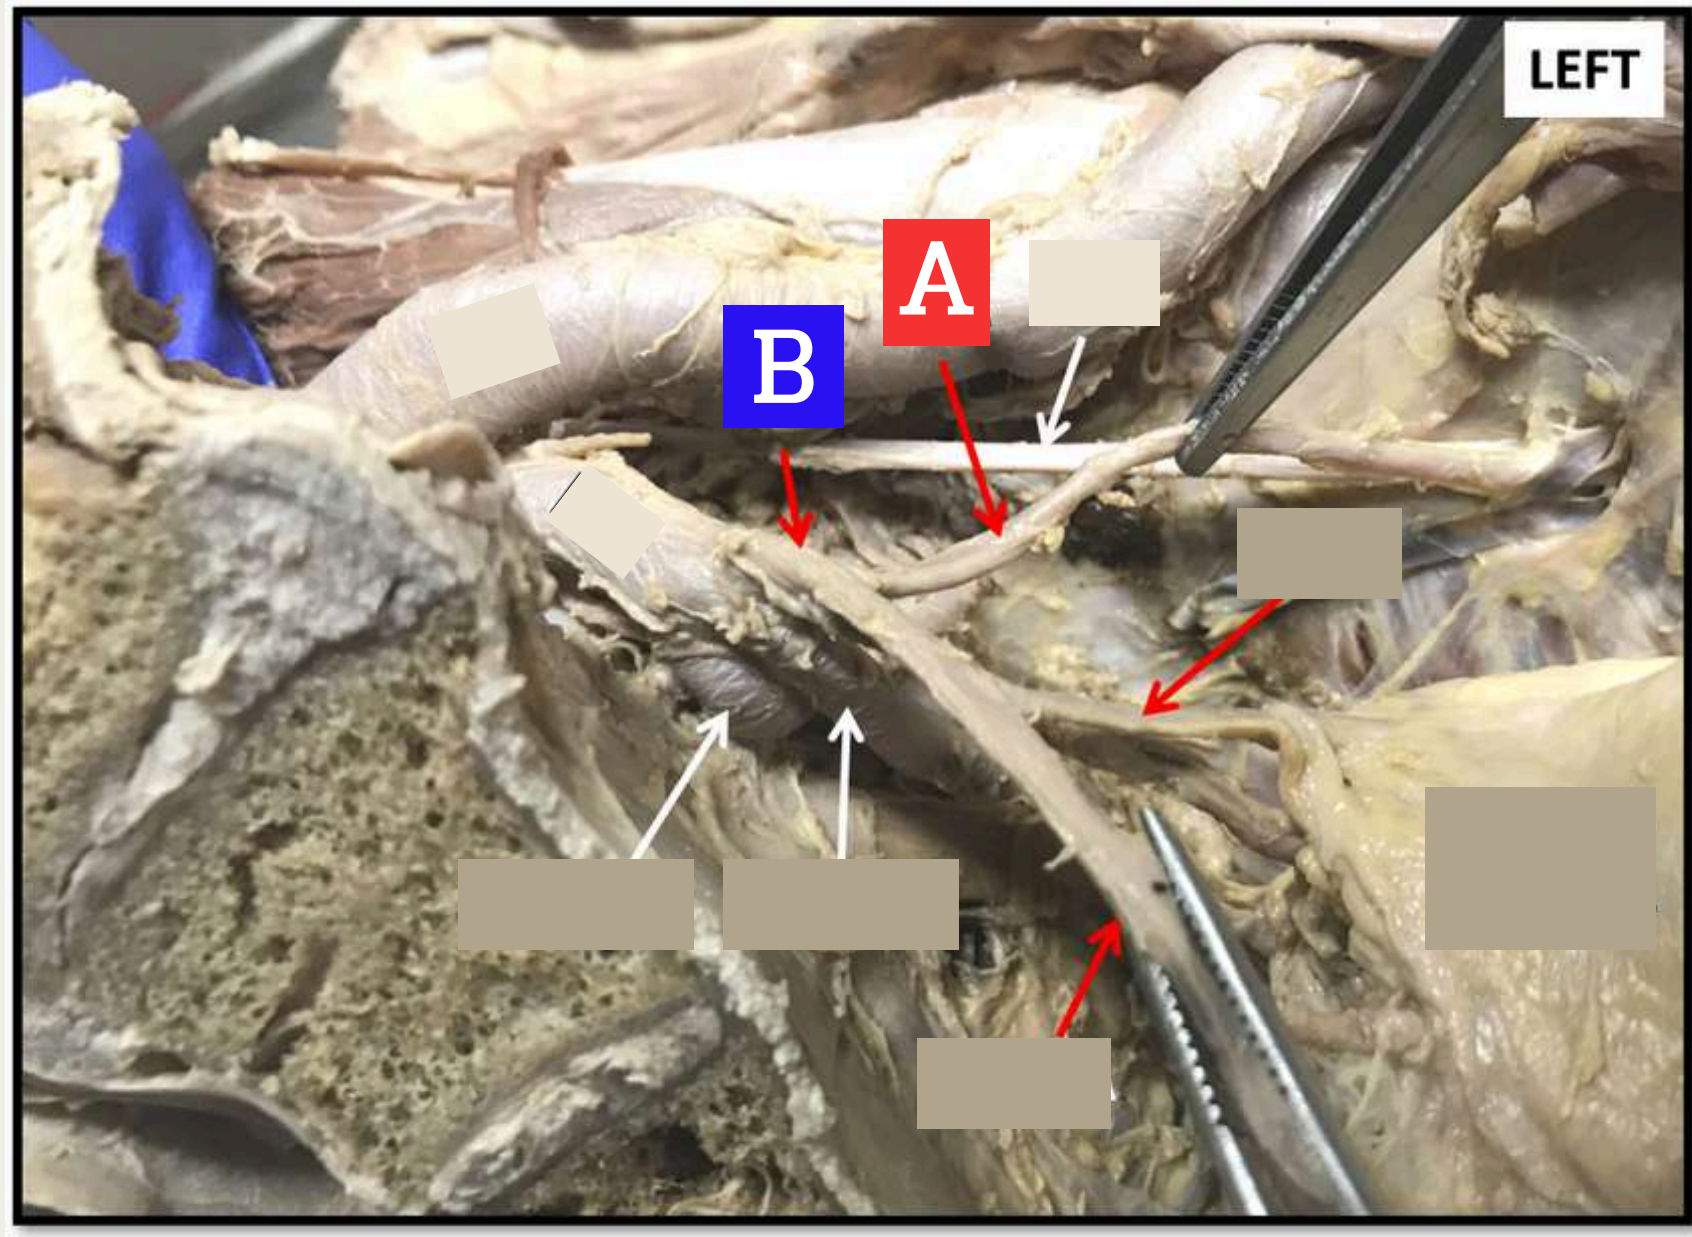

Q1 Identify structure A

1. Ureter
2. Seminal vesicle
3. Bulbourethral glands
4. Prostate gland

Q2 Is this structure homologous with Bartholin's gland?

1. Yes
2. No

12

Q1 Identify structure A

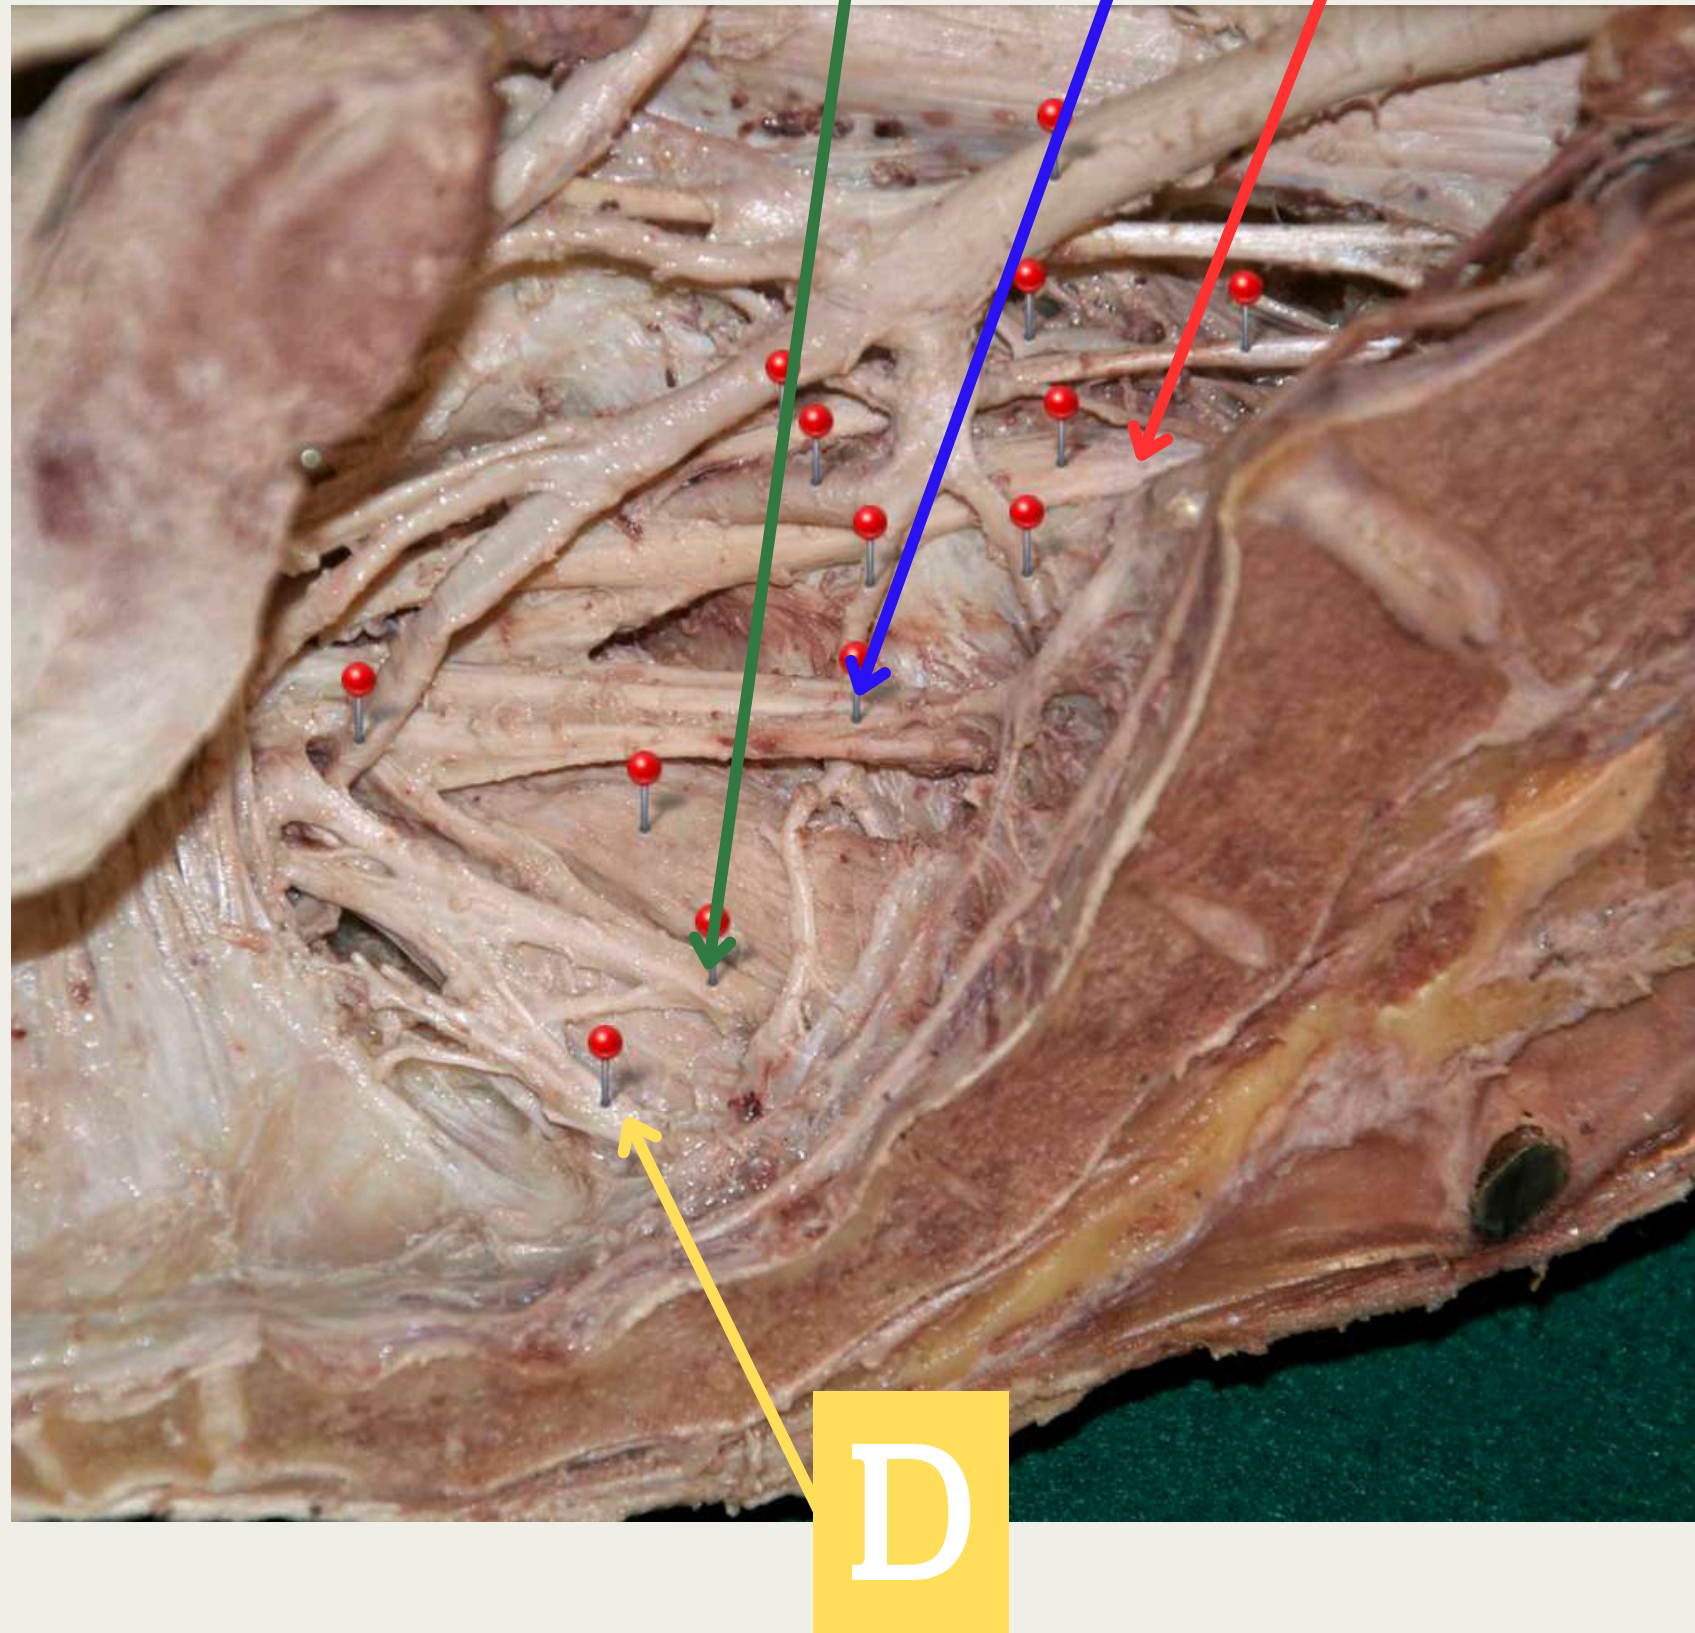

1. Superior vesicle artery
2. Uterine artery
3. Obturator artery
4. Umbilical artery

Q2 Identify structure B

1. Superior vesicle artery
2. Uterine artery
3. Obturator artery
4. Umbilical artery

13

C B A

Q1 Identify L4-L5

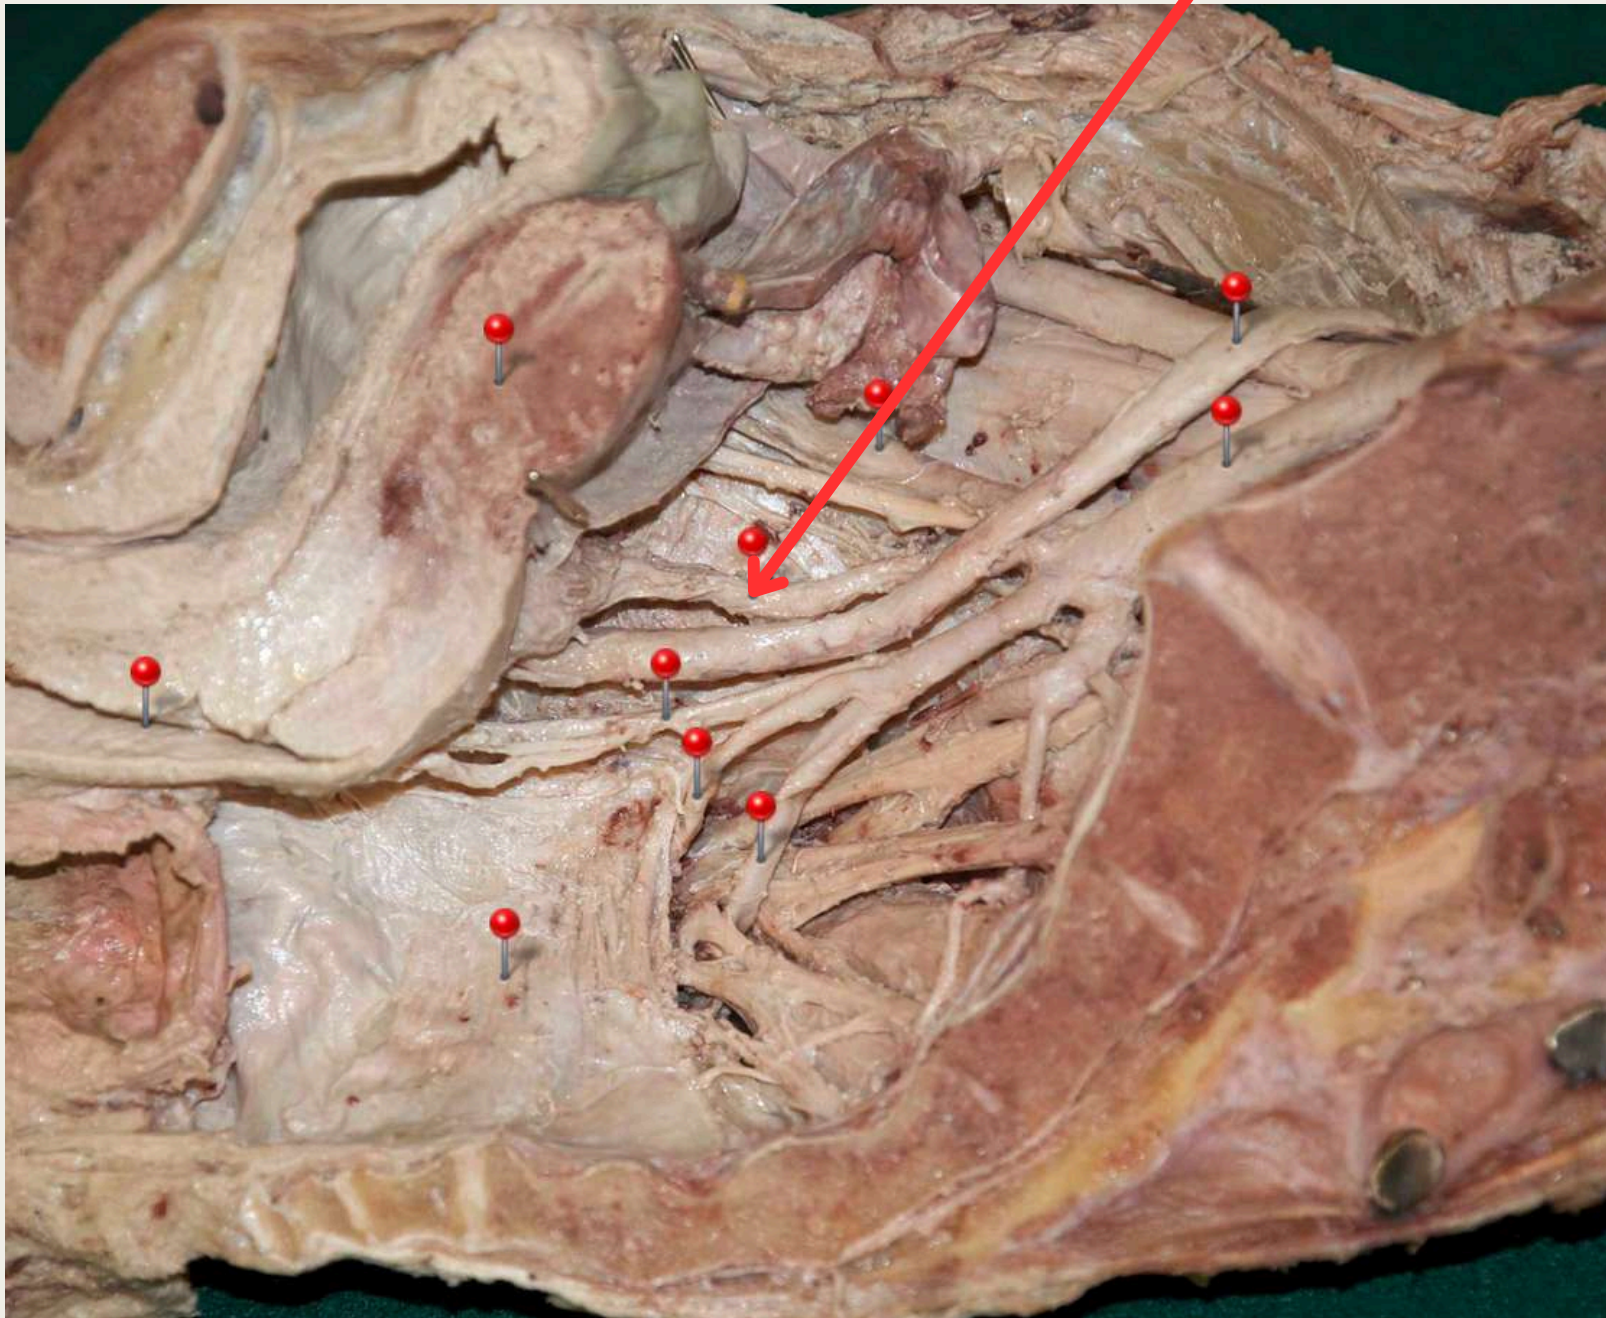

1. A
2. B
3. C
4. D

Q2 Identify S2

1. A
2. B
3. C
4. D

14

A

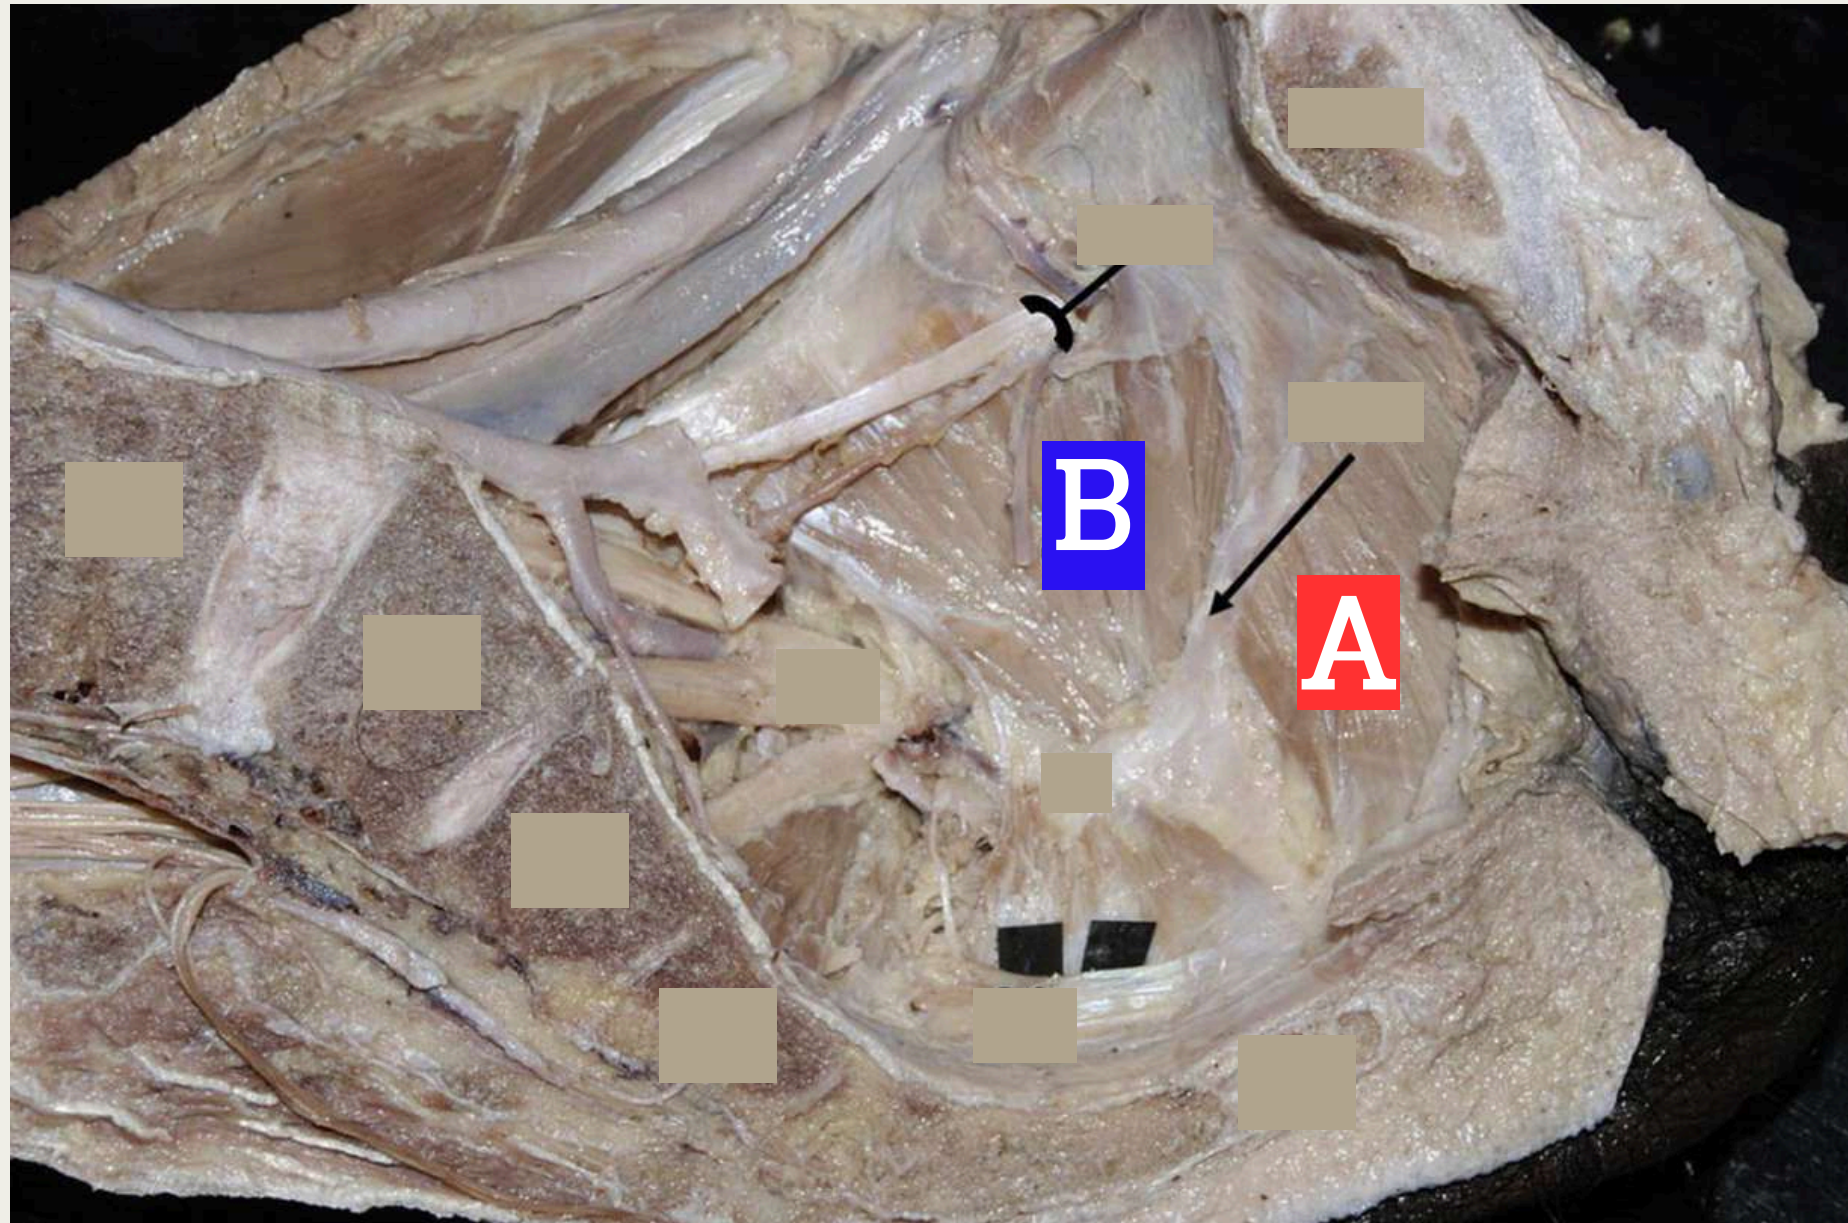

Q1 Identify structure A

1. Umbilical artery
2. Uterine artery
3. Cardinal ligament
4. Utero-sacral ligament
5. Median umbilical fold

Q2 Structure A is embedded in which structure?

1. Umbilical artery
2. Uterine artery
3. Cardinal ligament
4. Utero-sacral ligament
5. Median umbilical fold

15

Q1 Identify structure A

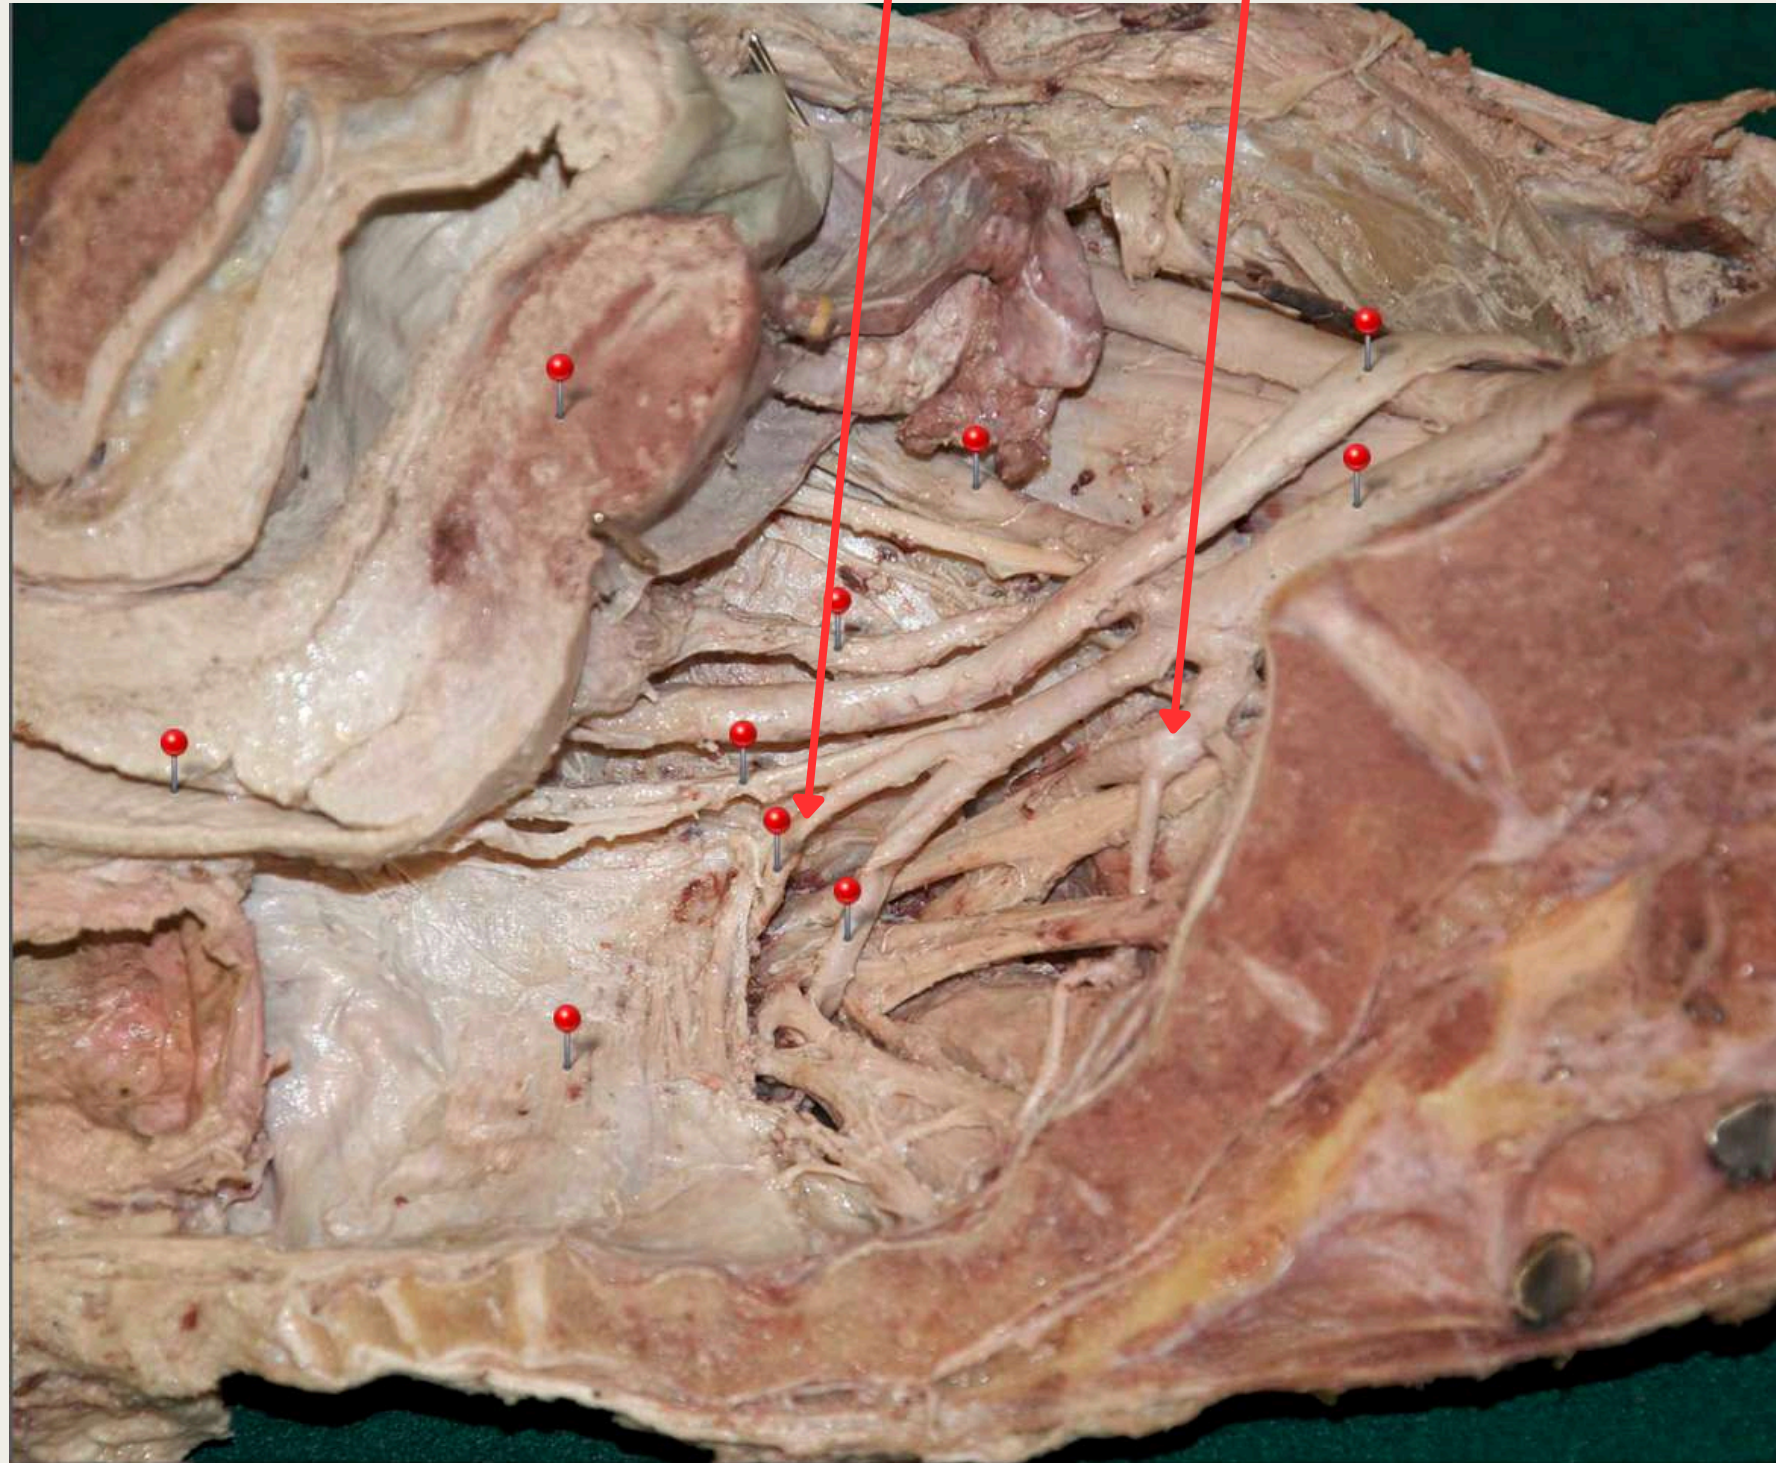

1. Levator ani
2. Obturator internus
3. Piriformis
4. Coccygeus

Q2 Identify structure B

1. Levator ani
2. Obturator internus
3. Piriformis
4. Coccygeus

16

A B

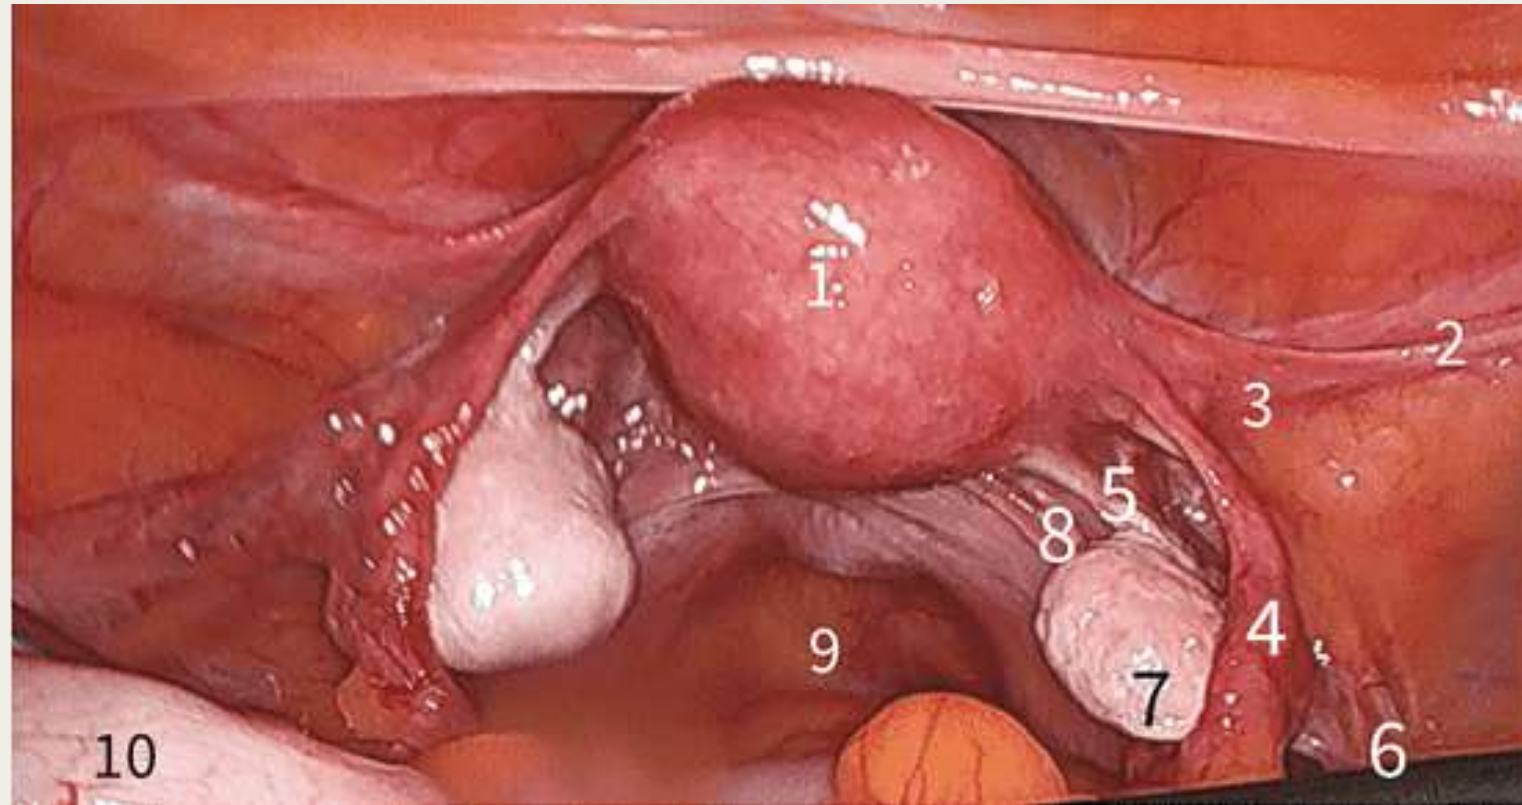

Q1 Identify area A

1. Internal pudendal artery
2. Pudendal nerve
3. Inferior epigastric artery
4. Superior Gluteal artery

Q2 Identify area B

1. Inferior Gluteal artery
2. Superior Gluteal artery
3. Vaginal artery
4. Middle rectal artery

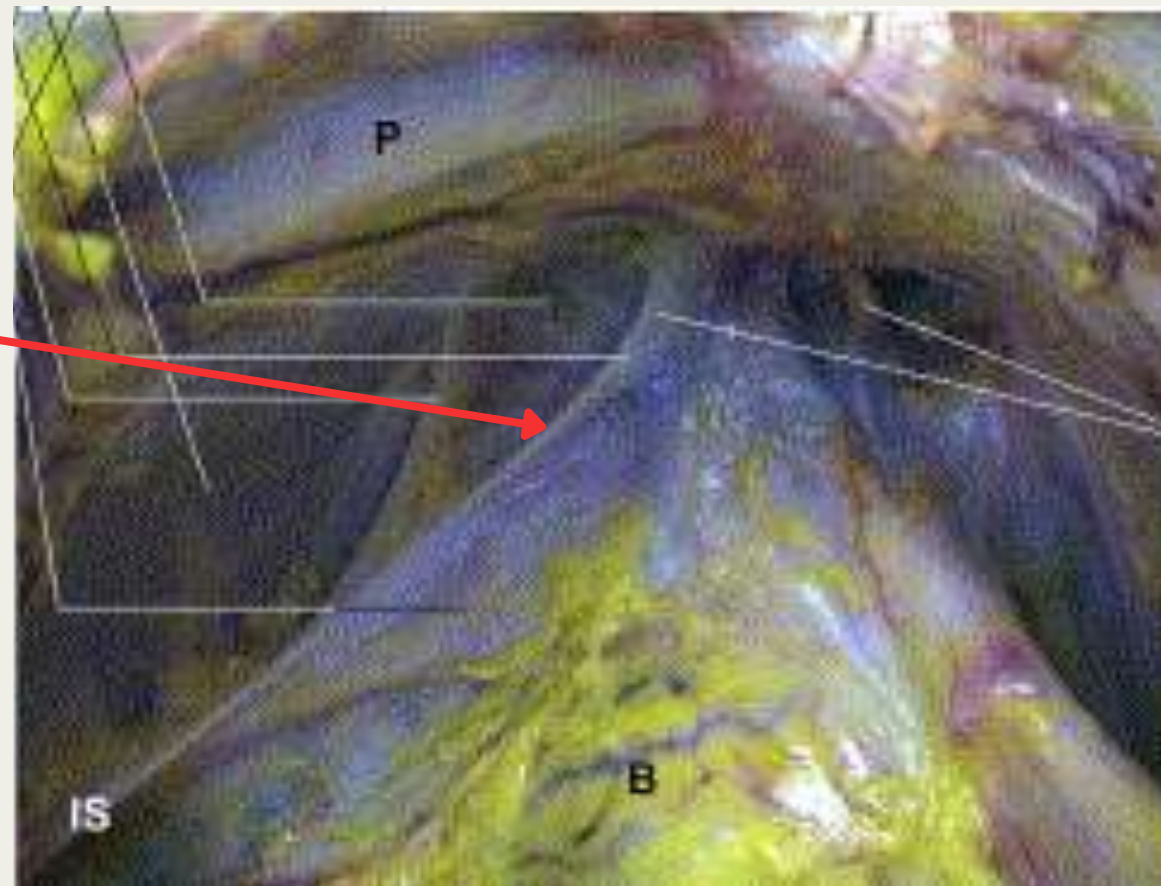

17

A

Q1 Identify number 8

1. Uterosacral ligament
2. Cardinal ligament
3. Round ligament
4. Ovary ligament

B

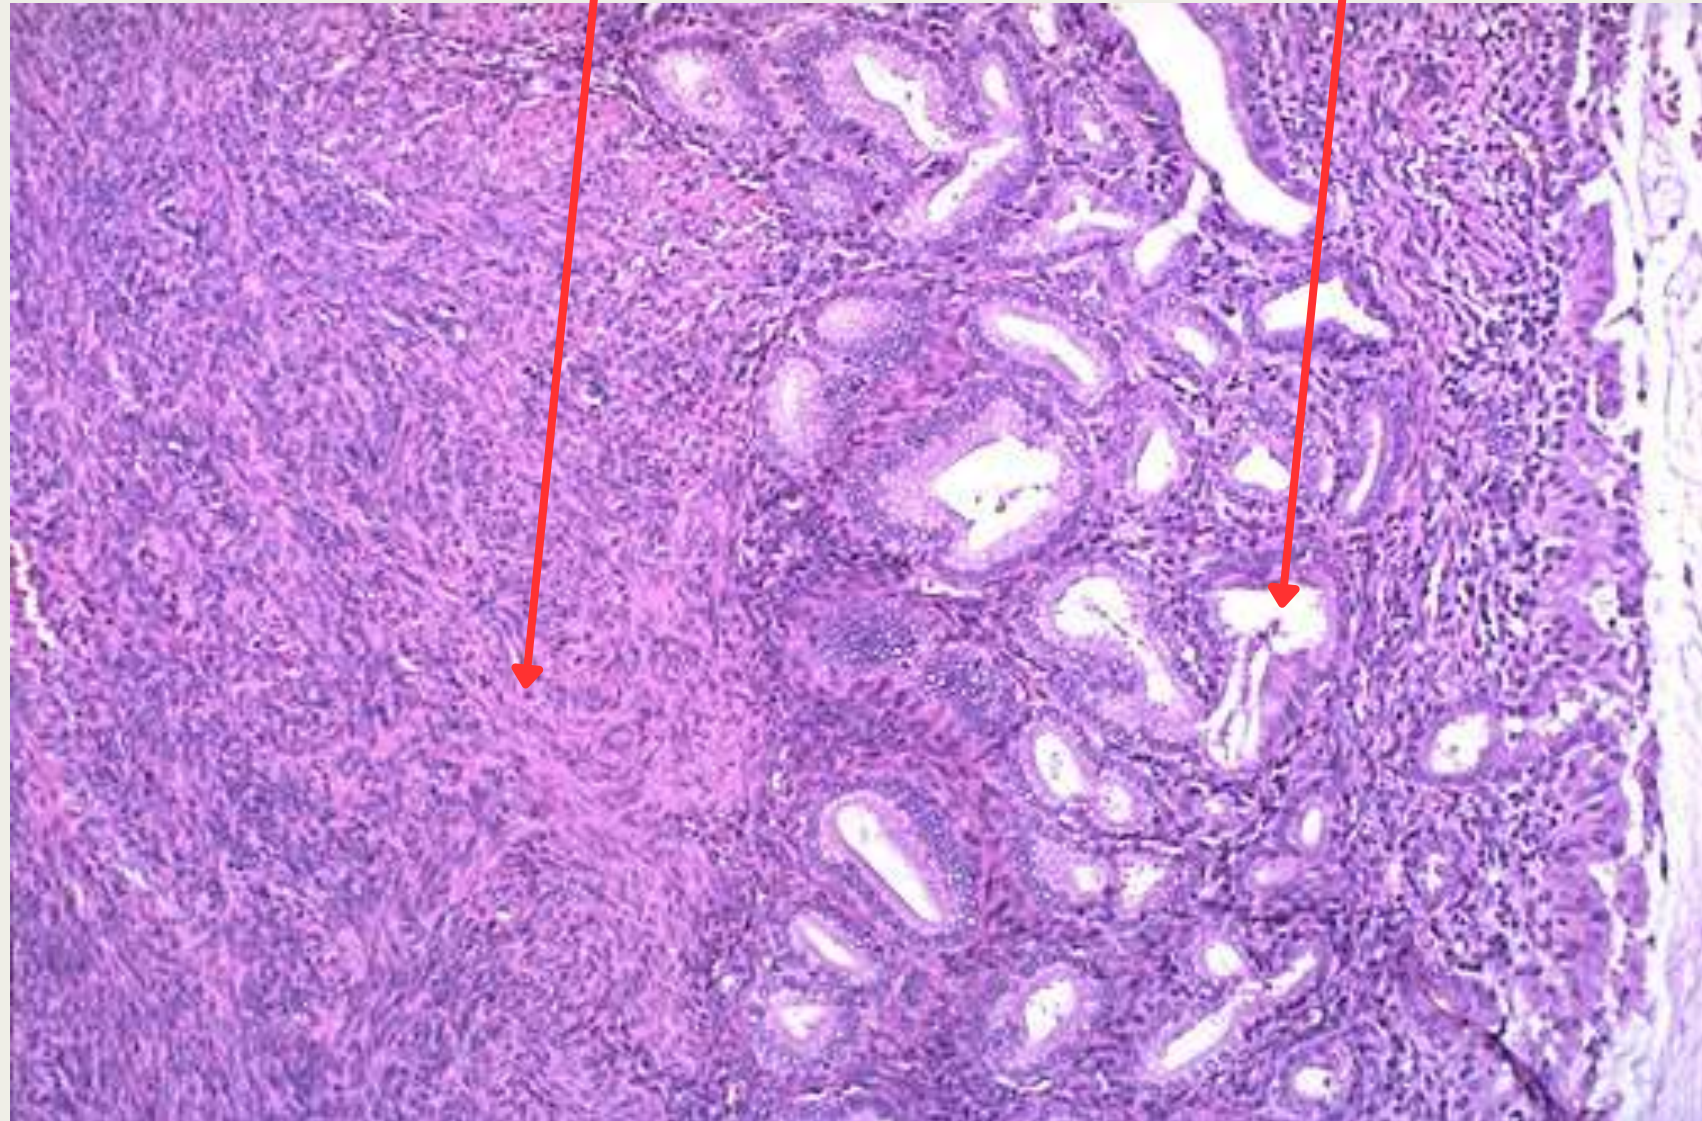

Q2 Identify red arrow

1. Lateral rectal fascia
2. Lateral ligament
3. Tendinous arch of levator ani
4. Tendinous arch of pelvic fascia

18

B

A

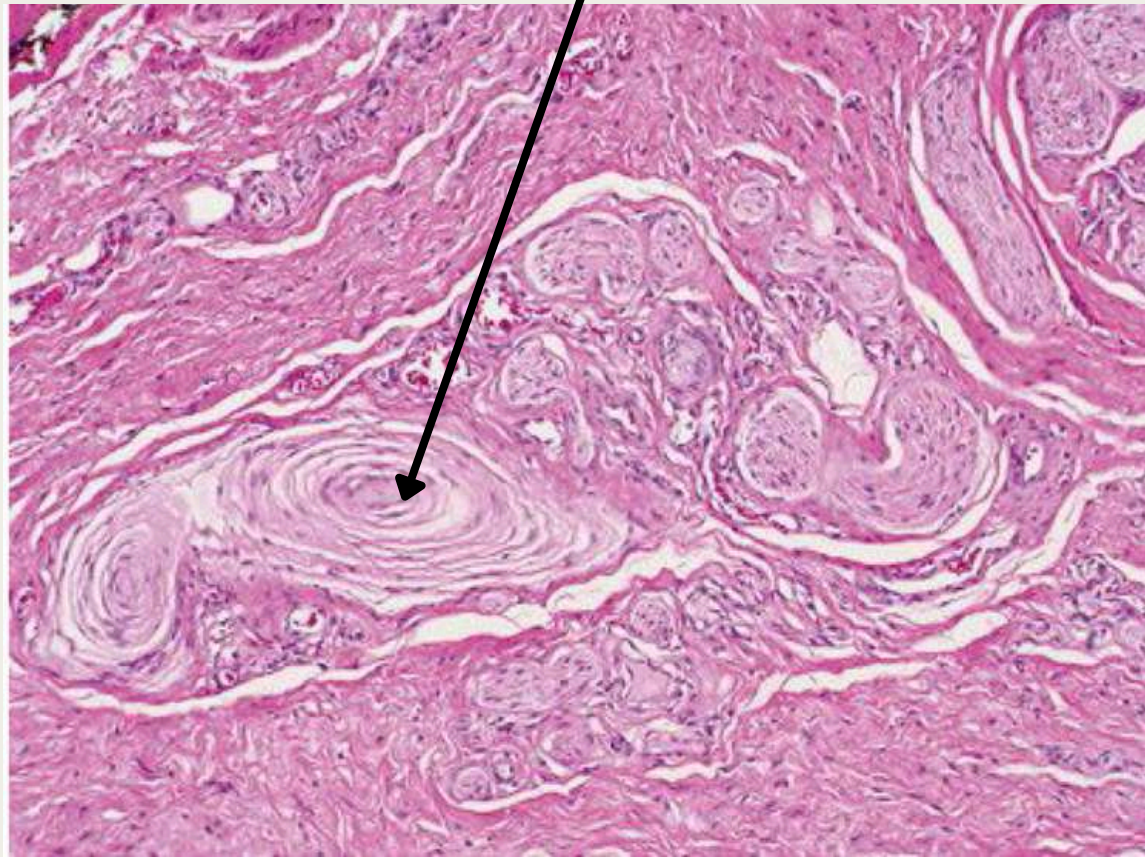

Q1 Identify area A

1. Menstrual
2. Mid Secretory phase
3. Late Secretory phase
4. Early Secretory phase

Q2 Identify area B

1. Perimetrium
2. Myometrium
3. Endometrium (non-lactating)
4. Endometrium (Lactating)

19

I

II

III

IV

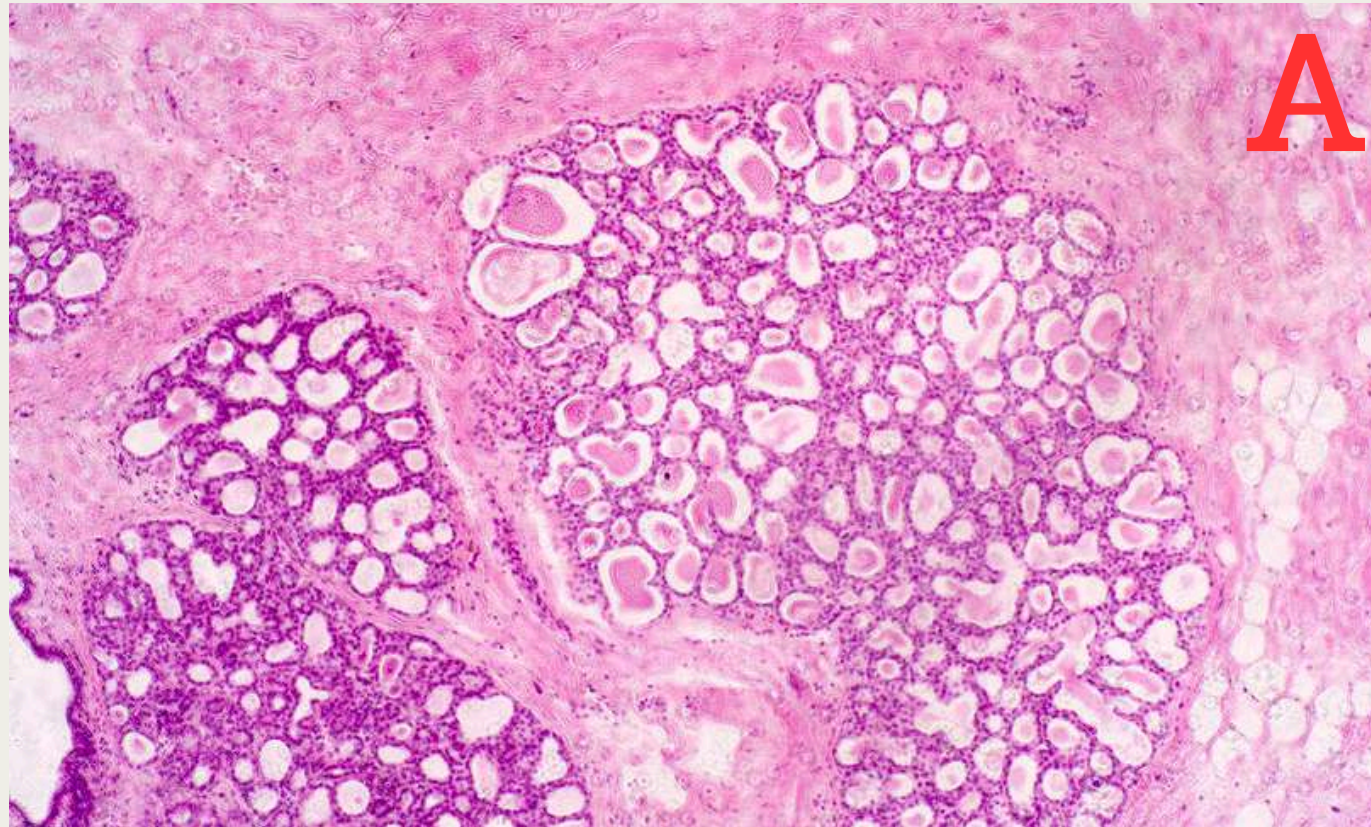

Q1 what is its function?

1. Proprioception
2. Hot sensing
3. Deep pressure and Vibration sensing
4. Cold sensing

Q2 Identify Basal layer

1. I
2. II
3. III
4. IV

20

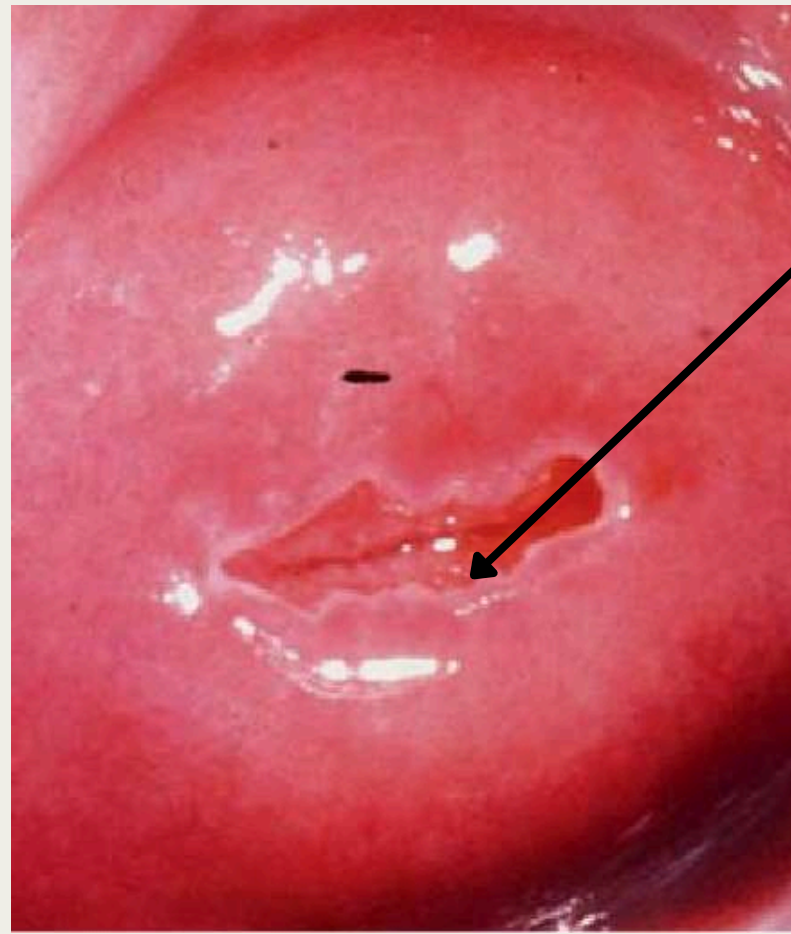

Q1 Identify area A

1. Inactive phase
2. Active, non-lactating
3. Active, lactating
4. All of above is wrong

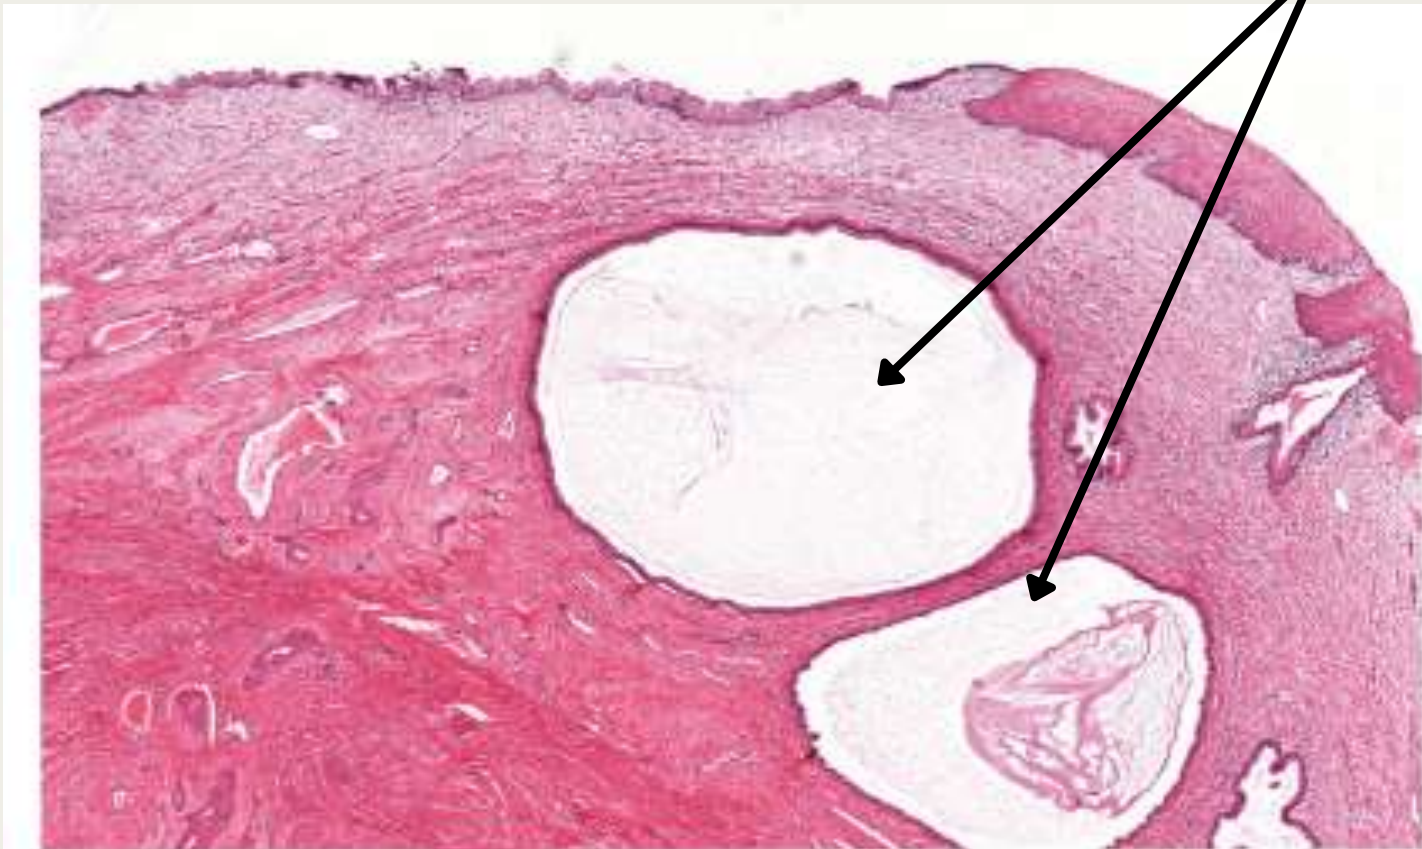

Q2 Identify area B

1. Inactive phase
2. Active, non-lactating
3. Active, lactating
4. All of above is wrong

21

A

B

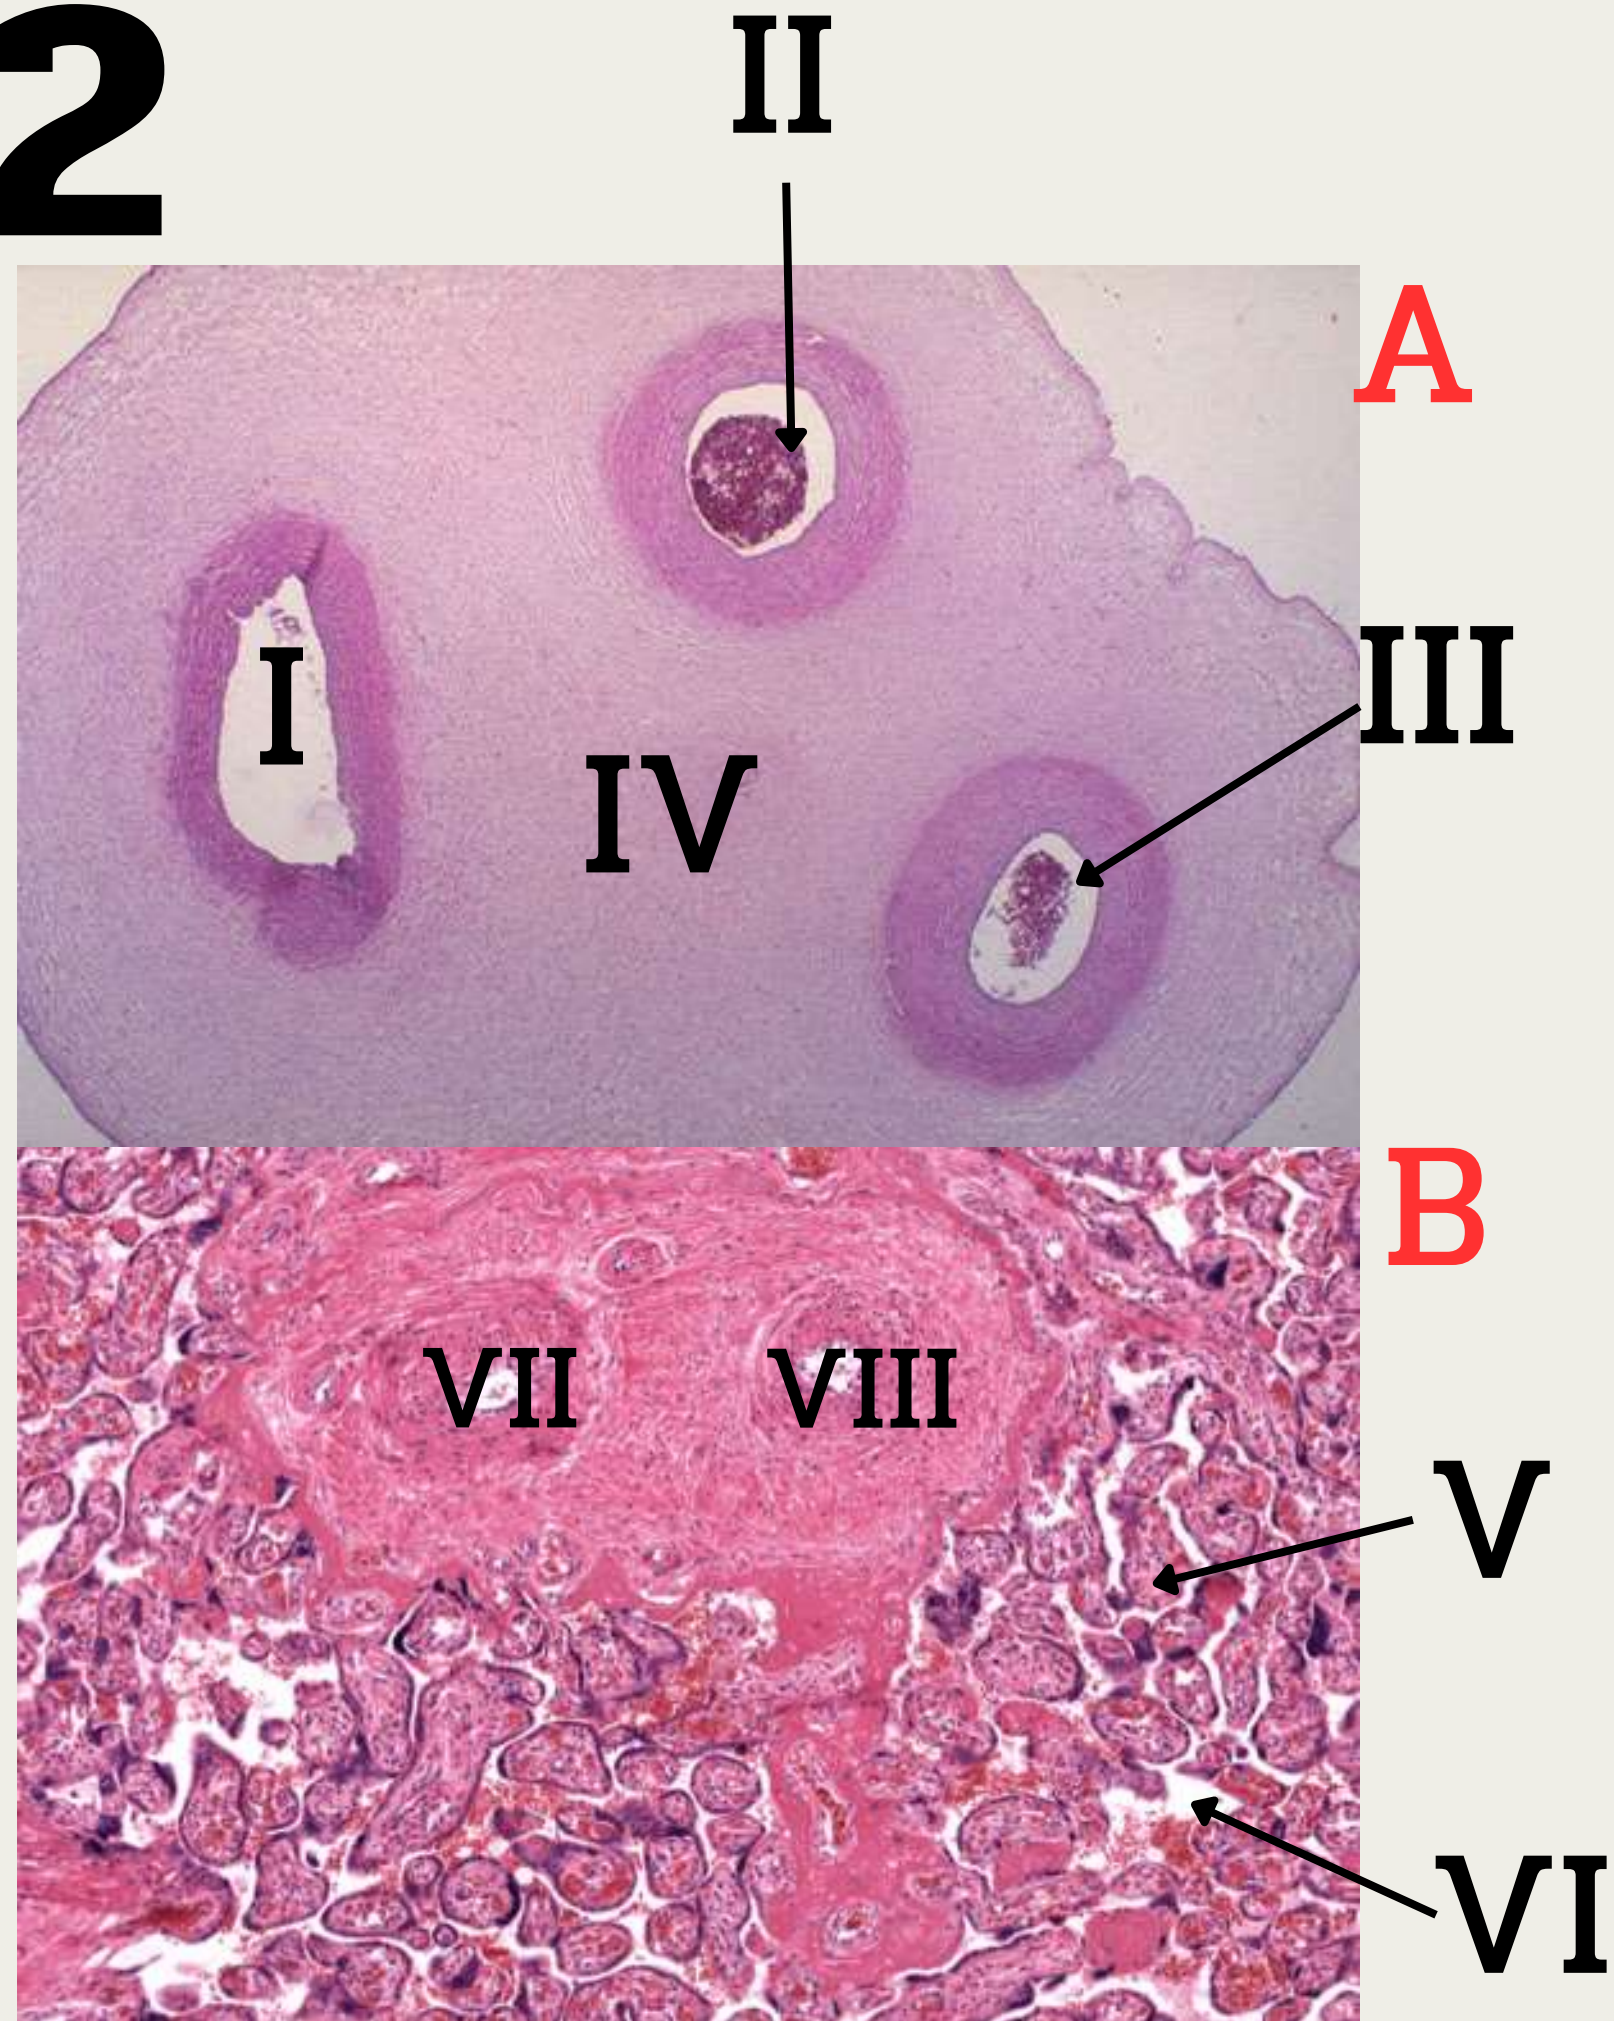

Q1 Identify area A

1. Transition zone of cervix
2. Transformation zone of cervix
3. Transduction zone of cervix
4. Transportation zone of cervix

Q2 Identify structure B

1. External os
2. Follicle atresia
3. Nabothian cyst
4. Vaginal fornix

22

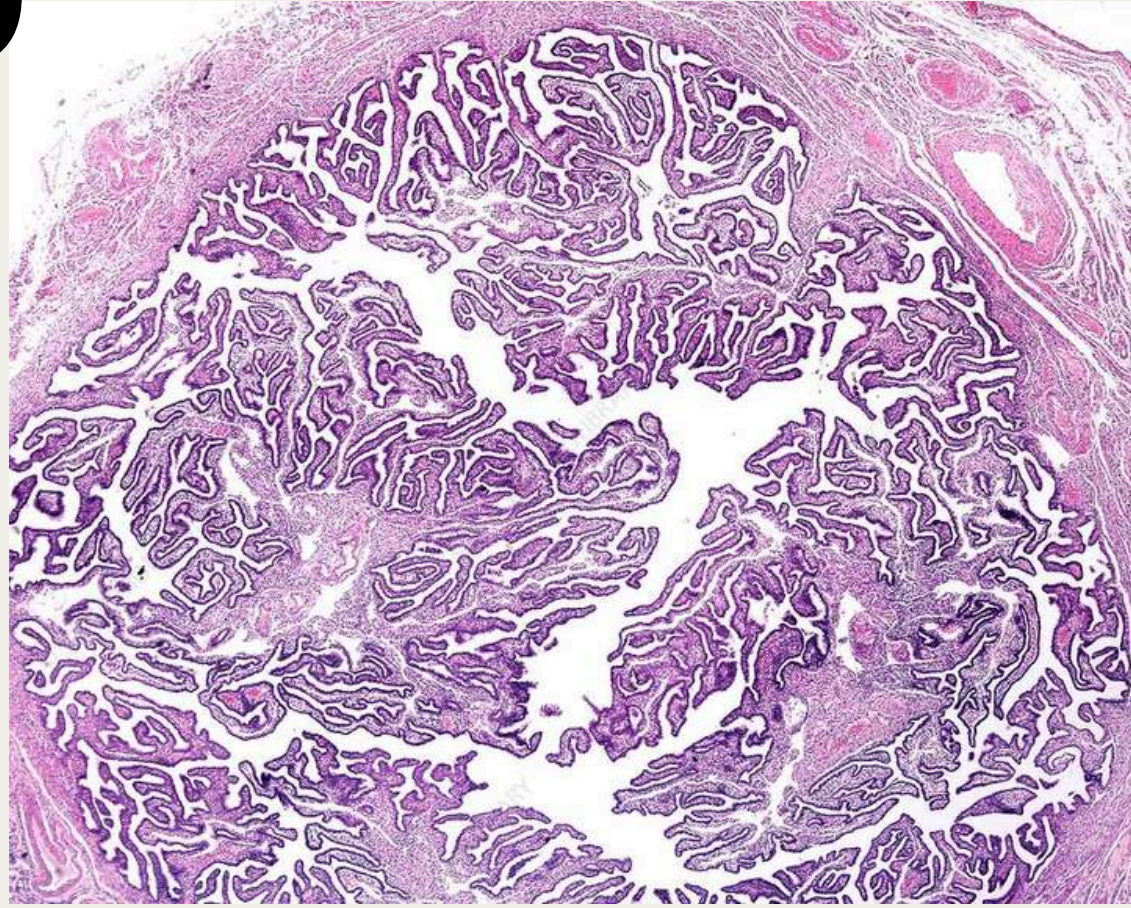

Q1 Identify umbilical vein

1. I
2. II
3. III
4. IV

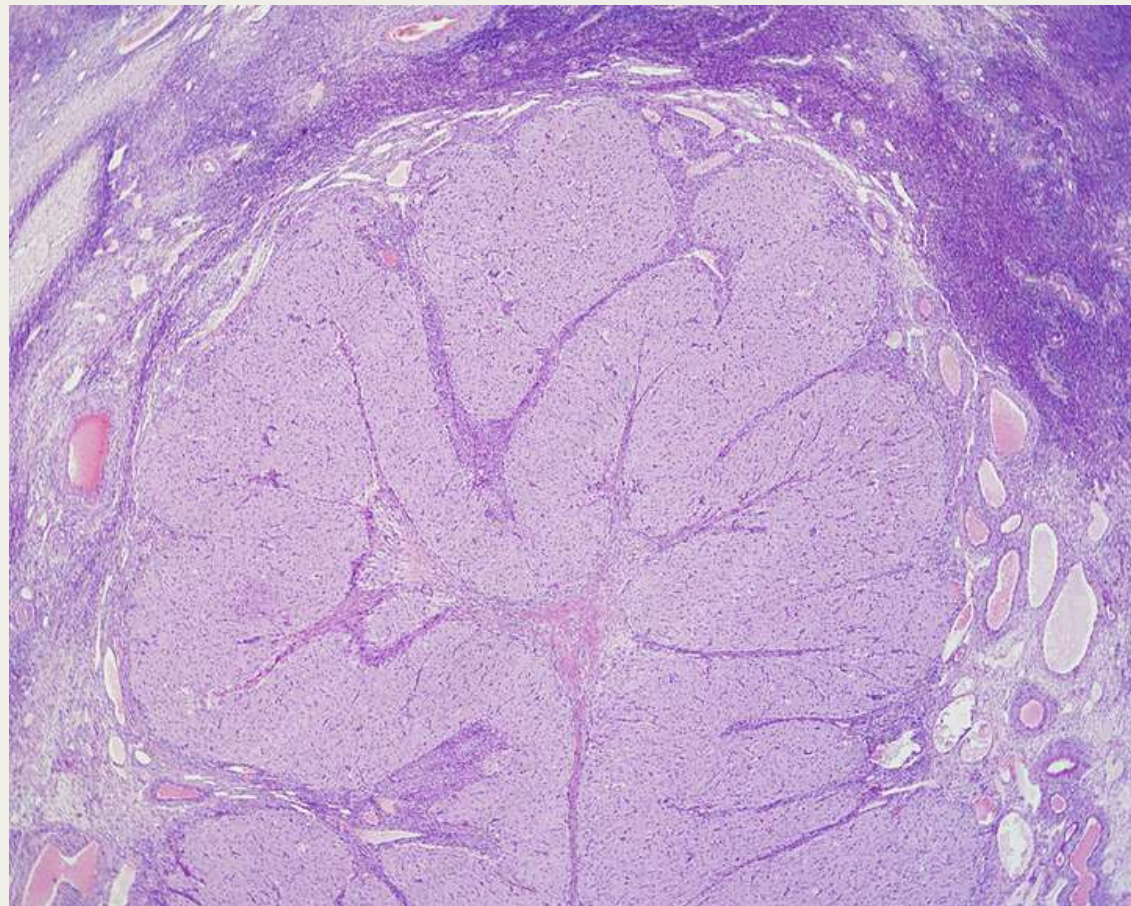

Q2 Identify intervillous space

1. V
2. VI
3. VII
4. VIII

23

A

B

Q1 Identify area A

1. Isthmic
2. Intramural
3. Ampulla of uterine tube
4. Fimbria

Q2 Identify area B

1. Follicular atresia
2. Corpus luteum
3. Corpus albicans
4. Primordial follicle

24

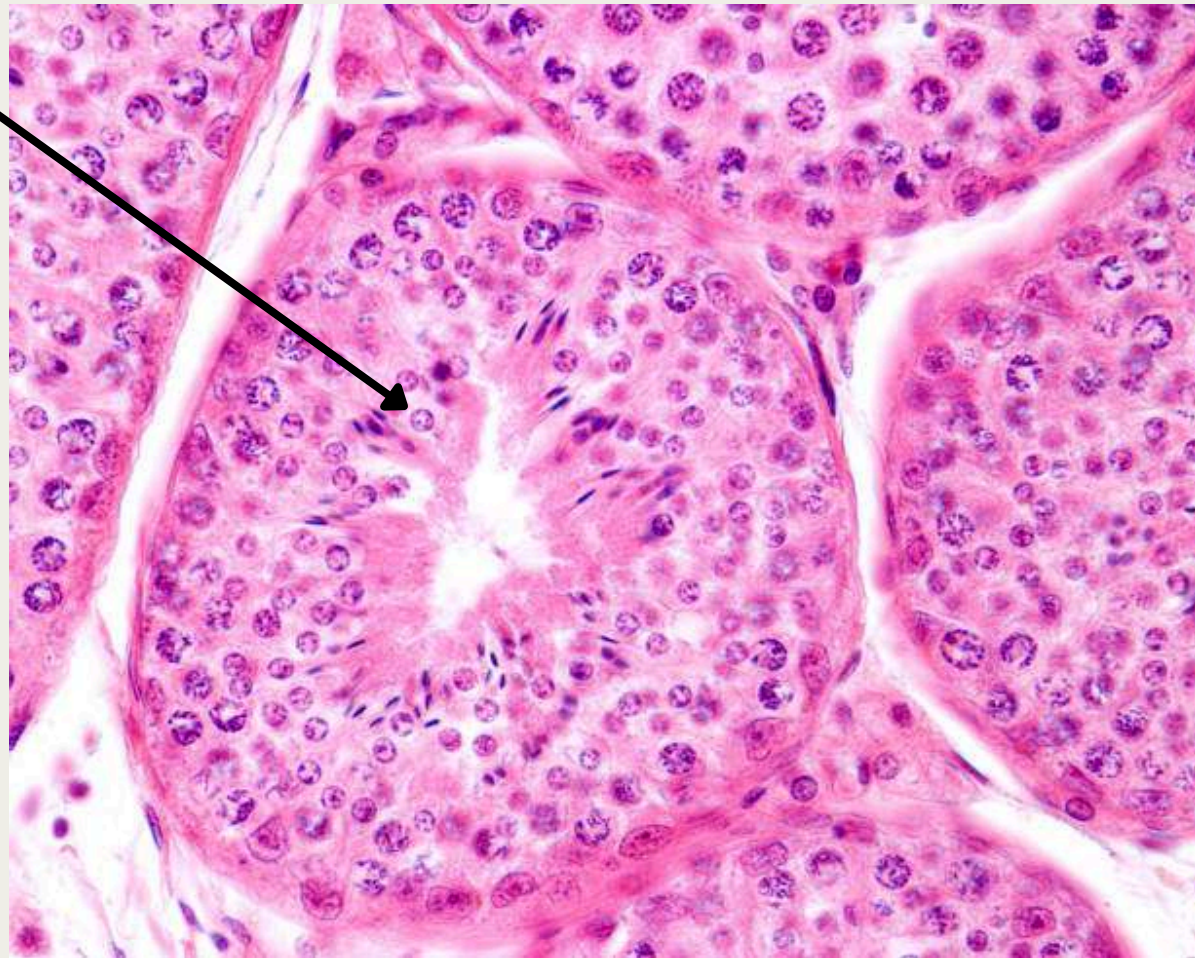

Q1 Identify red arrow

1. Sertoli cell
2. Spermatid
3. Primary follicle
4. Secondary follicle

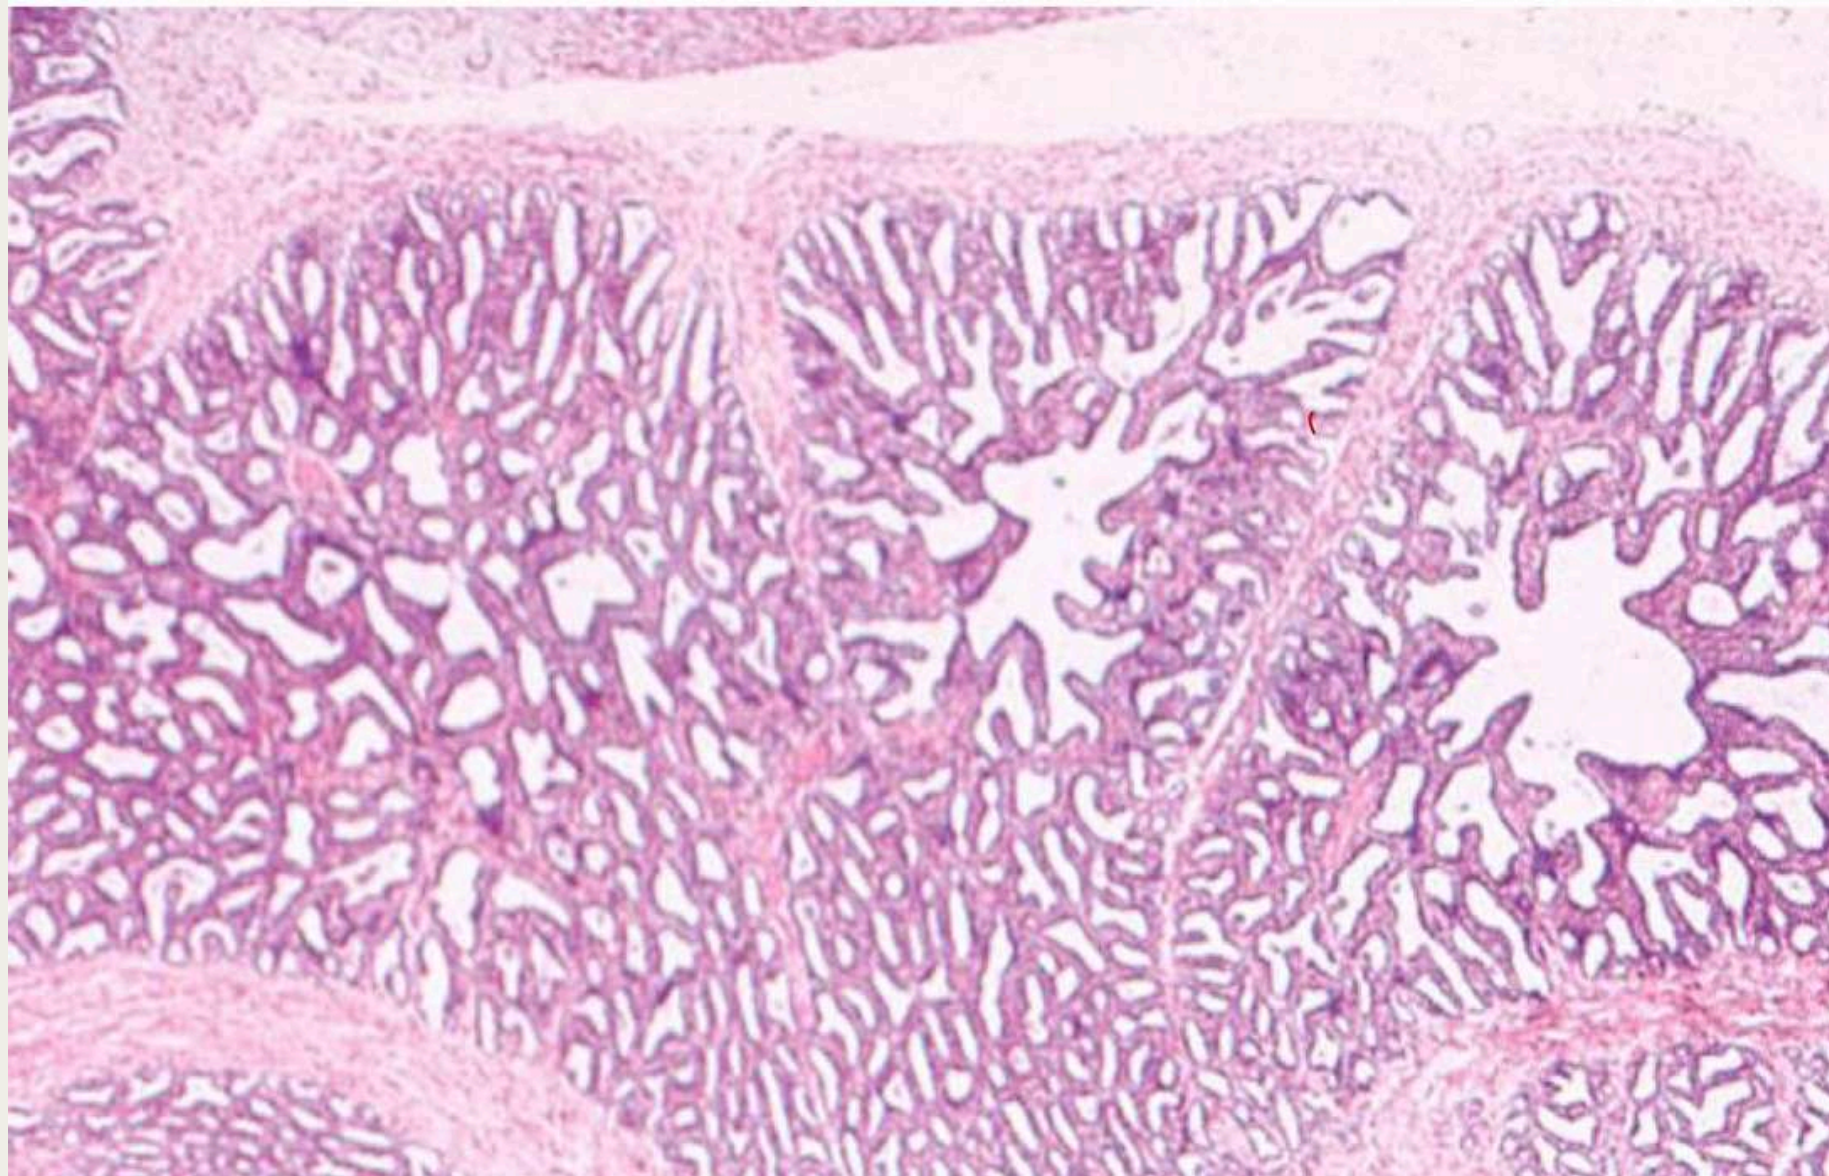

Q2 Which spermiogenic development has in black arrow?

1. Mitosis
2. Meiosis I
3. Meiosis II
4. Spermiogenesis

25

A

Q1 Identify area A

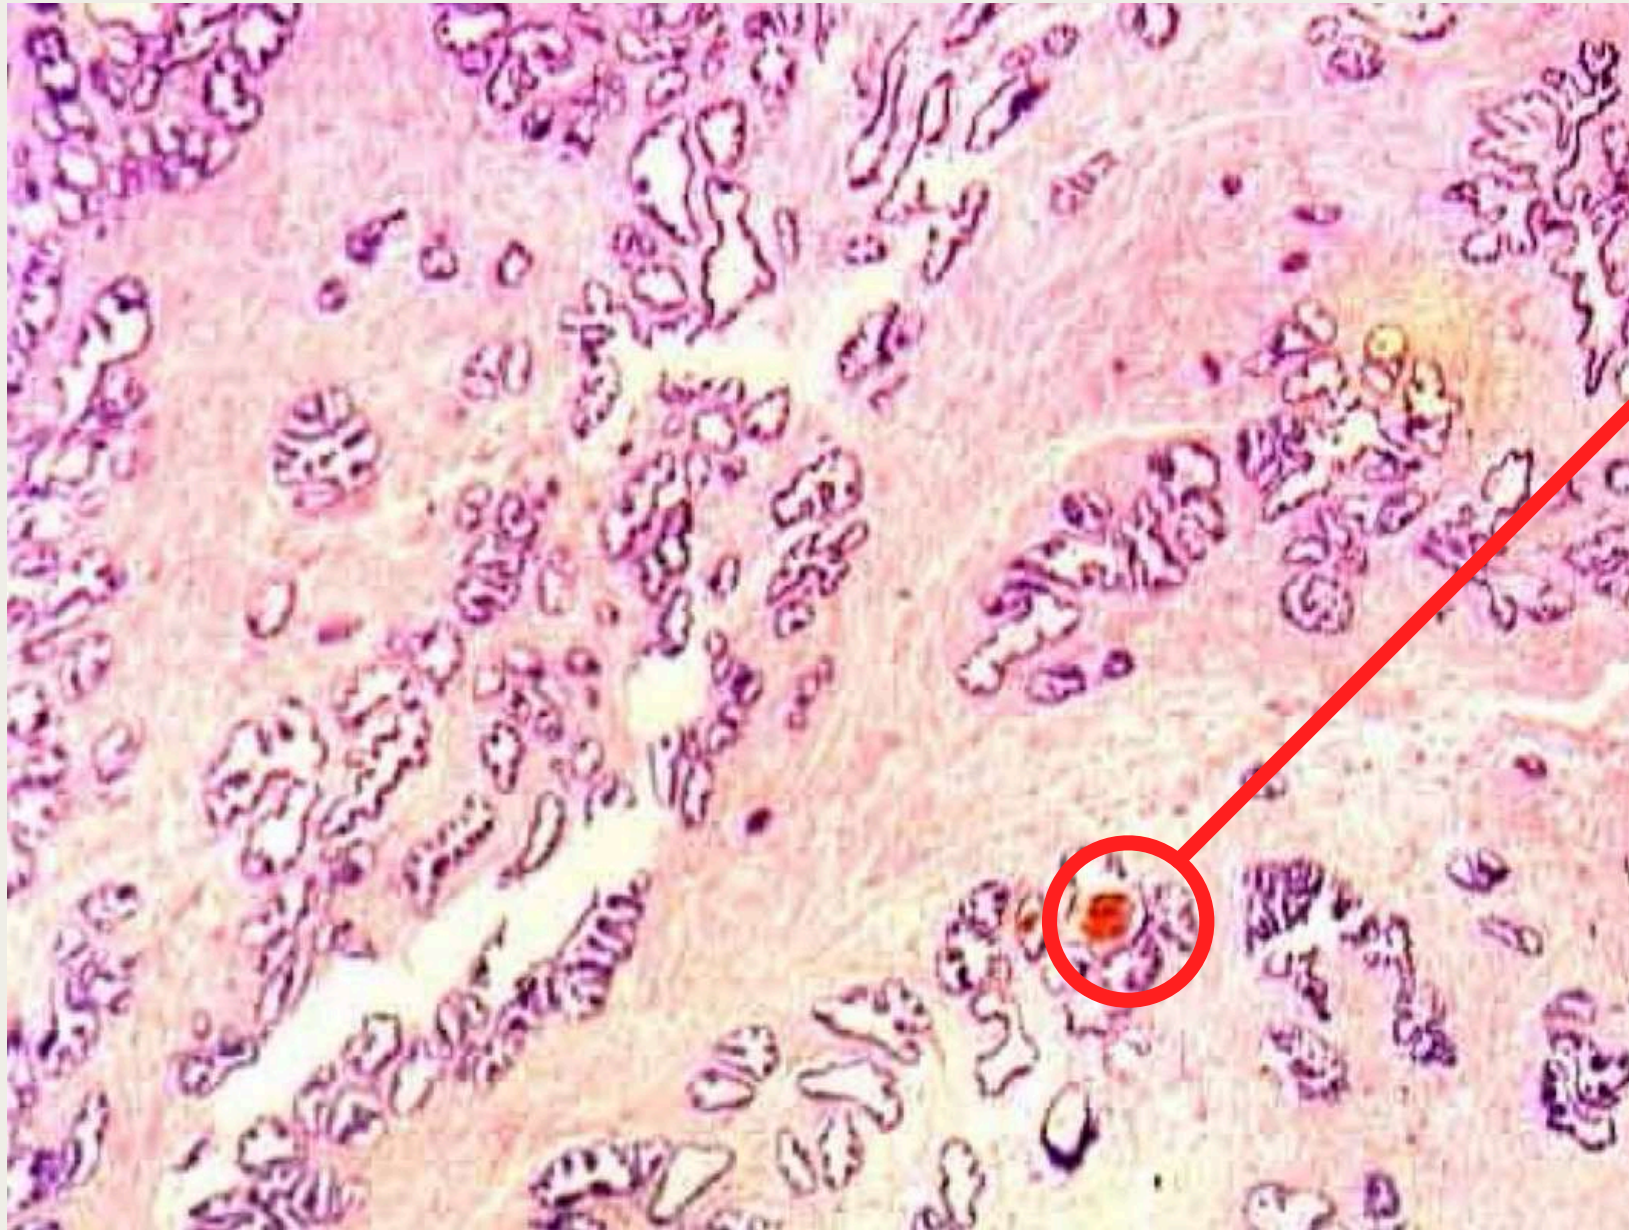

1. Prostate gland
2. Seminal Vesicle
3. Vas deferens
4. Ejaculatory duct

Q2 What is its function?

1. Zinc
2. Citric acid
3. Fibrinolysin
4. Fructose

26

A

Q1 Identify area A

1. Seminal vesicle
2. Prostate gland
3. Ejaculatory duct
4. Vas deferens

Q2 Which one is true about this structure?

1. corpora spongiosus
2. Fibromuscular stroma
3. pseudostratified columnar in general
4. Inclusion body

27

A

Q1 Identify area A

1. Ampulla
2. Prostate gland
3. Seminal Vesicle
4. Vas deferens

Q2 Which one is correct about this structure?

1. Outer circular
2. Middle longitudinal
3. Inner circular
4. mixed type ???

28

A

Q1 Identify area A

1. Rete testis
2. Epididymis
3. Vas deferens
4. Efferent ductule

Q2 What is its apical modification?

1. Stereocilia
2. Cilia and microvilli
3. microvilli
4. flagellum

29

A

Q1 Identify area A

1. Penile urethra
2. Prostatic urethra
3. Cavernous urethra
4. Vas deferens

Q2 What is its epithelium type

1. Pseudostratified columnar epithelium
2. Transitional epithelium
3. Stratified squamous epithelium
4. Cuboidal epithelium
